BUYING BY SHORTS STEADIED STOCKS

List Strengthened and Prices Raised to Profit Level on the Demand.

Buying by shorts steadied the stock market this afternoon and checked attacks by the bears which had kept the list see-sawing. The demand, in addition, put prices above the profit level, where they were firmly held.

The buying was still in force at the close, with the prices slightly irregular, although gains being the rule.

Stocks were under pressure in the opening market dealings and made sharp losses. Offerings were heavy in some of the prominent industrials. First sales of Amalgamated Copper were of 3,200 shares at 96 1-4 and 96, compared with 96 3-4 last night, and 7,000 shares of United States Steel changed hands at a decline of 1-4, while the preferred ran off easily a point. Anaconda broke 4 1-4, Northern Pacific lost 2 1-4, Missouri Pacific 1 1-4, Reading and Smelting a point and American Car and Interborough Metropolitan large fractions.

In later dealings stocks still had a downward tendency.

Feverish fluctuations prevailed until substantial support that the market had been receiving began to make itself felt. This buying brought the recognized leaders up to yesterday's closing or beyond. Bear operators made another effort to break the market by attacking Reading, which, after recovering to 126, was forced down to 123 1-2. Other stocks withstood the pressure, but the Coalers showed some sympathetic effect. Reading recovered fully, but the market was nervous.

With the establishment of the higher level there was a pouring out of stocks and the selling looked eager. Subsequent violent recoveries pointed to a bear origin for large selling. There was a break in which Great Northern preferred lost 4, Northern Pacific 3 3-4, Reading 2 3-4 and Missouri Pacific and Delaware & Hudson 2. United States Steel preferred fell 1 3-4 to par. St. Paul, Minneapolis & Omaha fell 9. A recovery at noon again placed a few leaders above yesterday, but the demand ran down to almost nothing.

Something of a rout occurred among the shorts and they bid prices up on one another until the market had risen substantially over yesterday's closing. The morning losses of 1 to 3 points were made up and the recovery was extended in several stocks that have recently been favorites for bear attacks. The market again became dull when the urgent demand had been satisfied, but the list ruled strong all around.

Moderate realizing was indulged in at intervals in the afternoon causing a good deal of irregularity, but the market invariably went higher when the pressure relaxed. The list of advances was extensive, but lacked uniformity, some being up a fraction and others several points. Anaconda rose 4 1-2, Interborough-Metropolitan 3, Union Pacific 2 1-4, St. Paul, Amalgamated Copper and Central Railroad of New Jersey 2, Northern Pacific 1 1-2 and Louisville & Nashville and Colorado Fuel 1.

Some stocks went higher in the final hour, but fluctuations were rather feverish. Net advances in Anaconda reached 7 3-4, St. Paul and Amalgamated Copper 3, General Electric 2 1-4, Smelting 1 1-2, Brooklyn Transit, Sugar and Colorado Fuel 2 and Southern Pacific, Reading, New York Central, Great Northern preferred, Consolidated Gas and Republic Steel about 1. Buying was resumed in the late dealings and prices rose to the top, but the closing was slightly irregular.

The total sales of stocks to-day were 1,183,000 shares and of bonds $1,258,000.

SCHOONER CUT IN TWO BY STEAMER

In full view of hundreds of passengers on ferryboats and other craft, the tramp steamship Trojan, outward bound from Hoboken, ran down and rammed the two masted schooner, E. C. Hay, in the North River this afternoon. The schooner was cut completely in two and sank at once. Three men who were on her deck jumped overboard and were picked up by a police launch.

The Hay was laden with stone and in charge of Capt. William Denbig.

The schooner's course was not straightaway because the wind was hardly strong enough to counterbalance the effect of the tide. It was probably because of this that the schooner swerved across the bows of the big Trojan that was steaming down stream at a good rate of speed.

The Trojan seemed to pick up the schooner and carry her along for a hundred yards as a dog picks up a stick in the water. Then the schooner careened outward, but all the while the Trojan was biting further and further through the wooden hull. At last the schooner dropped away in two pieces that were cast port and starboard of the Trojan. They sank with a great bubbling of the water.

The Trojan lay to, but did not lower a boat, since the three men were far behind in her wake and many boats were putting out. The ferry-boat St. Louis, of the Pennsylvania, lowered two boats and tugs seemed to hurry from all directions. Before any of them could get a line to the three men a little gasoline launch swooped in through the press of larger craft and two persons on board picked up the three survivors. Tugs drew around the Trojan to offer help if her plates were injured. She escaped with nothing but a loss of paint and went on her way.

NEW CUSTOM HOUSE MONEY OUT OF 'PORK' BILL

WASHINGTON, June 28.—Senator Scott, Chairman of the Senate Committee on Public Buildings and Grounds, to-day reported the omnibus public building bill, designating it as "the pork barrel bill."

He asked for its immediate consideration and said in explanation that the committee had been engaged on the measure all night and that there had been reductions of $1,658,000 and increases of $5,522,000, making a net increase of $4,084,500 over the total represented by the bill as it passed the House.

Among the items in the House bill dropped from the measure was $150,000 for the New York Custom House.

PRICES MIXED IN THE COTTON MARKET.

The near months started steady in the cotton market to-day on the prospect of a small number of notices tomorrow, and late positions were easy on account of fine weather through the belt. First prices were 2 points lower to 3 points higher. After the call the new crop options declined further. At New Orleans July eased 11 points, and late deliveries fell 7 to 8 points.

The opening prices were: June, 10.31 bid; July, 10.37 to 10.38; August, 10.21 to 10.22; September, 10.25 to 10.27; October, 10.25 to 10.26; December, 10.41 to 10.42; January, 10.43 to 10.44; March, 10.52 bid.

The closing prices were: June, 10.14 to 10.16; July, 10.14 to 10.15; August, 10.17 to 10.18; September, 10.22 to 10.24; October, 10.26 to 10.27; November, 10.27 to 10.28; December, 10.33 to 10.34; January, 10.37 to 10.38; February, 10.38 to 10.40; March, 10.45 to 10.48.

Take Down That Sign!

Here's a To-Let sign
That's hung up a long time,
Asking one and all
To stop and make a call.

If you've a sign like this
You will not go amiss
To take it down to-day
And try the World Want way.

A WORLD WANT SIGN IS THE BEST BECAUSE THE GREATEST NUMBER OF NEW YORKERS SEE IT.
