WALL STREET.

THURSDAY, May 17.

Lackawanna's swift advance of 30 points to-day, while exceptional in itself, was typical of the spirit that animated the coal road stocks. Under the strenuous leadership of Reading the coalers entered upon a bull campaign which was lively and stimulating while it lasted. Reading advanced from 130 1-4 to 132 3-4. Jersey Central, on a sale of 200 shares, rose to 227 1-2. Delaware and Hudson jumped from 209 3-4 to 213 1-2, and other coal stocks gained from 1 to 3 points. J. J. Manning bid 505 for any part of 5,000 shares of Delaware, Lackawanna and Western stock. Other brokers rushed in with a succession of bids that carried the price up to 530, a new high record for Lackawanna. The conspicuous activity shown by the Erie shares attracted considerable attention from the small speculators, who have for several weeks been weighing the value of a tip on a pending bull movement in Erie common. Some of the room traders who looked into the Erie situation this afternoon reported that a large amount of Erie common had been accumulated by a bull syndicate preliminary to jacking up the price "10 points at least."

There was some selling of Pennsylvania on the rumors that President Cassatt would resign in consequence of the disclosures in the coal inquiry before the Interstate Commerce Commission. President Cassatt is now abroad, but First Vice-President Green was quick to deny that Mr. Cassatt had any intention of resigning his office.

Amalgamated was in active demand, but fluctuated nervously between 111 and 110. Anaconda manifested a tendency to weakness, and American Smelters, after selling up to 157 5-8, succumbed to profit-taking pressure. The Harriman and the Hill stocks did not participate in the movement of the coal road shares, but remained comparatively quiet. At the outset Union Pacific caused something of a stir by advancing to 151 1-8, but as syndicate support was lacking the quotation soon receded to 150, and remained within a fraction of that figure. Union Pacific's position in the market is regarded by its backers as firmly fixed. One of the principal specialists in this stock said to-day: "We have set the pace on many an occasion. Now we are content to keep quiet and let the coalers have their fling."

National Lead has been bulled lately on the prediction that dividends on the common stock were to be resumed. This prediction was fulfilled to-day by the declaration of a dividend of 1 per cent. on the common shares, payable June 2. Since March, 1900, no dividends have been paid on this stock, but, notwithstanding its unproductiveness, the price has advanced from 10 1-2 to around 80. The usual quarterly dividend of 1 3-4 per cent. was declared on the preferred stock to-day. National Lead is controlled by the Standard Oil Company, and its officers are exceedingly optimistic regarding its business outlook. The 1 per cent. dividend on the common stock declared to-day was a disappointment to many traders, who had expected 2 per cent. A considerable quantity of the stock was thrown on the market, and the price dropped from 80 7-8 to 75 1-2 within an hour.

Speculators outside of the inner circle of the Sugar Trust are striving to start a movement in American Sugar stock by singing the changes on old and new rumors. President Havemeyer took occasion to-day to deny emphatically the story that an alliance was forming between the American Sugar Company and the Arbuckle firm. John Arbuckle made a similar denial. This story emanated from a speculative coterie soon after the announcement of James N. Jarvie's intention to retire from Arbuckle & Co. Efforts have also been made to create an impression that the radical cut in the price of refined sugar (5-4 cent a pound) in San Francisco presages a fight between the Spreckels-Hawaiian interests and the Western Sugar Refining Association, in which the Havemeyer Company has a half interest. To all appearances the Sugar Trust controls the situation so far as any speculative movement in its own shares is concerned.

Special attention has been drawn to the Mackay companies by the recent activity of the common and preferred shares on the curb market. This stock is not listed on the Stock Exchange. Brokers who have been promoting speculative interest in the Mackay shares are encouraging their customers in the belief that the common stock will be placed on a 4 per cent. dividend basis next month. This common stock, which now pays 2 per cent. per semi-num, has advanced 20 points within the past four months. It sold at $39 a share at the time the new organization was effected in December, 1903, and it is now selling around $72. The Mackay Companies (a Massachusetts corporation) owns a controlling interest in seventy-four cable, telegraph and telephone companies comprising the Postal Telegraph system. The Commercial Cable Company alone, it is asserted, is earning 15 per cent. net on its capital stock. A very liberal proportion of the income of the Mackay Companies is steadily going into important extensions and improvements.

WHEAT STRONG ON BAD CROP NEWS.

Everything in the grain line was strong, active and decidedly higher in the market to-day. Wheat advanced a full cent in Chicago and St. Louis and 3-4 here. The pit was flooded with bad crop news on wheat.

Corn held its gain.

New York's opening prices were: Wheat—September, 85; July, 87 7-8 to 88. Chicago's opening prices were: Wheat—July, 81 1-2 to 81 5-8; September, 79 5-8; May, 74. Corn—July, 42 1-4; September, 47 1-4; May, for 1907, 47.

New York's closing prices were: Wheat—May, 81 offered; July, 89 offered; September, 86 7-8. Corn—May, 57 1-4 bid; July, 54 3-4 bid; September, 54 1-2 bid; December, 53 7-8.

Chicago's closing prices were: Wheat—May, 84 3-4; July, 83 offered; September, 80 7-8 to 81. Corn—May, 49 3-8 offered; July, 47 7-8 offered; September, 47 3-4 to 47 7-8; December 47 bid; May, for 1907, 47 3-8.

COTTON PRICES RISE ON A HEAVY DEMAND.

The cotton market at the outset today was influenced by heavy sales of the spot article at Liverpool and the strength in prices there. The first quotations here were 5 points higher with the demand heavy.

The opening prices were: May, 11.51 to 11.55; June, 11.29 to 11.30; July, 10.30 to 10.31; August, 11.12 to 11.13; October, 10.78 to 10.79; December, 10.78 to 10.79; January, 10.82 to 10.84; February, 10.82 to 10.83; March, 10.86 bid.

The closing prices were: May, 11.52 to 11.54; June, 11.27 to 11.28; July, 11.26 to 11.27; August, 11.05 to 11.06; September, 10.77 to 10.78; October, 10.73 to 10.74; November, 10.72 to 10.73; December, 10.73 to 10.74; January, 10.77 to 10.78; February, 10.78 to 10.79; March, 10.82 to 10.83.

FIRST STRAW HAT MEETS WINTER OVERCOAT

Clothing for all seasons could be seen to-day in the downtown section, and summer, winter and fall dress seemed to all have the call among the business men.

There has been a lot of hesitation, cogitation and procrastination, as befits a great event, in regard to coming out in a straw hat. But, at least, one lone New Yorker has had the spirit of independence in a virulent form and he put on the summer headgear.

He was seen at the corner of Nassau and Wall when the rush of business on the Street had set in. Men turned and stared in surprise. Messenger boys and overdressed office boys, trying to look like financiers, laughed. But the hero went on his way, firm in his resolve to set a precedent.

But there were plenty of others who were as far behind the season as this man was ahead. Overcoats were not uncommon. Hamilton Fish, the banker, was caught wearing an overcoat that hung about his long figure like a kimono. He was chatting with Lemuel Ely Quigg. Platt's right-hand man was radiant in an Easter effect new English walking suit of pale gray and gleaming silk "topper." It seems that nobody knows just what season should be favored and every one follows his own bent. But if the temperature keeps on going up the one best bet is straw hat to win.

THE CLOSING QUOTATIONS

The total sales of stocks to-day were 1,625,000 shares, and of bonds $2,837,000.

LONDON STOCKS DULL, AMERICANS FIRM.

LONDON, May 17.—The supplies of money were increased in the market today. Discounts were firm. Trading on the Stock Exchange was dull and featureless. The fluctuations were narrow and prices sagged till near the close, when Consols and other gilt-edged securities hardened fractionally. The market closed with a cheerful tone on the Bank of England absorbing the available gold and the Indian Secretary releasing another $2,500,000 of ear-marked gold.

Americans opened steady at about parity and kept firm despite the lack of business. In the afternoon Wall street advices strengthened the market and prices hardened and closed firm at the best quotations of the day. Union Pacific and Erie were the most active.

Foreigners generally were quiet. Japanese received attention early in the day but eased later. Japanese Imperial Sixes of 1904 were quoted at 101 1-2.

Very Best Creamery Butter a lb. 21c

Better tub butter cannot be bought at any price. Large shipments of the very best butter are coming in daily from our Western creameries, and we continue its sale almost at net cost—and several cents a pound lower than the same fresh, high quality can be had anywhere else. All who bought last week will want more.

JAMES BUTLER CHOICE GROCERIES

At 161 James Butler Stores

the annual pure-food May sale moves merrily along. It commenced last Thursday, and by Saturday night almost every store was taxed to its utmost capacity. We have now caught up on orders, replenished every store with fresh, new stocks, and again offer a list of prices that cannot be duplicated in quality and value outside of a JAMES BUTLER STORE.

Housekeepers should remember that quality is our first consideration, and that all our food supplies are fresh, pure and wholesome. We don't handle the cheap, trashy grades that are made only to sell once to the same customer. We would not insult our own intelligence or the tables of our patrons by doing so. Our patrons are our neighbors and friends, and we hold their trade by giving them better value every day in the year than any other retailer is able to do.

Dainty Biscuits, NATIONAL BISCUIT COMPANY
Five O'Clock Teas... Marshmallow Dainties ..... Oatmeal Crackers.. 3 pkgs. for 25c

CrackerDainties
