MRS. KINNAN, HE SAYS, FEARED HER MOTHER

Martin Egan, Tenant of Murdered Woman, Gives Some New Information.

SHE SPOKE OF FEARS.

Told Him About Their Troubles When Collecting Rent for House.

After three weeks of investigation the authorities of the Bronx charged with finding the person who murdered Mrs. Alice Kinnan have discovered that Mrs. Kinnan was afraid of her mother, Mrs. Louise Stenton, who is eighty years old. The discovery was made to-day during the examination of Martin Egan, a young man who rented a house from Mrs. Kinnan and Mrs Stenton in Brooklyn.

The title to the place was clouded and Egan had trouble with the women about the rent. Although he was examined by Capt. Price two weeks ago and dropped from any connection with the murder of Mrs. Kinnan, Coroner McDonald recalled him for examination to-day.

Egan told where he spent the night of the murder—at a party at his own home in Brooklyn—and gave the names of twenty witnesses to substantiate his story. Then he volunteered the information that Mrs. Kinnan had told him she was afraid of her mother.

"Mr. Kinnan," explained Egan, "used to come over and collect the rent and talk about the repairs I had been making. She told me several times she was afraid of her mother. I knew her mother was queer. One day I asked her why she was afraid. She hesitated a while, and then said she feared her mother would sell the place. She never spoke of it again after that."

The statement of Egan strengthened the impression of Capt. Price and others who have been working on the mystery that Mrs. Stenton knows more about the murder than she has told. But she has refused to submit to further examination without due warrant of law. The only way the police can question her again is to arrest her.

The hatchet found in the Stenton house and which is supposed to have been the weapon used in killing Mrs. Kinnan is similar to satchels used in machine shops. Capt. Price learned that Egan once worked in the machine shops of the Interborough Rapid Transit Company at One Hundred and Forty-fifth street and Lenox avenue.

Investigation to-day shows that all tools used by Interborough employees are indelibly stamped "Int. R. R. Co." There is no such a stamp on the hatchet in the case.

NO CRIME TO SAY "HELLO, DARLING!"

Young Woman Who Greeted Mr. Paxson on the Street Discharged by Court.

It is no violation of the Penal Code for a young woman to stop a young man in the street and say to him, "Hello, darling," Ex-Magistrate Barlow, in Jefferson Market Police Court, decided this afternoon.

Stacey A. Paxson, a young man employed as a clerk, walked up Broadway last night and was stopped several times by young women, who murmured sweet but suggestive nothings to him. He was excessively polite. Finally he was so annoyed that he determined that he would turn the next one so bold as to address him over to a policeman.

The next one was a young woman, who called herself Nellie Mason. As she passed she said sweetly, look at me and smile.

"Hello darling."

Then she met a policeman and turned the woman over to him.

"What did she say?" Magistrate Barlow asked Paxson in court this afternoon.

"She stopped me on the street and said, 'Hello darling to me,' said the young man.

"Did she actually say, 'Hello darling, to you?' Are you sure you heard her say that?"

"I'm sure that's what she said," replied Paxson.

"You don't say," exclaimed the Magistrate in mock horror.

"Yes," said Paxson, seriously.

"Well," pondered the Court, "I can't find that there is any crime when a girl calls a fellow 'darling,' so I shall have to discharge this girl."

TELEGRAPH

MURDERED FOR HIS MONEY.

CINCINNATI, O., June 29.—The body of John Armstrong, of Pittsburg, was found in Thorne alley early to-day, and murder for robbery is suspected by the police. One arrest was made three hours later. Andrew Schultz, with whom Armstrong spent last evening, says they were mobbed on the street by a crowd of negroes, and he insists that his friend must have been attacked later. Armstrong's watch and money were missing.

SLAIN AFTER SHOOTING HIS DAUGHTER.

HAZLETON, Pa., June 29.—Raffaelo Marsicano went to the home of his daughter, Mrs. Joseph Wilkie, at West Hazleton, last night, and shot her in the road. The woman's husband seized Marsicano and, securing the latter's revolver, instantly killed him. The daughter will recover. The shooting was due, it is said, to the fact that the father was living with another man, killed them both, then turned the revolver on himself, inflicting a probably fatal wound. During the time Koch was out of the State his wife had obtained a divorce and remarried. It is the supposition that he was not aware of this.

WOMAN GOLFER BADLY HURT IN RUNAWAY.

WILKESBARRE, Pa., June 29.—Mrs. Hildebrand Fitzgerald, who was thrown from her carriage last night at Montrose, near here, has remained in an unconscious condition since the accident. There is a fracture of the skull at the base of the brain, and the physicians say her recovery is doubtful. Mrs. Fitzgerald is a skilled golfer, and took part in the recent inter-city matches at the Nassau Country Club, Glen Cove, L. I., and has been prominent in the championship matches in Philadelphia.

ATHLETES ON POLICE FORCE ORGANIZE CLUB

Martin Sheridan, Victor at Athens, Is Elected Vice-President.

At the meeting of the amateur athletes of the Police Department, called by Commissioner Bingham last night, it was decided to form an organization. Officers for the coming year were elected, and the Commissioner announced that he would contribute a prize for the games. Pleasing news to the many friends of the athletes, who have been in doubt whether the Commissioner would consider the "closed games" to be held will not materially hurt an athlete's standing in outside events.

Inspector William W. McLaughlin, head of the Detective Bureau, was elected President. The other officers were: Patrolman Martin Sheridan, Olympic victor, Vice-President; Patrolman John J. Heinz, Second Vice-President; Roundsman John T. Nolan, Secretary-Treasurer; Patrolman John Flanagan, manager; Patrolman John J. Eller, Captain of Athletics.

The meeting was held in the retiring room at Headquarters and Chapman Wise presided, sitting beside Inspector John J. Hickey, who was president of the old organization, which this has superseded. Captain Wade's speech was brief and in it he pointed out the benefits to be derived from athletic work.

Commissioner Bingham said the men met with his hearty approval and added that if the men kept in training for their games they would be in good trim for their police duty.

The first meeting will be in September.

HEAT CAUSES YOUNG WOMAN TO GO INSANE

Harriet H. Calkins So Violent She Had to Be Tied in Ambulance.

Because of the great heat this afternoon Harriet H. Calkins, twenty-four years old, became violently insane at the home of her parents, No. [illegible] Bathgate avenue, the Bronx. Her father, Byron Calkins, employed in the office of the Consolidated Gas Company, No. 4 Irving place, was in the house at the time and telephoned to Fordham Hospital.

When Dr. Taft arrived from the hospital he found the girl was so violent that it was all that he and a policeman could do to tie her in the ambulance. He took her to Bellevue, where she was placed in the psychopathic ward. Miss Calkins has been ill for some time and has been much affected by the heat of late.

Dominick Diletro, twenty-seven years old, of No. 44 Baxter street, was overcome this afternoon by heat at Canal street and Broadway. He was taken to St. Vincent's Hospital.

MISSING BOY WAS BURNED TO DEATH

His Body Found in Ruins of Barn After Posse Had Searched All Night.

RIVERHEAD, L. I., June 29.—After a search which lasted all night and up to noon to-day the body of three-year-old Julian Bick, whose parents believed had wandered away and been lost in the woods, was found burned to a crisp in the ruins of a barn that had been destroyed by fire.

The little one, with other children, went into a neighbor's barn to play about supper time last night and a blaze was started when one of the older girls struck a match. The children ran from the burning structure and escaped.

The other children went home and when Julian did not return home his parents made a search for him, a posse aiding and beating the woods. The searchers were still at their task to-day when some of the children remarked that he had been with them in the barn before it burned. The ruins were then searched, the body of the little fellow found.

ROBBERS GOT $1,493 IN STREET HOLD-UP.

PORTLAND, Me., June 29.—Two thieves robbed a messenger of the Maine Steamship Company in the night of a score or more of persons on a street here to-day and got away with $1,493 in cash. The messenger, Edward J. Nash, was taking the money, drawn from the bank, to the steamship company's office.

The robbers jumped out of an alley and, while one held Nash, the other grabbed a bag which contained the money. Then both ran, one dropping back into the alley and disappearing.

Beside what will seem to be incident thought it was a friendly scuffle until it was too late to call in the police. Nash is twenty years old.

RAILROAD RATE BILL PASSES THE SENATE

Tillman, in Final Fight on Measure, Accuses Roosevelt of Insistency on the Pipe Line Clause.

WASHINGTON, June 29.—The Senate this afternoon agreed to the conference report on the Railroad Rate bill, which passes the measure.

The Senate also passed the joint resolution which makes the rate bill go into effect sixty days after passage.

Senator Tillman called up the conference report on the Railroad Rate bill and renewed his attack upon the pipeline amendment as being in the interest of the Standard Oil Company.

"About the time the Allison amendments were incubating," he said, "there was a great furore about the Garfield report on the Standard Oil Company and we were told that the exposures of its crimes would help the vote on the rate bill, and under the cover of this dust the President retired from his advanced position on railroad legislation and accepted the Allison proviso.

"There the big stick and the pitchfork, which had been in alliance, found themselves separated and the pitchfork, while doing duty on the firing line, looked around only to see the tail of its associate hustling toward the rear—sliding toward the Allison base, to use a baseball phrase.

"The big stick was rushing in on all fours to get between Father Allison's legs.

"He had no fault to find, he added, except that he considered the fact that the President had been inconsistent in not coming to the assistance of the Senate conferees.

"He considered it 'a little remarkable that just when he might do something to injure the policy of the gigantic monopoly he is as mum as a mouse, except that there is another hurrah about what the President is going to do to the Standard Oil in the way of suits.'

"He added that notwithstanding the prosecution has been decided upon, "we are carefully told in advance that the high officials, such as Rockefeller and Archbold, are not to be molested."

He then commented upon the employment of District-Attorney Morrison, of Illinois, as special counsel in this case, saying that he had demonstrated "how not to do it" in the Walsh case. "If," he added, "they wanted an expert in that line, he is as good as could be found." In the same connection he said that he had been informed that Frank Monnett, "the most competent of all attorneys, is to lose his job."

He added: "So it goes, the dear people are bamboozled every day, but the burial rain goes on.

"The President assures us from time to time that the crimes of the Standard Oil Company are to be punished, but when it comes to a real fight, and when there is an opportunity to do something, he sits dumb and allows the House conferees to compel the Senate conferees to yield to the demands of the Standard Oil Company."

Senator Elkins defended the conference report on the commodity amendment, saying that as originally proposed, the provision meant a confiscation of the property of the independent oil operators.

He also took exception to Mr. Tillman's criticisms, saying in reply that he, Mr. Elkins, was as free from the influence of Standard Oil as any member could be.

He also declared that the President needs no defense and charged that the South Carolina Senator was aggrieved because the President did not agree with him. He declared that the effort of Senator Tillman policy seemed to break down the independent companies and said apparently that was what Mr. Tillman was trying to do. Mr. Elkins admonished the South Carolinian that even if he desired to injure Standard Oil he should not at the same time stay by injuring the business of others. Standard Oil he added is able to take care of itself and to the latter point Senator Bailey replied that "whether that company needs help or not it gets it."

BAILEY CLASHES WITH TILLMAN.

WASHINGTON, June 29.—In the course of the debate on the conference report on the railroad rate bill to-day Senators Bailey and Tillman engaged in very sharp controversy over the latter's denunciation of the lawyers.

The Texas Senator indicated an appeal that the was designed and Mr. Tillman, while contending that he respected the attorneys of standing, said he had an utter contempt for lawyers and for the men who pack political conventions.

There was intense feeling for a few moments, but it passed away.
