# SAYS NOW SHE WAS HIS WIFE

## Mary Mullen Surprises Friends of Policeman Who Died Suddenly.

## MOTHER SUPPORTS CLAIM

### Young Woman Asserts She Was Not Allowed to Attend Gilcrist's Funeral.

By claiming she was the wife of Policeman James Gilcrist, who died suddenly on Saturday, Mary Mullen, a handsome girl of twenty-two, daughter of a wealthy Brooklyn woman, has startled her friends and the relatives of the dead policeman.

Even by her most intimate friends Gilcrist was supposed to have been unmarried. He lived at No. 156 Nevins street, and it was there that he died suddenly of heart disease last Saturday morning. He was a popular man and had numerous friends among them many women. But it was not known that he was attentive to any one in particular.

Miss Mullen, or Mrs. Gilcrist as she claims, lives with her mother, Mrs. James Mullen, at No. 98 Second street, Brooklyn. When she heard of the death of Gilcrist she hastened to his house. She was refused admittance, she says, by relatives.

The funeral was announced to take place on Monday, but was postponed, Mrs. Gilcrist says, to prevent her attendance. On Tuesday it was held. There was no announcement made as to the place. Hoping to be present at the services Mrs. Gilcrist, in company with her mother, drove to several Catholic churches in Brooklyn. In despair she finally drove to Holy Cross Cemetery. She arrived just in time to witness the interment.

She says she was married to Gilcrist some time ago, and the marriage, for various reasons, was kept secret. Her claim, she says, she can and will prove.

Mrs. James Mullen, who is quite wealthy, owning considerable Brooklyn realty, said: "I knew of my daughter's marriage some time ago. Mr. Gilcrist refused to make public the fact principally because of a difference between us over property. He wanted me to sign over my holdings to my daughter. I refused to do this.

"The marriage is legal and it will be proved.

"The night before Mr. Gilcrist died he came to my house about 10 o'clock and stayed until 1 o'clock. He was looking ill at the time. When he left he kissed his wife tenderly, seemingly to feel something might happen. A few hours later he was dead."

# MY WIFE AND I NOT ESTRANGED.

*—Gen. McCoskry Butt.*

## CROSSES OCEAN ALONE BECAUSE BOYS NEED MOTHER.

### Rumors of Divorce Proceedings the Officer Denounces as Most Scandalous.

Before Gen. McCoskry Butt sailed on the steamship St. Louis to-day he made an emphatic denial of the stories recently circulated that he was to be divorced from his wife.

"The story of an estrangement between myself and Mrs. Butt," said the General, "is most scandalous. There never has been any trouble whatever, and there is absolutely no foundation for such a statement.

"I suppose the rumor was based on the fact that I am going to Europe alone. But the reason is that my two boys in St. Paul's School, in Concord, N. H., must have some one to take care of them. And then again, there is no reason why I should drag my wife across the ocean when I am only going to be absent for two months.

"I also wish to deny the report that I am seriously ill," he continued. "It is true that I am not entirely well and am going abroad for my health, but I assure you that I am anything but a dying man. On my return from Europe I shall immediately consult my lawyers and see if I can get some redress for the impossible stories that have been printed about myself and Mrs. Butt."

Mrs. Butt will leave for the South very soon, preferring to go there than to take the trip to Europe. She was not at the pier to see her husband depart.

Another passenger on the steamship was Rear-Admiral G. W. Sumner, U. S. N., who is on his way to take charge of the South Atlantic Squadron.

## GOT WORK AND WAS KILLED.

### Passaic Man Struck by Train After Much Vicissitude.

(Special to The Evening World.)

PASSAIC, N. J., Feb. 5.—John C. Blauvelt, of Prospect street, was killed by an Erie train here early to-day. He was crossing the tracks when struck.

Blauvelt was at one time a prosperous merchant in Passaic, but lost his business, and for some time was unable to secure any steady employment. The other day he found work at a bleachery on Carlton Hill. This was his second day at work.

# BARBER SHOP SPONGE MUST GO, LATEST HEALTH ORDER.

## "It Is a Menace to Every Face," Says Dr. Lederle, "and Must Not Be Used in New York Shops."

The disappearing, insanitary barber shop sponge is to be driven from every New York institution devoted to the removal of hair from the faces of men. Health Commissioner Lederle has issued the edict, and a score and hundreds of thousands of men who have been ignoring duty to do away with an abuse are taking up the Health Department cleanup.

"The barber shop sponge must go.

"No here's absolutely applicable exists than the barber shop sponge," said Dr. Lederle to an Evening World reporter to-day. "It is a menace to every face, it is a medium for the carrying of disease. There is no excuse for it, and I have decided that it must not be used in New York shops.

"Skin diseases are conveyed by the barber-shop sponge from man to man. At the present time there is prevalent in Cleveland an epidemic of skin diseases, the origin of which has been traced to barber-shop sponges. Nor is this an isolated instance. There are few men who do not know of cases where skin trouble has been spread by the sponge used by the barber.

"In Washington the rules governing barber shops are very strict, applying not only to sponges, but to razors, towels, soap, lather brushes, combs, hair brushes and even to the hands and jackets of barbers. In drug-store shops in this city there is little complaint on the score of general cleanliness, but it is surprising to know the number of supposedly first-class places that still use the unsanitary sponge.

"Every barber in New York will be notified to refrain from using sponges in his shop. I want all patrons of barber shops to report to me every case of violation of the rule. Steps will be taken looking to the punishment of every barber reported.

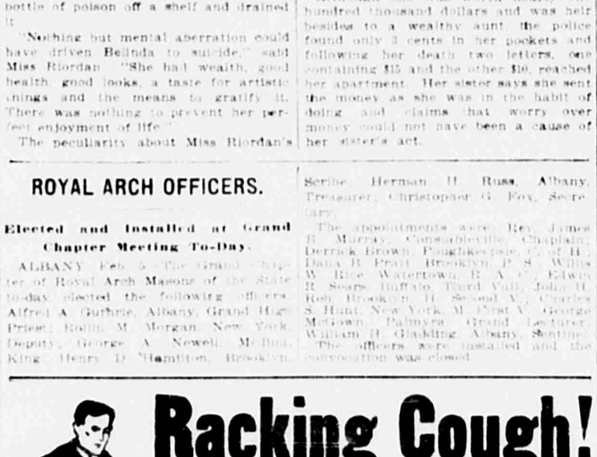
"There is absolutely no hardship to barbers in this rule. The sponge is the tool of the lazy man. It is a gatherer and sprinkler of disease germs. I do not apprehend that there will be great opposition to the idea of abolishing it, but if there should be I can assure the public that the recalcitrant barbers will be brought to terms.

Spasmodic crusades against the barber shop sponge have been carried on before in this city, but this is the first time that the Board of Health has taken a hand in the matter. Once a barber has contracted the habit of wiping a damp sponge over the face of patrons the only way he can be broken of it is to take the sponge out of his reach.

Dr. Lederle's rule will cause sincere sorrow in many barber shops. There are barbers who have been using the same sponges for so many years that they have become attached to them. When the day comes marking the burning of all these sponges a great many million skin disease germs will be destroyed.

# THINKS RICH GIRL SUICIDE INSANE.

## Sister of Art Student Who Died in Philadelphia Says Brother Also Killed Himself.



PHILADELPHIA, Feb. 5.—Miss Amelia Riordan, sister of Belinda Riordan, the wealthy and beautiful art student, who so desperately ended her life, arrived in the city to-day to take charge of her sister's body.

Miss Riordan's statement that her brother committed suicide several years ago without apparent motive explains in a measure her sister's act of self-destruction. Young Riordan, his sister says, walked into a drug store, took a bottle of poison off a shelf and drained it.

"Nothing but mental aberration could have driven Belinda to suicide," said Miss Riordan. "She had wealth, good health, good looks, a taste for artistic things and the means to gratify it. There was nothing to prevent her perfect enjoyment of life."

The peculiarity about Miss Riordan's suicide was the deliberation and thoroughness with which she carried it out. First she drank carbolic acid; then she stabbed herself with a palette knife and finally she dragged the tube from her gas stove and placed the end of it in her mouth. Clasped to her bosom was her Bible.

Miss Riordan occupied daintily furnished rooms in a fashionable boarding-house at No. 1801 Arch street. She was a pupil at the Pennsylvania Academy of Fine Arts.

Although she was worth nearly one hundred thousand dollars and was heir besides to a wealthy aunt, the police found only 3 cents in her pockets and following her death two letters, one containing $15 and the other $10, reached her apartment. Her sister says she sent the money as she was in the habit of doing, and claims that worry over money could not have been a cause of her sister's act.

# A MIGHTY HEALER.

## Cures the Sick by Mystic Power.

### You Can Know His Secret Free.

### Marvelous New Treatment Which Conquers All Diseases.

### You Can Be Cured at Home—Generous Offer of Prof. Atkin.

PROF. THOS. F. ADKIN.

"I consider it a crime to experiment with the health of the people," says Professor Thomas F. Adkin, President of the Institute of Physicians and Surgeons. "If I did not know positively and absolutely that my home treatment will cure all the methods of treatment fail, I would consider I was committing crime to make such a statement. The suffering is nothing so precious to a man as his health, nothing so horrible as an untimely grave. Little ills, if not promptly cured, often result in obstinate chronic diseases. I believe that my new discovery, Vitapathy, is the most marvelous treatment ever known, and I intend to give its secrets to the world. I believe that every man, woman and child should have its curative powers in their hands to cell the sick absolutely free of charge, how they may be restored to perfect health. I would rather be a benefactor to the sick man than to have the wealth of Croesus."

The results of Vitapathy are marvelous, but those who know Professor Adkin and have tried his treatment can vouch for their absolute truthfulness.

"I was nearly dead with liver and kidney trouble," writes Professor John C. Nelson, a well-known geologist and mining engineer, living in Dayton, Tenn. "The doctor had given me up to die. You can imagine what state of mind I was in. I could not attend to business and began to think my days were numbered. Hearing of the wonderful cures Professor Adkin had effected by his great discovery, Vitapathy, and as a forlorn hope wrote to him just the condition I was in, mentally and physically. He gave me a clear diagnosis of my case, and didn't charge me a cent for it. He prescribed a treatment which I began with little or no faith, but I am happy to state that I am now completely cured and am a firm believer in Vitapathy. From my own personal experience I believe Professor Adkin can almost raise the dead."

Mrs. A. J. Seifried, Stony Creek, O., writes this grateful letter: "I was affected with a severe case of eczema and Nettle Rash, which spread over my whole body. The itching and stinging at times were almost unendurable. I wrote Professor Adkin, and in four days after I began following his free advice he gave me the itching began to subside and the eruptions dried up rapidly. In ten days I was permanently cured. I feel better now than I have for the past ten years. The free advice Professor Adkin gives is a blessing to those who cannot afford to pay big doctors' bills."

Professor Adkin says: "I sympathize with the sick. I want to make every chronic invalid well. I want to prove what my treatment will do. I want every sick person in this country to write me personally. Tell me the leading symptoms of your disease, and I will at once make a thorough diagnosis of your case and outline a method of treatment which cure positively you. This will cost you absolutely nothing. I will also send you a copy of my new book on 'How to Get Well and Keep Well,' postage prepaid. You are not out a single cent. Write me in confidence fully and freely about yourself." Address PROF. THOS. F. ADKIN, Office 179M, Rochester, N. Y.

# Good Old Grandma's Advice.

The children are sick—send for grandma. Who is there like her for wisdom and gentleness and sympathy, since the first baby came? What would we have done without her?

"Cascarets are splendid, my old mother praises them very highly, and says she would never be without them."—Howard W. Wellman, 139 Tremont St., Fairmount, Ohio.

"I suffered seven years with tape-worm but didn't know I had one. Two months ago I was taken with inflammation of the bowels, sour stomach, sick headache. I tried Cascarets and had not taken them a week before I was relieved of a tape-worm 18 feet long. I am very much better."—Mrs. John Stone, Put-In-Bay Island, Ohio.

"After taking Cascarets for a few nights before writing, I was able to pass a tape-worm 34 feet in length. Cascarets have our praise, and I will willingly furnish a testimonial to anyone who desires it."—Mrs. Harry Wood, Kenneth, Ind.

"I was troubled for a long time with liver complaint and was in such misery that I had to give up work. I took but two doses of Cascarets before I was able to go to work again."—Mrs. Jos. Kreeling, 1921 Congress St., St. Louis.

"A year ago I was a great sufferer from piles and could get no rest day or night. I took Cascarets and after three days was very much better. I can never thank you enough for the relief Cascarets have given me."—Mrs. Mary E. Stewart, Pleasanton, Iowa.

"I had suffered with sick headache for many years, and with indigestion and constipation from time to time. Since using Cascarets I am free from these ailments and recommend Cascarets to all sufferers."—Mrs. Della Kerns, professional nurse, 256 West 36th Street, New York.

The wisdom of years of experience with her own health, and grandpa's and the children's, and the children's children, has taught grandma what is good for her and the several generations of family she has looked after. Grandma of to-day knows and advises that Cascarets Candy Cathartic are the only perfect family medicine for all bowel troubles, children's diseases, diseases of the stomach and liver, sick headaches, biliousness and bad blood.
