NOT ONE DROP OF WATER IN ALL BAYONNE

Break in Pipe Causes Famine That Closes Schools in New Jersey City.

There was a water famine in Bayonne to-day, caused by the breaking of a main of the New York and New Jersey Water Company, which supplies the city. The city was absolutely without water except what could be obtained from the old wells and cisterns. There was one fire, but fortunately a chemical engine was available and the flames were extinguished.

Two of the largest public schools in the city were closed because there was no water for the boilers.

The break was near the Arlington pumping station, in a twenty-inch pipe.

The fire was at No. 243 Broadway, in a three-story wooden building.

CHIEF RISKS LIFE TO SAVE PUPPIES

While the big six-story Herring Building, a "flat-iron," between Thirteenth and Fourteenth, and Hudson street and Ninth avenue, was burning to-day, William Lubbert, proprietor of the cafe in the basement and first floor, rushed up to Battalion Chief Shay.

"Can't you save my puppies?" he begged. "They are Nellie's puppies and Nellie is the puppy of Florrie."

"But the cellar is filled with water," Shay almost protested.

"They have been drowned." Then he asked: "How many are there? Half a dozen?"

"Just two," answered Lubbert, "and they are beauties," he emphasized again.

"I'll see what I can do," Shay assured him, "but I don't believe any man can do much at this time. There's four feet of water in that cellar now, and where there ain't water there's smoke."

Shay went to the cellar and splashed down into water up to his armpit. The smoke made it impossible for him to see, but he felt his way about and found the two puppies floating on top of a box, badly frightened but unhurt.

"Here are the puppies," said Shay to Lubbert, handing over the two little balls of white. Lubbert took them, and Florrie and Nellie barked joyously.

While Shay was saving these puppies the Ninth avenue elevated road was blocked, and engines answering to three alarms sent in by Chief Croker were pumping water on the blaze, which was shooting out through the roof. The fire started on the third floor, and the building was gutted. The loss is placed at $75,000. The "L" was blocked half an hour.

DOCTOR THE SKIN TO CURE THE SKIN.

Scientific Study Proves Eczema Cannot Be Treated by Dosing the Stomach With Drugs.

Advanced medical science, after years of study and research, is now practically agreed that Eczema, psoriasis, salt rheum and diseases of like nature are skin diseases—and cannot be cured by doctoring the blood. The treatment prescribed is the direct application of healing, soothing remedies to the skin.

"Doctor the itch where the itch is"—such is the common sense as well as scientifically correct conclusion. Oil of wintergreen, compounded with such other soothing vegetable remedies as glycerine and thymol in D. D. D. Prescription, is recognized as the specific. Physicians use D. D. D. Prescription freely in their practice. Dr. C. A. V. Hartleben, Washington, D. C., writes as follows:

"D. D. D. Prescription is medicinal, soothing and the effect is miraculous. God knows it saved me a deal of suffering. I recommend it to every one I can."

This letter is only one of many testifying to the merits of this purely vegetable remedy. Copies of other letters may be seen at our store. Wm. B. Riker & Son Co. Free treatise on care and nutrition of the skin may be had on application.
