BEEVES—It will be observed that Texans are coming forward quite freely. Some received during the past week were really fat. At least they were good enough to bring 11c. ⅌ ℔, and weighed 7 cwt. Those of 6 cwt. sold at 9c. to-day, with little 4½ cwt. steers at 8½c. Kentucky is also giving us quite a good many cattle, and a stray little lot occasionally hails from this State. The average quality of the past week was fair.

The stronger feeling noted last week still continues, and about ½c. advance upon the then current rates has been established, but the advantage has not been largely on the side of the drovers, for prices advanced on the way quite as much as they did here. There were 5,329 beeves on sale to-day, viz.: 141 car-loads at Communipaw, 87 at One-hundredth-st., and 64 at Weehawken. The dullness in the dead-meat markets indicated that drovers were likely to have a hard time of it, and they manifested some anxiety to get rid of their goods at the opening of the market, but there was a rally before noon, and latest sales were best, with considerable competition. This, too, in the face of a liberal supply of cattle, showing that, cheap as are the peaches, people have not given up their beef. The heavy demand for ribs, rounds, and other good cuts, to supply the watering-places, necessitates the killing of many cattle, the coarse parts of which go to packers very low. The Communipaw drovers were: J. R. McPherson and his associates, 41 cars; D. H. Sherman, 23 cars; S. W. Allerton, 20 cars; J. H. Dalbey, 16 cars; M. Goldsmith, 12 cars; Kahn & Furst, 11 cars; R. Westheimer, 9 cars; R. Gallagher, 5 cars; R. W. Gillett, 4 cars.

Coney & McPherson made the following sales, viz.: 185 of their own Illinois steers, 7 cwt., at 11@12¼c.; 151 decent Texans, 6 cwt., at 8c.; 112 Indiana, 6 cwt., at 10½@11c.; 64 Illinois, 6½ cwt., at 10½c.; and 161 Ohio, for Kelley & McPherson, mixed, 5½@6 cwt., at 11@12¼c.

J. H. Dalbey sold 252 Illinois steers, 6½ cwt., at 11@12½c.

Kahn & Furst had 58 extra fat Kentucky high grade Durhams, fed two years in Fayette County by J. Doneby. They had the reputation of being one of the best droves in Kentucky. The weight here was 10 cwt., and price 12½c. Mr. K. also sold 95 Kentucky cattle of 7½ cwt. to H. Westheimer at 11½c. Mr. W. retailed them at 11½@12c.

R. Westheimer had 146 Ohio and Virginia cattle, 7¼ cwt., sold at 11½c., with 96 of the Sherman Illinois steers, 6¾ cwt., sold at about 11c., and 41 very fine Illinois steers, 8 cwt., to Snowden & McConvill at just about 12½c.

C. J. Fagan sold 37 Illinois steers for R. Gallagher, scant 6 cwt., at 10½c.; also 77 Iowa cattle for S. W. Allerton, rough, 7 cwt., at 10½@12c.

R. W. Gillett sold his 53 ordinary, 6 cwt., Illinois steers, at 10@11c., and 180, 7 cwt., at 11c.

S. Moses, for S. W. Allerton, 45 Illinois steers, 6½@7¼ cwt., at 10½@12c.

M. Goldsmith had 176 Kentucky cattle, 7½@9¼ cwt., selling at 11½@12½c.

Mead & Vail, for D. H. Sherman, 70 roughish, 7½ cwt. Iowa cattle, at 11@11½c.

THE TEXAS CATTLE TRADE.

CHICAGO, Ill., Aug. 14.—*The Fort Scott* (Kansas.) *Monitor* gives a discouraging account of the cattle trade, notwithstanding the high price of beef in the Eastern markets. At Barter Springs and the sources of supply there is absolutely no market. There are now 40,000 head of cattle within a few miles of that city, and fresh heads are constantly arriving. Not half the cattle fit for sale have yet arrived at any shipping point in Kansas, and after six weeks of tedious driving over plains from Texas, fighting flies by day, and cattle-stampeding nearly every night, cattle owners arrive at Barter Springs or Abilene to find prices so low at St. Louis and Chicago that shippers will not take hold. At Barter there is no stated price at present, and there are no offers of cattle. They usually sell at about 1c. a pound, while last year they brought nearly 2c.

First Mortgage
SINKING FUND
LAND GRANT BONDS
OF THE
ST. JOSEPH AND DENVER CITY
Railroad Company,
WESTERN DIVISION.

These Bonds can now be had from the undersigned, or through the principal banks and bankers of the United States.

They have thirty (30) years to run, bearing Eight Per Cent (8 p. ct.) Interest, payable on the 15th days of August and February in each year. The Principal and Interest are payable in *Gold*. The Principal in New-York; the Interest in New-York, London, and Frankfort-on-Main, free of tax. They are Coupon Bonds, but can be registered or converted into Registered Bonds, and are receivable at par and accrued interest in payment for the Company's land sales. The payment of the principal and interest is secured by a first and only mortgage on the Company's Lands, granted by the United States in 1866, lying on the line of this road, and amounting to 1,500,000 acres, the railway of the Western Division, extending from Marysville, Kansas, to a junction with Union Pacific Road at Fort Kearney, a distance of 170 miles, together with the Equipments appertaining, Franchises, Rights of Way and Personal property.

The mortgage is made to the Farmers' Loan and Trust Company of New-York, as Trustees.

The Bondholders are amply protected by the terms of the Mortgage Deed, which prohibits a sale of the Company's lands at less than four ($4) dollars per acre and a release of the lien of this Mortgage upon any portion sold until the purchase money is paid to the Trustees, who are authorized to apply the same to the payment of these Bonds, either by purchase or to the Sinking Fund, for their redemption at maturity. This will more than extinguish the debt and leave the railway and equipments free. The security for the payment of these Bonds is therefore beyond all contingency.

Holders of 5-20's, and especially those who do not desire to be paid off by the Treasury Department, can now exchange their Governments for these Bonds at a *good and substantial profit*.

The location of the line of the St. Joseph and Denver City Railroad is a commanding one, from the fact that it is a practical extension westwardly of the Hannibal and St. Joseph, the next Land Grant road after the Illinois Central. The St. Joseph and Denver City Railroad is fed at its eastern terminus (St. Joseph) by Railway lines coming direct from Hannibal, St. Louis, Chicago, and local roads converging at St. Joseph. Its business is therefore secured. Its connection with the Union Pacific road opens up the through middle route across the continent, and is of national importance. This is reflected in the fact that the quantities of letters and telegrams which we have received during the few days the Bonds have been for sale, applying for these Securities, indicate the quick response of the American people in support of internal improvements, while at the same time they make a good investment.

Price for the present, 97½ and accrued interest in currency.

Circulars, maps, pamphlets, documents, &c., furnished upon application.

Expressage relating to the Bonds free. Marketable Securities received in exchange.

We have been at great expense in the examination of this property and the bonds and mortgage, and are satisfied the investments in this Loan will not only be safe but profitable. We base our calculations on the fact that the First Mortgage Bonds of this Company, on the Eastern Division, lately successfully placed by our firm at 97½, have advanced to 102 and accrued interest, making them rule at 106, or nearly ten per cent advance.

Under all circumstances, we unhesitatingly recommend them.

TANNER & Co., Bankers, No. 11 WALL-STREET.

EIGHT PER CENT
First Mortgage Bonds
MOBILE AND MONTGOMERY
RAILROAD Co.,
INDORSED BY THE STATE OF ALABAMA.
PRINCIPAL AND INTEREST PAYABLE IN
GOLD.

After a careful examination, we confidently recommend these bonds, because:

1. They are a first mortgage upon a road already completed and in successful operation, with net earnings well established for several years, at much more than enough to pay the interest on all the bonds authorized to be issued.

2. The proceeds of these bonds will complete an extension of 15 miles of heavy work, from Tensas into the CITY OF MOBILE, dispensing with the present steamboat service, curtailing expense and increasing efficiency of the road.

3. The road is 182 miles long; entire mortgage, $2,500,000, or a little over $13,000 per mile; cost of road, over $30,000 per mile.

4. It connects MOBILE and MONTGOMERY, and is a link in the route from NEW-ORLEANS to NEW-YORK, and also between the GULF and LOUISVILLE, by the insured completion of the road from MONTGOMERY north to DECATUR, being built by the LOUISVILLE AND NASHVILLE R. R. Co.,
