### From Manger to Throne

Embracing a New Life of Christ and History of Palestine

544 Pages, 7x9 inches in size. Over 200 Magnificent Illustrations.

Many Lives of Christ have been written, but there are none that will compare with this in splendid conception, magnificence of detail, or eloquence of thought and diction.

"I wrote this book," says Dr. Talmage, "for the masses. Who are the masses? The most of folks. They are the nine hundred and ninety nine out of the thousand. I hope the title of the book will be suggestive of its contents. There are so many lives of Christ that I wished to get a name not yet employed."

DR. TALMAGE PAID A SPECIAL VISIT TO THE LAND OF THE BIBLE in order to qualify himself for the responsible undertaking of writing the life story of Jesus. He was thoroughly equipped in every respect to make investigations, to picture places, and to study the people of Palestine; accordingly he journeyed to Egypt, passed over the route taken by the fleeing Joseph and Mary, rode into and through Palestine, and followed in the footsteps of our Lord.

OVER 500,000 SOLD through subscription agents and other sources, and largely at \$3.75 each in cloth binding, but there are hundreds of thousands of people who have as yet not secured a copy.

### Orange Judd Farmer

The Orange Judd Farmer (western edition of American Agriculturist) is the oldest, best, and most practical paper of its kind.

FARM FEATURES: Live Stock, Dairying, Horticulture, Poultry, Market Gardening, and other topics written by practical and successful farmers, illustrated by able artists, make it invaluable to all in rural sections. The latest Markets and Commercial Agriculture are unexcelled features.

FAMILY FEATURES: Short Stories, Latest Fashions, Fancy Work, the Good Cook, Puzzles, Young Folks' Page, etc., make this department equal most of the special family papers.

The Orange Judd Farmer is specifically designed for the Western states, the general and special articles appealing to all on the Pacific Coast and in the Northwest. Every farmer in these sections in addition to his local farm paper, needs this great national and international journal to keep him posted on crop conditions throughout the world. The crop reports of the Orange Judd Farmer are without any question the finest of their kind; as complete, far-reaching and accurate as a large corps of special correspondents all over the world can make them. Specifically also of great interest in the Northwest is the department devoted to hop culture, which in itself is worth more than the price of the paper.

### Ranch and Range

The readers of Ranch and Range know its value. No words, therefore, descriptive of it are needed in this announcement.

The offer of this journal nine months, Orange Judd Farmer six months, and Talmage's FROM MANGER TO THRONE, all for \$1, is one of the most liberal of its character ever presented to readers of this, or, for that matter, to readers of any other journal.

But a partial idea of the immense amount of interesting and valuable information contained in the book is gleaned from the accompanying description.

Those who have not seen a copy of Orange Judd Farmer can, if they need still further proof of the value of this offer, send to the Chicago, Ill., office of the publishers of that paper for a free sample copy.
