BRONX TO CONEY ON THIS SUBWAY

Coler Proposes New Route and Says He Has Builders.

At the meeting of the Board of Estimate and Apportionment to-day Borough President Coler, of Brooklyn, offered a resolution requesting the Rapid Transit Commission to at once consider and locate a subway route from the Bronx to Fort Hamilton and Coney Island, passing through Manhattan, crossing the new Manhattan Bridge and out Flatbush avenue and its extension to Fort Hamilton.

This resolution was referred to a committee of the three Borough Presidents. It is urged by Mr. Coler that the line will be more practical and serve a greater number of persons than any other line in existence or proposed. His plan proposes a through line from the Bronx to Fort Hamilton and Coney Island for one five-cent fare.

"The line is entirely feasible," he said, "and I have two persons, and I believe there are forty others, who will build and operate it on terms advantageous to the city and to the public."

Comptroller Metz and President McGowan, of the Board of Aldermen, shook hands to-day and, at least for a time, buried the hatchet. As a result the $40,000 appropriation asked by the Comptroller for his new Bureau of Investigation and Statistics, was granted, and President McGowan got his pet measure through without objection. McGowan's request was for the immediate appropriation of $25,000 to pay attendants at the public baths.

The bids for the construction of Manhattan Bridge came up on a vigorous protest from the Ryan-Parker Company against letting the contract to the John Peirce Company. The Ryan-Parker Company was the lowest bidder at the letting. The Peirce Company, holders of the contract to build the Hall of Records, were the next highest bidders.

The matter went over for a week by reference to a special committee to hear the controversy and report on the merits of the case.

At the meeting this afternoon the proposal of the Atlantic Telephone Company was the first matter on the calendar. The Committee of the Whole reported to the Board that two courses are open, but did not make a recommendation. These two courses are, first to require the present company to make concessions to the city in rates and use of conduits. The other is to grant the franchise of the Atlantic Company.

The Mayor said that he was not prepared to vote for the opening of discussion in secret session.

After an hour of discussion the adoption of a resolution was announced. It requires the New York Telephone Company to ask for a franchise for present privileges, definitely accepting terms, and shall confess judgment in the suit of the city against the "Empire City Subway, Limited," beside turning over to the city all subways, conduits and ducts now controlled.

ONE MORE SUBWAY ROUTE APPROVED

Commissioners Indorse What Is Known as Fourteenth Street System.

The Commissioners appointed by the Appellate Division of the Supreme Court to investigate and report upon the proposed rapid transit railroad or railroads known as the Fourteenth street route to-day filed their report with the Clerk of the Court. The Commissioners are John E. Pine, William H. Wadhams and James O'Farrell. They report that the railways ought to be constructed and operated.

The proposed route is made up of several sections. It is to run under Fourteenth street from North River and connect with a subway under the East River.

A line is to run south under Ninth avenue, Greenwich street, Charlton street and Washington street, to Liberty street, and east under Liberty street to William street, and connect with a subway running under Liberty street, Maiden lane and the East River to Brooklyn. Another section will extend under University Place and Wooster street to Canal street, under Canal to Elm, and connect with a subway under Centre street.

There are to be only two tracks, except in the section under Fourteenth street, east of University place, where there will be four.

Vogel Brothers
42nd St. At 8th Ave

The First Important Sale of Serge Suits.

The timeliness of this sale is merely incidental. The big thing about it is the character of the fabrics, the style and the tailoring. On each count you may make certain that nothing in this town can equal it. The fact that we maintain the same high standard and the same low prices in spite of the great rise in the cost of serge fabrics, proves conclusively the great resources and strength of Vogel Brothers' organization.

Serge Suits at $12.50.

Judged by their true worth these suits should be priced at $15 instead of $12.50. The profit is yours by $2.50. They are in single and double-breasted models—blue or black.

Blue & Black Serge Suits, $15

These suits at $15 may be measured by no other standard except our own, for there is no other that reaches quite to the high level of excellence established by these suits. The serge is of an infinitely better grade than is used for ordinary ready-made suits—being firm and pure of texture, absolutely fast color, and thoroughly shrunk.

You can have one in the most daringly radical single or double-breasted sack style, long coats, shaped at back, long, angular or rounded lapels, deep side or centre vents; vests close with inverted "V" at bottom; trousers in regular, full peg and semi-peg models. Perhaps your taste inclines toward a more conventional suit, we have them as well.

Other Blue and Black Serge Suits at $18, $20, $22, $25 and $28, in a broad series of new models, full lined or half lined or skeleton lined with alpaca.

Summer Suits for Men Light in Color and Light in Weight.

Specially priced at **$12.50**

The price—$12.50—is phenomenally low for the handsome suits involved. They are fashioned of smart light gray cassimeres in single and double breasted sack models. And they'll wear as well as they look. There isn't a ready-made suit elsewhere under $15 that can match them.

Suits in the New Light Grays and Dark Rich Silk Mixtures.

Specially priced at **$15**

We do not know of any other store in this town which affords a showing of suits at $15 with the strength of ours. The fabrics—the patterns—the styles are infinite in number. In color they range from the lightest of gray to a rich dark silk mixture with every other shade in between. They are tailored in a superb manner, taking form in the new long coat single-breasted and double-breasted sack suits.

The New Gray Worsted Suits, $17

Twenty-five dollars would indeed be a conservative estimate for one of these new gray worsted suits. We show them in various shades of gray. They are ultra-radical in style, being fashioned in the new 3-button single and double breasted sack styles. Extreme long coats, the backs of which are gracefully shaped, deep side or centre vents, broad, long, angular or rounded lapels.

Light Weight Worsted Suits, $20

Every little knack and device known to the craft is employed to make these suits the acme of comfort. Don't you think you can spend a comfortable Summer in, say, a cool looking worsted suit of a dark rich pin-check pattern, or in the lighter shades of gray worsted in an overplaid or club check? You couldn't be dressed in better style than in one of these suits at $20.

Gray Suits and Blue and Black Serge Suits for Big Men, $15, $20, $25

Tropical suits for big men of 40 to 50 chest measure. Aside from the matter of weight, a perfect fitting suit is the great essential which gives a big man the greatest amount of summer comfort. Let us at least try to fit you and you'll be pleased with the result.
