7 PER CT. GOLD BONDS

OF THE

Indianapolis, Bloomington and Western Railway.

AN EAST AND WEST TRUNK LINE.

Total length of Line	420 miles
Completed	335 miles
In operation	309 miles
Under construction	85 miles

These BONDS have UNUSUAL STRENGTH, being secured by a FIRST and ONLY MORTGAGE on an extension of 217 miles, and are a liability of the entire corporation, representing 420 miles.
NET EARNINGS of the Road LARGELY EXCEED ALL INTEREST.

Receipts for 1872	$1,359,690
A gain of $305,000 over 1871 on same number of miles.	
Receipts for June, 1873	$136,178 44

An examination of the route will show conclusively that the Road penetrates a country of great productive capabilities, has a local business far more than self-supporting, and that it is a TRUNK LINE.
Diverging at Champaign, the road has two Western terminal points, Peoria and Keokuk, from which, through its own connections, already in a forward state of construction, it will reach St. Paul, in Minnesota, and Grand Island, in Nebraska, the latter route following the borders of Missouri and Iowa, and passing through the rich South Platte Valley. The amount of through business from these sources and from intersecting lines will be of great magnitude.
From Indianapolis the road has close connections with all the great Diverging routes leading to the Atlantic coast, and also with roads leading to the Ohio River and points South.
We offer the bonds at 90 and interest in currency, and, with our knowledge of the management and business of the road, can recommend them UNQUALIFIEDLY as being
SAFE FOR ALL INVESTMENT PURPOSES.
