MR. ROOSEVELT'S PLAN FOR LABOR.

President Tells Grand Lodge One Way to Solve Problem Is to Unite Employer and Employee in Masonry.

TEACH THEM BROTHERHOOD.

Indispensable Prerequisite of Success, He Says, Is Genuineness in Spirit of Fraternity and This Is to Be Found in the Order.

PHILADELPHIA, Nov. 6.—President Roosevelt's speech before the Grand Lodge of Masons, in session here, is being favorably commented upon. He said in part:

"Each one of us that is worth his salt is trying to do his share in working out the problems that are before all of us now at the beginning of the twentieth century. And so does any man in public life, whatever his position be; if he is interested at heart, he has the desire to do some kind of substantial service for his country.

"He must realize that the indispensable prerequisite of success under our institutions is genuineness in the spirit of brotherhood. Masonry should make, and must make, each man who conscientiously and understandingly takes up his obligations the best type of American citizenship, because Masonry teaches him his obligations to his fellows in a practical fashion.

"The lesson of brotherhood—that is the lesson that has got to be taught and got to be learned and applied to us as a people if we are to solve the great industrial and social problems of to-day. If we could get wage-workers and employers in any given occupation or in any given district in a lodge together, I guarantee the result. I guarantee what will happen

"If that thing could happen we would come always into the lodge, each respecting his brother and each wanting to do what was good for his brother; each recognizing that in our government every man of us has to be his brother's keeper."

HOLIDAY SHOPPERS AT STRIKERS' MERCY

Silverware Will Be Scarce in the Christmas Stores This Year Because of Labor Trouble.

Striking silversmiths hold the Christmas shopper at their mercy, but it is not unlikely, say their employers, that they will pull down the house on their own heads. Unless they return to work in the big New York factories there will be a shortage in the silverware market for the holiday trade, and if this demand is not supplied the manufacturers say they may just as well stay closed until Feb. 1.

Retail jewellers are at their wits' ends. Already the demand for dainty pieces for "my lady's" dresser and dining room pieces has been made by the shopper who prepares for Christmas early. This shopper didn't know that the price on the pretty ware might be greatly increased within the next few weeks if the men whose skilled labor makes it possible do not return to work.

In their extremity the retail men may send to European cities, for the manufacturers can offer no assurances. The men have made as determined a stand for a nine-hour day as their employers have made against it, and the end of the struggle is not in sight. Orders must be filled by Dec. 1 if at all, and most of the shops are idle.

It requires three years for an artisan to become skilled as a silversmith. Skilled men, the workers say, get only from $12 to $14 a week and work ten hours a day. They want the workday shortened. The employers say the wages range from $14 to $24 a week and that it is impossible to shorten the hours at the present prices received for the ware.

Cold Plunge for Kaiser.

Michael Kaiser, twenty-three years old, of No. 237 Seventh street, while sitting on the string-piece of the pier at the foot of Seventh street to-day fell into the East River. He was rescued by a special policeman on duty on the pier.

STRIKE BOARD STARTS FOR HOME.

Commission Finishes Inspection of Mines and Will Rest Before Reassembling in Scranton.

POTTSVILE, Pa., Nov. 6.—The coal strike arbitrators having finished their inspection of the mines are on their way to their homes for a rest until Nov. 14, when they will begin taking testimony in Scranton.

A final trip to the coal regions in this vicinity was made to-day, after which the Commissioners parted. Bishop Spalding went West, Commissioner Watkins to his home in Scranton, and the others in the party started East.

Before separating the arbitrators agreed finally to hold their first session for the taking of testimony in Scranton and Commissioner Watkins was delegated to secure quarters.

It was also decided to follow civil court rules as closely as possible at the sessions, but with more latitude in the admission of evidence.

The status of the independent coal companies in the present arbitration proceedings is not quite clear. All of them have been invited to participate in the hearing if they so desire.

The Lehigh Coal and Navigation Company, it is understood, has agreed to abide by the decision of the commission, as also have several smaller independent concerns. It is believed that all of them will accept the arbitrators' decision. If they do this the Board is likely to take up the grievances which have arisen at some of the independent collieries since the strike was declared off.

The commission has steadfastly refused to visit any collieries where the owners have not agreed to abide by the award of the commission.

In leaving to-day the arbitrators were frank in declaring themselves gratified that the inspection of the mines was over. They experienced much hardship in the seven days' tour, but are thoroughly posted for the work now before them.

CURED OF LUNG TROUBLE By the KOCH LUNG CURE.

"I was unable to sleep on account of severe coughing, sneezing and asthmatic attacks every night, and therefore determined to try the Koch Lung Cure, at 48 West 22d St., New York. Since taking the Koch Inhalation treatment I have slept every night and have had no asthmatic attacks, in fact, the Koch treatment made me well, and I have remained well.

"For years I could hardly walk without holding on to the fences and had to lift my limbs to go upstairs. I would not go through this experience again for $10,000.

"I live at 200 East 82d St., New York, where I am well and favorably known in the fur business. It is well known that people who work among sealskins and similar furs, as I do, are subject to this disease. I never expected to be cured without leaving this climate, but I at last found a treatment that absolutely relieved my bronchial tubes and throat by breathing into the air-passages the healing, oily vapors of the Koch Lung Cure, at 48 West 22d St., New York.

"As I am cured, I feel so grateful that I do not hesitate to offer my testimonial for publication for the good it will afford my fellow-sufferers.

"I cannot bear to think of those who are suffering when the cure is at their doors. I therefore make this frank statement and am willing to prove the truth of it to any one who will call upon me at my home.

"MRS. LOUISA LAZLAY,
"200 East 82d St., New York."

A TIP—The way to reach the homes of New York is through the newspaper that the homes use to reach their help. That paper is The World.

1. Counsellie to Nina.....Wekerlin — MISS STODDART.
2. Had a Horse, a Finer No One Ever Saw.....F. Korbay — MR. HEMUS.

Had a horse, a finer one no ever saw,
But the Sheriff sold him in the name of law,
E'en a stirrup cup the rascal would not yield,
But, no matter, more was lost at Mohacs field!

Had a farm house, but they burnt it to the ground,
Don't know even where the spot could now be found,
In the county roll 'tis safe inscribed and seal'd,
But, no matter, more was lost at Mohacs field!

Had a sweetheart, mourn'd her loss long years and years,
Thought her dead and every day gave her my tears;
Now I find her 'neath another's roof and shield—
But, no matter, more was lost at Mohacs field!
