# OPEN CUT WORK FOR TUNNEL NOT TO STOP TRAVEL

## Citizens and Property Owners Protected Under Pennsylvania's Permit.

Chief Engineer Rice, of the Rapid Transit Commission said to-day the public need fear no inconvenience from the open cut construction of the Pennsylvania tunnels in Thirty-second and Thirty-third streets.

The permit granted allows the opening of the streets only for such places as may be found dangerous for deep tunnelling. It provides that all the surface of the streets opened shall be covered by steel beams, with a double layer of three-inch planks. This will permit the passage of all surface traffic just as if the street had not been opened.

One half the street surface at any particular point may be kept open and uncovered for eight hours a day, but no longer, and every such opening must be actually closed so teams can pass safely over it during all the rest of the day.

There is a difference of opinion as to just what hours would be best to open the streets, and different hours in different localities to suit all concerned will be agreed upon.

"Property owners are apprehensive," said Mr. Edward Lauterbach to-day, "that they will be subjected to such trouble as was given along Forty-second street, but this is not the case. I represent the largest number of property owners affected, and have assured my clients their interests are amply protected.

"The contractors are required to give a bond indemnifying all persons against damages to their property, and the Pennsylvania Railroad Company was made a party, guaranteeing the payment of such damages, which it agreed to do.

A shaft has already been sunk west of Sixth avenue, and it is proposed to use this for taking out most of the dirt allowed to be removed over the surface. There the permit provides that no teams shall be allowed to stand on the south side of the street, but must be kept moving. The loading will be done on the north side of the street.

### TWO DEATHS AFTER WRECK.

MIDDLETOWN, N. Y., Feb. 15.—Engineer William Gedwood, who was injured last Wednesday on the Ontario & Western Railroad here, died to-day without regaining consciousness. Another fatality resulted indirectly from the wreck last night, when an unidentified man who was walking down the track to view the scene of the wreck was struck by a train and instantly killed.

# BURGLAR CAUGHT BY 30-CENT LIGHT

## Feel Just Like the Price I Paid for Lamp, said Man, when Collared.

The darkness of a plumbing shop at No. 526 Columbus avenue was stabbed last night by such frequent shafts of light that it attracted the attention of the janitor, Archibald Davidson. His suspicions were aroused by the signal-like glare, and he summoned Policeman Frank Brown, of the West Sixty-eighth Street Station. They found that the front door had been broken open, and groped their way to the source of the rays, where they discovered a luckless youth cowering in the corner.

"Discovered!" he gasped, as Brown collared him. There was a rattle at a rear window, and before the men could prevent another small form disappeared like a shadow.

"Did the light give me away?" asked the prisoner. Brown nodded.

"Say, I gave thirty cents for it this afternoon, and it's made me look cheap."

"Never mind," said Brown. He took the youth and the light, a cheap electric "flash," to the station. The prisoner said he was Charlie Meader, fifteen years old, of No. 560 West Fifty-first street.

# BANK SWINDLER IS TRAILED TO CHINA

## Hanover National Draft Raised from $8 to $8,000 by Yankee Mongolian.

SAN FRANCISCO, Feb. 15.—A private detective agency and the police departments of Oakland and San Francisco are endeavoring to locate in China an American-born Mongolian, Woo Ang by name, who recently raised a draft from $8 to $8,000, secured a bill of exchange for the latter sum from an Oakland bank, sailed across the Pacific and cashed the draft in Hong Kong.

The police theory is that the Chinese worked with a confederate in the person of a man named Woods. The job began in the State of Kentucky where Woods bought a draft for $8 on the Hanover National Bank, of New York. The draft was transferred to Woo Ang from all appearances. Whether Woods or the Chinese did the raising is not known.

But Woo cashed his bill of exchange in Hong Kong before the fraud was discovered, and beyond the fact that he is in China the detectives have no clue to his whereabouts.

### Hagan Remembers Veteran Actor.

A theatre party of 500, headed by Deputy Commissioner of Public Works James J. Hagan, and President of the Amsterdam Democratic Club, paid tribute to Edward Harrigan, the old-time actor, at the Lincoln Square Theatre last night.

**Positive**

A soda cracker should be the most nutritious and wholesome of all foods made from wheat—

**Comparative**

But ordinary soda crackers absorb moisture, collect dust and become stale and soggy long before they reach your table. There is however, one

**Superlative**

soda cracker—at once so pure, so clean, so crisp and nourishing that it stands alone in its supreme excellence—the name is

**Uneeda Biscuit**

**PURE DRUGS ACT**

June 30, 1906

In Effect January 1, 1907

**A GOOD LAW**

We endorse the Pure Drug Law, because we have always believed in its principles, and because it means that the American people will find the strong arm of the Government protecting them from RANK FAKES, IMITATIONS AND SUBSTITUTES made of adulterated, impure, worthless and even dangerous drugs.

This sort of thing has been an imposition, fraud and crime against the People, as well as against the responsible manufacturers of honest, reliable remedies, and it was high time for it to be stopped. Misrepresentation and substitution of "something just as good" will now be done away with.

The principles of the Food and Drugs Act have been always favored by conscientious and honorable manufacturers, who recognized that Purity and Quality alone could permanently secure the favor of the nation.

So the makers of Cascarets Candy Cathartic recognized the great principles of PURITY, QUALITY and MEDICINAL MERIT when the first tablet was made, over eleven years ago, and have adhered to them ever since.

Cascarets stand alone on their record, of having gained in that short period of time the friendship, confidence and patronage of millions of people, who are now buying Cascarets at the rate of over a MILLION BOXES A MONTH,—the largest sale of any Bowel Medicine in all the world.

We endorse the Pure Drug Law.

It suits us, because we have always stood before our friends unafraid and clear of conscience, made our contracts good to every one, and in the conduct of our business, had the good fortune to help hundreds of thousands of our fellow-citizens back to health and life.

We have no reason to hesitate, and so we do not hesitate, to recommend Cascarets to all sufferers from Constipation and all complications arising therefrom. Also any other diseases of the food-canal. We are advertised by our loving friends and whenever the American people pass judgment in favor of an article after over ten years of investigation, trial and test,—their verdict speaks for itself.

The greatest merit of Cascarets however, is that of being a positive and reliable preventive of disease. The most important function of the human body is to keep its digestive channels and passages, with over thirty-six feet of bowels, strictly clean and disinfected, so that natural operations can take place in a natural manner, and the growth and activity of disease germs can be prevented.

A Cascaret at night before "turning in" will keep your Bowels regular, and your whole digestive canal wholesome, pure and normally active.

No matter what you have been taking, buy a little 10c. box TODAY at your own druggist, and let the results tell their own story. It means a lot of health and comfort in store for you. 753
