LITERARY ITEMS.

A new volume by Mr. Gerald Massey, entitled "A Tale of Eternity, and other Poems," will shortly appear.

Another Milton discovery is announced by an American scholar, being nothing less than two political pamphlets. An account of them is to be given in the next number of *Hours at Home*. It will be awaited with quite as much suspicion as curiosity.

Mrs. Stowe meets with tenderer treatment on account of her Byron story in England than in America. *The Spectator* says of her article, which appeared in *Macmillan's Magazine* simultaneously with its publication in *The Atlantic*, "Of the truth of this frightful story, which has been long whispered about—so far at least as that this was Lady Byron's motive—there can, it would seem, be little doubt; but of the necessity for publishing it at this distance of time we are not so clear. It will hurt the living, and it does not clear the dead, for nobody ever really believed that Lady Byron was in fault." *The Pall Mall Gazette* remarks: "Such is the story which Lady Byron confided to Mrs. Stowe, and which the latter now feels bound to publish in answer to calumnies lately revived and multiplied. That we have here the reason which caused Lady Byron to refuse all communication with her husband cannot be doubted, but how far her belief in the story was justified by facts, or was a mere hallucination, we are as far from knowing as ever. Dr. Lushington, perhaps, knows more, and some day may choose to tell it." And *The Star* adds: "Evidence of the truth of the story there is none; and, so far as we can see, there can be none of anything like a positive kind. The story may be true. There is no particular reason why it should not be true. But there is no particular reason why it should be true, either. Lady Byron, excellent person as she was in a thousand ways, was not at all unlikely to be the prey of morbid hallucinations."

GEORGE ELIOT'S NOVELS.

HOUSEHOLD EDITION.

Uniform, Compact, Legible, Handsome, Cheap.

THE MILL ON THE FLOSS.

1 vol. 16mo. Cloth, $1. Half Calf, $2 25.

This is the second volume of George Eliot's Novels issued under the author's sanction, in the Household Edition, uniform with Reade and Thackeray, which have proved so very acceptable to the reading public. A discriminating critic says:

"George Eliot has made people read novels who never read fiction from any other pen. She has made the novel the companion and friend and study of scholars and thinkers and statesmen. The deep philosophic thought of her novels suffuses and illumines them everywhere. You can point to no sermon here, no lecture there, no solid mass interposing between the incident and that, no ponderous moral hung round the neck of this or that personage. Only you feel that you are under the control of one who is not merely a great story-teller, but who is also a deep thinker. Her prose might be the study of a scholar anxious to acquire and appreciate a noble style. It is as luminous as the language of Mill; far more truly picturesque than that of Ruskin; capable of forcible, memorable expression as the robust Saxon of Bright."

THE SECRET OF SWEDENBORG:

BEING AN ELUCIDATION OF HIS DOCTRINE OF THE DIVINE NATURAL HUMANITY. By Henry James, Author of "Substance and Shadow." 1 vol. 8vo. Tinted paper. $2 50.

The scope of the book is to secularize the Christian dogma of the Incarnation, or take it out of the category of miracle, where it is commonly placed and show it to be, on the contrary, the foundation-truth both of nature and history. Mr. James has long been known as an independent student of Swedenborg, and this book gives the mature result of his investigations. It has a special interest for persons engaged in metaphysical inquiry, or in the existing debates between faith and science; but many incidental questions of the greatest practical import to thoughtful students of human nature are treated by the author with so much freedom and apparent insight, that the book will be found equally interesting to the general reader. Those of Mr. James's readers especially who believe in the eventual redemption of human nature itself, or in the establishment of a perfect society among men on earth as a possibility of human destiny, will hardly fail to read his pages with sympathy and profit.

RECOLLECTIONS OF OUR ANTI-SLAVERY CONFLICT.

By the Rev. Samuel J. May. 1 vol. 16mo. $1 50.

Very few persons in this country are so competent as Mr. May to tell the story of the struggle against Slavery. He was identified with the Anti-Slavery movement almost from its beginning, was intimately acquainted with all the leaders, and shared the stormy experiences through which they passed. He was fully informed of all the tactics employed by both its assailants and its defenders; he knew, and in his own person experienced, the several degrees of social, political and ecclesiastical ostracism endured by the Abolitionists while the power of Slavery was dominant, and the prompt recognition of their sagacity when its power was destroyed.

Mr. May has not attempted a complete history of the Anti-Slavery conflict, but from his well stored memory has produced a most graphic and valuable series of sketches of prominent persons and incidents of the great struggle.

ON THE EDGE OF THE STORM.

By the Author of "Mademoiselle Mori."

12mo, cloth, with Frontispiece.....Price, $1 75.

"This is a charming story. The sympathy which the author evinces toward all her personages, and the justice she does to their different modes of thought and opinion, are the main charm of the book."—[London Athenæum.

"This book is altogether a delightful one, showing great knowledge, a rare power of writing, and a far rarer artistic mastery over form and detail.—[Pall Mall Gazette.

PRINCIPLES OF PSYCHOLOGY.

By John Bascom, Professor in Williams College.

12mo, pp. 350.....Price, $1 75.

"All success to the students of physical science; but each of its fields may have its triumphs, and the secrets of mind remain as unapproachable as hitherto. With philosophy and not without it, under its own laws and not under the laws of a lower realm, must be found those clues of success, those principles of investigation, which can alone place this highest form of knowledge in its true position. The following treatise is at least a patient effort to make a contribution to this, amid all failures, chief department of thought.—[Extract from Preface.
