INDIANAPOLIS, BLOOMINGTON & WESTERN
Railway Extension
FIRST MORTGAGE
7 PER CENT GOLD BONDS
Capitalists and all Investors are invited to examine the merits of the Bonds issued by the INDIANAPOLIS, BLOOMINGTON AND WESTERN RAILWAY COMPANY, and secured by a First Mortgage on its Extension Line of 217 miles. On this work, **100 miles from Champaign to Havana**, on the Illinois River, **are completed, and trains will run over that section in the second week of January.** The remaining distance of 85 miles to Keokuk on the Mississippi, with the branch of 22 miles to Decatur now graded and track partly down, **will be finished in ample time for the business of 1873.** The character of soil, increasing productions, and wide belt of country tributary to this part of the line, assure for it very large remunerative business.
The road from Indianapolis to Pekin, 202½ miles, has been in operation a little more than two years, and has established success. **Its earnings have steadily increased, giving in 1872 an increase of $385,000 over 1871. Net receipts from this part of the line alone are more than sufficient to respond punctually to interest on all Bonds** made and issued by the Company. It rarely occurs that this can be said of any rail road during negotiation of its securities.
The entire line of 420 miles has the support of a populous, exceedingly rich, and productive agricultural region, **passes through and connects important towns and cities,** and crosses immense deposits of good coal, all of which **insure local business of great magnitude.** Its own Western and North-Western connections substantially under same control, with prominent intersecting roads, will furnish large through traffic. The managers appreciate the necessity of unusually large equipment, and are providing for it as rapidly as possible. This, with new elevator accommodations under construction expressly for this road at Indianapolis, will greatly increase its facilities and **enable it to take large offered business which it has been obliged to decline.**
Particular attention is asked to the unusual strength of these Bonds, which are a liability of the entire Corporation owning a line of 420 miles, and are also completely secured by a first and only mortgage on the extension. Of the whole line **308 miles are completed,** and 26 more are graded.
With the certainty that Government rates of interest will in a short time be largely reduced, holders of 5-20s will find it advantageous to realize at present high prices and reinvest in these Bonds, which we recommend as possessing ample security for all investors. As an investment, they cannot fail to prove largely remunerative.
The Bonds are seven per cent, gold, $1,000 each, **convertible into stock** at par, at the option of the holder, and may be registered without charge. **Price, 90** and accrued interest in currency. Coupons January and July 1, free of tax.
All negotiable securities received in exchange at best market rates.
Full particulars furnished on application.
