"BOB" WAS A MEMBER OF 5TH U. S. ARTILLERY.

"Bob."

"Bob," an Irish terrier that lived to the remarkable age of sixteen years, and that was a member and pet of the old Fifth United States Artillery, and a friend of Gen. Leonard Wood and many officers and men now in the Philippines, was buried yesterday with appropriate honors in the dog cemetery at Mamaroneck. "Bob" was born at the Presidio, California, and came to Fort Hamilton, Brooklyn, with the Fifth Cavalry nine years ago. Hall, of Manhattan avenue, was the owner of "Bob."

SUBWAY SNEEZE NOW JARS ALL PASSENGERS IN CARS

Everybody Goes "Atchoo!" When the Trains Dash Through the "Dew," for There's Powder in the Breeze that Impels All Hands to Wheeze.

It became noticeable to-day that that section of the Subway between the Grand Central Station and Thirty-third street, the deep cut through the rock known as the "Dew," has been sprinkled with sneeze powder, or some chemical substance has commingled with the tunnel atmosphere that sets the nose glands in turmoil.

Directly the trains dip into the "Dew" the passengers in the first car begin to sneeze. Thence the "kerchoos" go down the line to the end of the train. Before the end of the cut is reached every olfactory bugle in the train is playing its own peculiar air, with far from harmonious results.

A young man named Currie Rice, who was one of the first to go through the "Dew" to-day, says that so violent became the sneezing on his train that the cars rocked on their rails, and the vibratory "atchoos" continued until the train issued from the rock-hewn cut.

Blast Like Old Borers.

"Even the air-brakes were sneezing," asserts this veracious young man, "and the motorman let go such a tremendous sneeze that the wind of it swept down the tube as far south as Fourteenth street, blowing an elderly lady from the station platform up to and out through a kiosk." Though he didn't investigate, he believes she had to pay a second fare.

Experts are of the opinion that Subway influenza has set in, and may spread from Rector street to Washington Heights. The only remedy suggested to passengers is that they hold their noses from the time they enter the tunnel until they issue from it. There are some patrons of the road, however, who assert that they have been doing this all summer.

"WAR" SURVIVORS HERE.

The United States transport Sumner arrived to-day from Fortress Monroe with troops for distribution to the nearby posts.

The men brought on have been engaged in the recent war game at Fortress Monroe.

WILL YOU HELP ALONG THIS GOOD WORK TO-DAY?

Only $8,000 Will Save 700 Families in Urgent Need of Milk, Medicine and Even Food.

The Association for Improving the Condition of the Poor has three methods of mitigating the suffering from extreme heat. Thirty thousand babies and mothers will be sent to Sea Breeze; 250,000 baths will be given in two public bathhouses. But many hundreds cannot be relieved in public baths or at the seashore. If their suffering is to be relieved at all it must be inside the home.

For the summer relief work we shall require $8,000. We have over 1,300 families in charge at the present time, of whom 700 need help immediately. Two thousand dollars is needed for material relief in July. No sum is too small, none too large. Gifts should be sent to Robert Shaw Minturn, Treasurer, No. 105 East Twenty-second street.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

THE Bates SHOE FOR MEN

Attraction That's Pleasing.

That is precisely the requisite in THE BATES SHOE that appeals to men of refined taste. "Style but not loudness."

THE BATES SHOE is elegant and distinctive. Yet, you might think it would be hard to produce the very essence of style and good taste and not be flashy.

That very point is overcome and success attained by expert designing and a rare talent for choosing and fitting, and THE BATES SHOE only costs $3.

We would not make THE BATES SHOE if we could not give you better value than you could get in any other. For nearly half a century the name of Bates has been identified with good shoe making.

Therefore we have a prestige to maintain that is far more important to us than making shoes as good as some one else.

Ask your dealer for THE BATES SHOE. If he hasn't got them, tell him to get you a pair. He can do it in 30 minutes. A BATES is attractive and pleasing, yet they only cost $3.
