**WHEAT MARKET.**

After opening firm to-day wheat sold off on the expectation of a bearish weekly crop report. The principal feature of the early market was the foreign buying of July.

Corn opened quiet and unchanged, but later eased somewhat.

New York's opening prices were: Wheat—July, 89 7-8; September, 84 3-8; December, 84 3-8. Corn—July, 53 1-4; September, 53 1-4 bid.

Chicago's opening prices were: Wheat—December, 80 1-8; July, 84 7-8 to 85; September, 80. Corn—May, 43 1-8; July, 47 7-8; September, 48 5-8; December, 44.

**COTTON MARKET.**

Weak cables from Liverpool and the splendid weather in the South caused the market to open from 5 to 21 points lower to-day. It soon became evident, however, that after the big decline yesterday and the new low records this morning the crop was heavily oversold and it took but little support to start the market upward, and prices jumped rapidly all around.

The opening prices were: July, 10.50 offered; August, 10.20 offered; September, 9.52 to 9.55; October, 9.36 to 9.37; December, 9.39 to 9.40; January, 9.37 to 9.38.

The late prices were: July, 10.38; August, 10.21; September, 9.57; October, 9.43; December, 9.45; January, 9.45.

## LONDON STOCKS QUIET.

### Dealings in Americans Not Sufficient to Establish a Tone.

LONDON, June 19.—The rates for money were easy in the market to-day and the supply was abundant. Discounts were steady. Business on the Stock Exchange was quiet and the variations in prices were slight. The tone was favorable and the immediate prospects of the credit market were helpful. Consols were easier on the pending issue of the $25,000,000 balance of the Transvaal guaranteed loan.

Americans were slow and featureless, the business transacted being insufficient to establish a tone. The market closed dull.

## TRIED TO SMUGGLE CIGARS.

### Some One Concealed Them in a Barrel on a Ship.

Customs Inspectors Hooley and O'Neil took to the seizure room of the Appraisers Stores to-day 2,282 cigars which they had seized on the Ward line steamship Monterey, from Havana.

The cigars were found in a barrel that had contained aorned beef, where it is supposed they were placed by members of the ship's crew. When the officers appeared several men struggled to prevent the seizure and the inspectors said they were glad to get away with their lives and the cigars.

# GOULD'S SON WILL AID HIS FATHER

## Kingdon Taking Examinations for Admission to School of Mines at Columbia Preparing Himself for Railway Work.

Kingdon Gould, eldest son of George J. Gould, is taking the examinations for admission to the School of Mines of Columbia University next September. He took the preliminary examinations last year and passed with a high rating. He has already passed the examination in physics and must still pass in geometry and chemistry before he can enter.

Kingdon is seventeen years old and was prepared for college by his tutor, F. O. Huntsman, a Yale graduate. Jay, his younger brother, will take a course at the Columbia Law School. They are preparing themselves to assist their father in the management of the Gould system, and already know every town along the lines of the Gould railways and the principal industries of each town.

Mr. and Mrs. Gould will go abroad with their daughter Marjorie this summer, Kingdon and Jay going to Furlough Lodge, in the Catskills.

Positively the largest sale of fine Coque and Nagoirs feather plumes ever inaugurated in America.

NO KITH or kin to any similar sale that's ever taken place in this country—eclipsing in magnitude, scope and value-giving any feather sale America has ever known—that's a strong and bold assertion, but we wish we could make it more emphatic—values warrant it and so do the plumes. Main Floor.

You know those long, graceful coque and Nagoirs feather plumes used so effectively for trimming ultra-fashionable hats—a trimming that's the correct vogue all the year around—of course you do—all correct followers of fashion do.

Well, we're going to sell these plumes for 65c. and 95c. each, and there's not one in the lot worth less than $1.25 and many worth $1.95, but, while the prices are extraordinarily low, the beauty of the feathers will please you most because, without a doubt, they are the handsomest gathering ever brought to America by any importer of high quality trimmings for stylish millinery.

The ideal trimming for hats for the steamer, seashore, mountain or outings of all kinds, so effective and artistically picturesque that your critical taste simply will not allow you to be without one or two such creations.

We purchased the entire Spring importation of fancy feathers from a well-known merchant at an unusual price concession, hence these wonderful values. So great an acquirement was a surprise to us—the demand is so great.

Come in and let us give you a practical demonstration of how to use these feathers. It costs you nothing to acquire the art of arranging them in the cleverest manner.

10,000 yards of embroideries worth to $1 at 25c.

WHEN we say these beautiful and seasonable embroideries at 25c. a yard are worth up to $1.00 we don't mean that they are simply so good that $1 wouldn't be too high a price for them. We mean that you actually pay up to $1 for them in other stores—stores that profess to and do give good values. It rests with the merchant fortunate enough to secure the importers' surplus stocks to give such sensational values as $1 embroideries at 25c. That's what Simpson Crawford succeeded in doing. Main Floor.

We do not claim that they are all $1.00 embroideries, but we do assert emphatically that not a single yard sells regularly for less than 50c., and that's twice as much as we ask. It's the crowning event of the embroidery season—the selling of 10,000 yards of embroideries that are so much in demand during this season of the year at ½, ⅓ and ¼ regular prices.

All the fine cambric embroideries, 8 to 18 inches, and the best made imported goods are included.

For corset covers, For skirt ruffles, Worth to $1.00 — For children's dresses, For dress flouncings, To-morrow, 25c. — For misses' dresses, For infants' dresses,

We want to say positively to those who have been waiting for our great Summer clearing sale that the event begins to-morrow, when prices will be the lowest of the season.

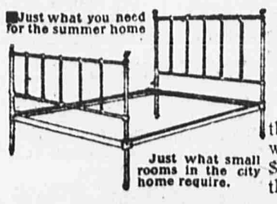
$4 steel bedsteads at $2.50.
$2.50 steel springs at $1.25.

HERE'S all we ask: That you pay less for this substantial steel bedstead and strong steel springs combined than you would ordinarily pay for the bedstead alone, and without the springs it wouldn't be of any use whatever. Fifth Floor.



Just what you need for the summer home

Just what small rooms in the city home require.

We could offer you the bedstead alone at $4 and you'd be right in thinking it a splendid value. We'd sell a great many, of course, but a good many people would be disappointed when they came to pay extra for the springs.

We don't believe in methods of that kind, and that's just the reason we offer the bedstead and springs for $3.75—less than the regular price of the former alone.

$2.50—This bedstead is of tempered steel, brass mounts, best baked enamel, guaranteed not to scale off; sizes, 3 feet, 3.6, 4, 4.6; best construction.

$1.25—The springs are our special all-steel frame, heavy tube, side rails, angle iron ends, closely woven, double fabric, built for strength and comfort.

Every idea of the latest Singer is embodied in the construction of this machine—has all ball-bearing parts, which tend to relieve the efforts of the one who sews—noiseless—self-threading shuttle, automatic thread release and all the latest attachments—wearing parts of case-hardened steel — woodwork highly polished oak, new style, swell front, drop-head—has appearance of table when closed.
