ASKS PERMIT TO CARRY TWO GUNS

Merhige Says Elopement Has Caused Syrian Feud, Endangering His Life.

HAWAWEENEY IN CASE.

Bishop Refuses to Marry Runaway Couple Without Father's Conset —Theatened Unless He Yields.

The police were warned to-day that another vendetta in the Brooklyn Syrian colony is likely to develop at any moment. The cause is the simultaneous disappearance three weeks ago of Miss Anessy Merhige, sixteen-year-old daughter of Solomon Merhige, a merchant living at No. 315 Hicks street, and a young salesman whom her father had forbidden her to merry.

The father called at the Adams street police station to-day and asked Capt. Shaw for a permit to carry two revolvers. One, he said, would not be sufficient.

"Since my daughter ran away," he said to the captain, "I have been informed I would be killed unless I sanctioned her marriage. Only yesterday I learned that Bishop Hawaweeney, of the Greek-Syrian Church, called on my daughter and the young man Saturday at the Park Avenue Hotel, Manhattan, where they were registered under different names.

"The Bishop knew I was looking for my daughter and he knew I objected to the young man. He did not marry them, nor have they been married yet.

"A man named Jarbaur, a friend of the young man, has called on me several times and tried to induce me to consent to the wedding. I have told him I will not consent until I find out how my daughter has been treated since she has been away. I want to see her and have her tell me. Then I might consent.

"Now I have been informed by several parties that the Syrians in the colony are prepared to take sides and that my life is in danger."

The Syrian Bishop has spent much time in the past year or two dodging bullets from Syrians who do not agree with him. He has a large following, and his enemies are equally strong in the feud which has existed in the colony several persons have been shot and at least one killed.

Capt. Shaw took Merhige before Magistrate Dooley, who decided there were enough Syrians carrying pistols now and refused the father the privilege of going doubly armed.

LEARN HOW TO SWIM.

Steeplechase Park Provides Still Water Pool with Good Instructors.

A new feature at Coney Island this year, and one which will be appreciated by those who prefer still-water bathing, and particularly by those desiring to learn the natatorial art, is the magnificent swimming pool in Steeplechase Park.

The pool is 280 feet long by 40 feet wide and is open both day and night. Fresh sea water is forced in and falls into the pool in a graceful waterfall. Competent swimming instructors are on hand at all times.

Ask Anybody!

You may extend your research into the darkest of nooks and corners, and although many may claim that riches breed arrogance, still Sunday World "Business Opportunity" Ads. will continue to direct shrewd citizens to the hiding place of Dame Fortune.

This assertion is amply verified by the printing last month of 3,734 World "Business Bargains"—a gain of 825 over same month last year.

STOCKS WEAK AND TALK OF MONEY TROUBLE HEARD

Selling Drive Turns Attention to Big Speculators and Pools.

Violent liquidation in the final hour on the Stock Exchange this afternoon gave rise to talk of money troubles among large speculators and pools, and stocks which had withstood pressure in previous drives of the day fell away with the rest. The market closing was weak and unsettled. Call loans during the session were quoted at 8 per cent.

There were large buying orders at the opening of trading and prices advanced all around. Wide gains were made by some of the speculative favorites. Northern Pacific was up 3 1-4, Colorado Fuel 2 7-8, Great Northern preferred 1 1-2, Amalgamated Copper and National Lead 1 1-8, Missouri Pacific, Union Pacific and Tennessee Coal a point, and St. Paul, Pennsylvania and Reading large fractions.

There was a slight recession on profit taking later in the session, but the tone held good, with trading active.

Heavy offerings of stocks came out after business had been under way only a few minutes. This selling drove the market well under the closing figures of Saturday. Several low records were made for the movement. The coalers and metal stocks gave way most readily, but there was also a good deal of liquidation in the Western grain carriers.

There was a characteristic rally after a while, in which St. Paul, Union Pacific and some others got back to their opening prices or above.

Fresh selling met the rally and forced some stocks lower than in the first movement. Prices then rallied and trading became dull. The weakness of Southern Pacific was the feature with a loss of 1 3-8. Tennessee Coal and Pacific Coast dropped 5; St. Paul preferred 1 1-2, Distillers' Securities 1 1-4 and Minneapolis, St. Paul & Sault Ste. Marie and Westinghouse Electric 1.

Atchison and Sloss Sheffield Steel rose 1, American Ice 1 2-8 and Anaconda 3 1-2.

Free liquidation was renewed late in the afternoon when the rates of call money climbed to 8 per cent. Pennsylvania, St. Paul, the Pacifics and the Hill stocks were the weakest features and their collapse dragged down all other stocks. Low prices on the movement were scored by United States Steel, Reading, the Pennsylvania group, St. Paul and Southern Pacific.

The stagnation which followed the rally in prices encouraged fresh selling by the bear faction and the market went off sharply, Reading relapsing to 120. This stock subsequently moved up to 121 1-4 and the general list became firmer.

A rush of selling in the final hour started the talk of money trouble, and the entire list gave way. Great Northern preferred was 4 2-4 under Saturday, St. Paul and New York Central 3 1-4, Reading and Illinois Central 3, Pennsylvania and Delaware & Hudson 2 3-4, Norfolk & Western 2 2-8, Interborough-Metropolitan preferred 2 1-4 and Northern Pacific and Louisville & Nashville 2. Stocks which resisted the earlier depression were carried into the tide of 1 points losses or more. American Pneumatic Service broke 7 points. The selling continued up to the closing.

The total sales of stocks to-day were 1,197,600 shares and $1,950,000 bonds.

BUYING BY SHORTS KEEPS COTTON UP.

Good covering by shorts in the early cotton market to-day offset weakness in other directions. There was a disposition to even up for the Government report due to-morrow.

New York's opening prices were: July, 10.29 to 10.30; August, 10.30 to 10.31; September, 10.33 bid; October, 10.31 to 10.4; December, 10.35 to 10.38; January, 10.38 to 10.39; February, 10.39 to 10.41; March, 10.47 to 10.48.

New York's closing prices were: July, 10.24 to 10.25; August, 10.27 to 10.28; September, 10.24 to 10.25; October, 10.22 to 10.24; November, 10.24 to 10.26; December, 10.29 to 10.30; January, 10.33 to 10.34; February, 10.34 to 10.36; March, 10.42 to 10.43.

WHEAT PRICES RISE WHILE CORN DROPS.

Wheat opened steady to-day at a slight rise due to continued raises in the Northwest and in the harvesting districts and moderate covering.

Corn sold off on large receipts at Chicago and favorable rains in the West. New York's opening prices were: July, —87 5-8; September, 87 1-4 to 87 3-4.

"Swift & Company's sales of fresh beef in New York City for the week ending Saturday, June 30, averaged 7.59 cents per lb." **

WEEK OFF FOR MINERS.

WILKESBARRE, July 2.—Most of the mines in this district were shut down to-day for a week, the operators believing that as the men would take three days at least to properly celebrate the Fourth, they might as well close the mines for the entire week.

Falling Hair Splitting Ends Itching Scalp Dandruff

If you have any of these hair or scalp troubles you are in danger of becoming bald. The Woodbury Method for correcting these troubles is a scientific treatment which in a short time removes the dandruff, invigorates the growth of the hair and puts the scalp in a healthy condition. Save your hair before you lose it, for after the hair follicles are dead renewed growth is impossible. It is folly to experiment with unknown hair tonics, for remember you can have the advice of our expert on this subject without charge. Thirty-six years' experience.
