NOTES ON EDUCATION.

Princeton now has sixty-two endowed scholarships.

Louisiana has a school population of 290,036, New-Orleans contributing 61,456 to this number.

A Maine woman, Miss Ellen Lord, of Portland, has held for several years the chair of Greek at Wellesley College.

The separate education of the sexes was declared by a speaker at the recent meeting of the Ottawa Teachers' Association, socially, morally, intellectually and economically wrong.

There is an enrollment of 196,574 in the Minnesota schools, the State having a school population of 315,948. The average sum paid monthly to the male teachers is $33 50; to the women teachers $28 50. Why this difference?

In the experimental kitchen in the Iowa Agricultural College, the girl-students are taught the philosophy as well as the practice of cooking. They learn the chemistry and comparative economy of foods, the usual adulterations and the methods of marketing.

In one of the Boston public schools a novel experiment has been conducted during the past year. A room was fitted up for instruction in wood-working and two classes were organized to give two hours a week to manual study. The experiment is said to have been an entire success. The boys, while delighted with their carpentry, did not neglect their other studies, and their marks were all high.

The average salary of women teachers in Vermont is only $18 24—little more than that received by the ignorant servant who scrapes kettles in the kitchen. In New-Hampshire the women teachers receive $22 36. Vermont's male teachers are paid at the rate of about a dollar a day—smaller wages than are given to an ordinary laborer in the fields. It is no wonder that the teachers are considered incompetent and the schools failures.

Missouri has, next to Indiana, the largest amount of permanent funds devoted to school purposes in the Union. They aggregate $9,471,696, not including the annual apportionment of State revenue. The State has a school population of 741,632, and of this number 488,000 are enrolled in the public schools. There are 8,822 schools in operation, conducted by 10,607 teachers, and last year $3,168,738 were expended upon these schools.

A French inspector-general of schools who is a strong advocate of education, compulsory, secular and free, says: "We must admit that we are in presence of a vast gap which I here point out merely; dogmatic religion withdraws from our schools, and there is nothing at present to take its place. . . . If our democracy is not to be, what its detractors call it, a regime of mediocrity of soul and of vulgarity of character—that is to say, of decadence—there is no time to be lost; we must find a way of uniting, as at this moment we do not unite, *education* with *instruction*."

The State Superintendent of Instruction of New-Hampshire complains in his annual report that the schools are not effective. There is too much blind cramming of the memory, and the scholarship of many of the teachers is limited and inaccurate. There is among them a fatal want of knowledge of the laws of mind-growth and the natural order of studies. Not unfrequently they confound silence with order, and mistake mental stagnation for mental digestion. With such drawbacks, the physical, intellectual and moral faculties of children cannot be so disciplined and informed as to fit them to do their best in the industries and responsibilities of after-life. The average daily attendance in the schools is 43,966. The total amount expended last year was $375,808 66.

NEW-YORK MILITARY ACADEMY.
FORT WASHINGTON, N. Y.
Established 1854.
Superintendent—JOHN B. HAYS, M. D.,
REOPENS SEPT. 4, 1882.
A Boarding School of the highest grade, whose three-fold end, and scrupulously followed, is to mount, at an early age, the intellect of youth by *science*, the will by *obedience*, and the feelings by *religion*; never separating these three great requisites, instruction, discipline, religion, while fitting for every profession.
Situated on Washington Heights, about ten miles up the Hudson. It is reached by the Sixth Avenue Elevated Road to 155th-st. Carriages are always in waiting, or, by timely notification, the superintendent meets the arrival of every train.
A more beautiful and healthy site—on an eminence commanding the most delightful scenery—or more attractive surroundings, are not found along the fashionable banks of the Hudson. Its buildings are unusually homelike.
There are forty acres of land attached to it, shaded and intersected by oak groves, affording ample space for playgrounds.
French, German and Spanish spoken.

MINES AND MINING.

WEDNESDAY, Dec. 27—P. M.

The mining stock markets to-day were fairly active, but the movements of prices were irregular. Sierra Grande is still a leading feature in the dealings, but its price yielded to 4.30. Chrysolite was higher at 1.50, and Robinson Consolidated rose to 1.30, and all the Leadville shares were firm. The Comstocks were lower, and the general list of miscellaneous stocks were barely steady.

The Ophir Mining Company has levied assessment of $1 per share.

[BY TELEGRAPH TO THE TRIBUNE.]

SAN FRANCISCO, Cal., Dec. 27.—Much excitement was created in stock circles to-day by the announcement in the San Francisco Stock Exchange that Senator Sharon will withdraw the mining companies under his control from the list the first of the year in retaliation for the work of the investigating committee appointed by the Board some time ago. The committee is in session now and reports that it will meet the issue squarely, saying that the present managers of the Comstock mines do not personally own 5 per cent of the stock, and that they will be rebuked at the annual elections by the stockholders.

The market for all the Comstock shares is dull, with no prospect of improvement after the holidays.

Bulwer has declared the usual dividend.

TOMBSTONE, Ariz., Dec. 27.—The adverse claim against the Atlanta mine at Bisbee, has been thrown out of the Land Office and court.

Nothing further has been heard about the suit of Oliver Boyer against the Grand Central Company, and it is generally considered to have been an attempt at blackmailing.

The Superintendent of Head Centre is in San Francisco buying pumps.

Work on the Revenue mine is in operation, and the mine looks well.

The Fort Wayne Mining Company is taking good ore out of the McLellan mine.

Bullion valued at $43,993 44 was received in this city yesterday from the mines.

Caledonia (B.H.) Superintendent reports for week ending December 17: "Ore extracted, 900 tons. Bullion shipped, 653¼ ounces; value, about $11,000. The header advanced 4 feet only; total, 21 feet. North drift advanced 5 feet; total, 22 feet. Ore continues good in the header; in the north, no change. Stopes supplying ore enough to keep 60 stamps running."
