# J. P. MORGAN JR. GREETS ENGLISH PARTY AT PIER

Prominent Londoners, One An Earl's Daughter, Will Be His Guests.

GUGGENHEIM ON BOARD

Predicts Big Business Year and Scores Constant Investigations in This Country.

J. Pierpont Morgan jr., was at the Cunard dock this morning when the Lusitania arrived, to greet a party who are to be his guests during their stay in New York. The party was made up of Vivian Smith, a member of the Morgan house in London; his wife, Lady Sybil Smith, daughter of the Earl of Antrim; Eric Hambro, a noted English banker and golfer, and Mrs. Hambro. Accompanying the two English couples were Mr. and Mrs. De Witt Cuyler of New York and their daughters, the Misses Frances and Eleanor De Witt Cuyler.

After their stay in New York the Smiths and the Hambros are going on a tour over the Canadian Pacific which will carry them to Victoria. Lady Sybil Smith, who is prominent as a Suffragette, denied a cabled report that she has personally organized the procession of 7,000 women which is to move through London from the Embankment to a mass meeting at Albert Hall on June 17, but said she expected to march afoot with her sisters. She isn't going to attend any gatherings of the American Suffragettes while she's here either.

**Financier a Busy Traveller.**

Mr. Cuyler, who for a while was with J. Pierpont Morgan in the Sahara, says the financier showed wonderful vitality and seemed in better health than for years. He said that every morning on the trip through the desert Mr. Morgan would be up at 6 o'clock planning the itinerary for the day, and that when night came and the strenuous programme had tired out everybody else he would still be fresh and full of life.

Isaac Guggenheim, the copper magnate, after a several weeks' absence, returned home by the same ship. He said he meant to hurry across the continent to meet Mrs. Guggenheim at San Francisco. She started from London on Nov. 27 for a tour around the world, accompanied only by a woman attendant. Mr. Guggenheim's daughter, Mrs. W. J. Spiegelberg, who has been ill in Paris, was much improved when he left her. He said business was never better on the Continent, and with big crops last year in this country and the promise of still bigger ones this year he could not understand the reason for the "blue streak" which seemed to be affecting local commercial and financial conditions.

**European Money Ready.**

There was lots of money in Europe ready for American investments, but held back because of our constant political disturbances and what he termed everlasting investigations.

"American business men are law-abiding," he said, "and these eternal investigations and useless muck-rakings are unwise, unnecessary, unsettling and upsetting. Our politics make us the laughing stock of Europe. We need less politics and more business."

Theodore W. Myers, President of the National Democratic Club, was among the passengers. He, too, reported better industrial and economic conditions abroad.

## WHAT'S THE ANSWER?

IF you rescued a beautiful girl from danger, and—

IF you were invited to spend that night at her father's house, and—

IF in the dead of night you should hear strange sounds and get up to find your door locked on the outside, and—

IF the door should suddenly be unlocked and you should be ordered to leave the house AT ONCE, without waiting for daylight, and—

IF no one would explain such strange treatment to a guest and a rescuer of Beauty in Distress, and—

IF you had already fallen in love with the girl and were stirred up over the mystery that surrounded her—

What would you do?

It's ten to one you would not do anything that would throw you into such a tangle of strange adventures as did the hero of "THE PROFESSOR'S MYSTERY."

This is the biggest mystery story of the decade. It will begin in Wednesday's EVENING WORLD, May 10.

## WOULDN'T PUFF CIGARETTE, WAS KICKED AND IS DYING.

Seven-Year-Old Boy Declares He Was Attacked by a Schoolmate Because He Wouldn't Smoke.

Kicked in the abdomen by one of his classmates, Edward Mullen, seven years old, of No. 66 Filmore street, Newark, is in St. James's Hospital and likely to die.

Mullin is a pupil in St. Aloysius Parochial School. He told the police that when he went to the school yard on April 28 he found Michael Burns, who sits behind him in class, smoking a cigarette. Burns, he said, wanted him to take a puff, but he refused and said he would tell the teacher.

Burns, says Mullin, became angry and kicked him. Mullin had to go home. He was taken to the hospital on last Wednesday and the police were notified.

## BRITISH BANKER J. P. MORGAN JR'S. GUEST IN NEW YORK.

MR. ERIC HAMBRO

# WALL STREET.

A slow recovery from yesterday's slump was in progress during the early period of this morning's stock market. Freed from selling pressure that characterized trading yesterday, stocks were enabled to move up for average gains of 1 point during the first hour to-day. Reading manifested the best tendency to rise, moving up over 156 from a closing yesterday of below 155. Other prominent features accompanying Reading on the upturn were Atchison, Union Pacific, Steel, American Telephone and the local tractions.

Increased heaviness was displayed in prices of leading features during the best part of the afternoon. Union Pacific, Reading, Steel, St. Paul and Atchison were all lowered about 1 point from their morning figures. The late selling was attributed to reports from Mexico. The sudden turn of affairs in the Mexican situation was considered serious by a majority of the trading element.

Toward closing time a rally developed, but the list was generally down on the day.

**The Quotations.**

To-day's highest, lowest and last prices of stocks and net changes as compared with yesterday's final figures are as follows.

## POLICE COULDN'T FIND HIM, SO HE GIVES UP.

Archie Hadden, Hunted Six Weeks on Indictment, Goes to the District-Attorney.

Archie Hadden, who was indicted six weeks ago with "Jumbo" Beuchar as one of the owners of a string of Tenderloin resorts, and who has been reported as a fugitive whom the police could not find, to-day came to the office of the District-Attorney alone and gave bond for $2,500 to insure his appearance for trial.

There was much comment over the fact that Hadden, who is one of the best known men in the Tenderloin district, should be able to remain at large for six weeks without being found by the police, and then should make his way to the Criminal Court Building as his own arresting officer.

The indictment of Hadden and his alleged partner came as the result of the investigations made by the "Rockefeller Grand Jury" into the white slave traffic. This jury presented that all the clerks and managers arrested at alleged disorderly houses and resorts were merely hirelings and suggested the arrest of the owners. Then Hadde and Beuchar were indicted.

They are charged with owning and running the Bal Tabarin, the German Village and a string of similar places.

A Fine Salad Dressing by adding vinegar. At Delicatessen and Grocery Stores. 10 CENTS. Spoon with each bottle.

# MUSIC EVERY DAY DURING SUMMER IN CENTRAL PARK

Commissioner Stover Arranges for Afternoon and Night Performances.

There will be music in Central Park this summer every afternoon and evening, except Saturday and Sunday nights. On other nights there will be band music on the Mall, the afternoons being devoted to concert music. In former years there have been only two or three concerts a week in the park. Arrangements for the new programme were concluded to-day by Park Commissioner Stover.

The Board of Estimate has appropriated but $30,000 for music in Manhattan and the Bronx this year, as against $54,000 last year. In order to carry out his programme Commissioner Stover will ask the board for an additional $20,000.

Last year the city paid for 341 band concerts and sixty-one orchestral concerts, the music being played by 280 bands in thirty-three city parks. Most of the city-paid music will be given this year in Central Park by day as well as nights. The latter part of the programme is something of an experiment. There may be some objection to it because some children might not be able to attend on account of the lateness of the hour, while others might be influenced to remain away from home to attend the concerts.

There was cut from the budget this year $30,000 which was to have been expended by the Board of Education for music on school roof playgrounds. The Board of Estimate voted against music on school roof playgrounds on the ground of economy. Mayor Gaynor said neighborhood bands should be established by the citizens themselves as is done in other cities. The people would then be encouraged to go in for music on their own account and with better results.

While Central Park gets most of the free music this year bands will be heard in other city parks, but their allowances are cut materially.

# ARRAIGN ACCUSED LEGISLATORS WITH A GANG OF CROOKS

Murderer in Line With Ohio Lawmakers, Who Plead Not Guilty to Grafting.

COLUMBUS, O., May 5.—State Senators George K. Cetone, I. E. Huffman and L. R. Andrews, Representatives A. C. Lowry and George B. Nye and Senate Sergeant-at-Arms Rodney J. Diegel, under indictment for soliciting bribes, were arraigned to-day before Common Pleas Judge E. B. Kinkead in the Criminal Court and pleaded not guilty.

The defense indicates a purpose to claim that dealings with the detectives were for the sole purpose of catching and exposing the bribe givers.

The accused legislators with the exception of Nye and Lowry, who were arraigned later, were brought in along with seven criminals, one a murderer and others accused of petty thefts and burglary.

Following the pleas of not guilty the prosecutor fixed the time for trials as week after next. Attorney Belcher, for the defendants, objected to trial at that time, saying he would be engaged in a murder trial.

The Court told Mr. Belcher that the assignments were made by the prosecuting attorney and that he had nothing to do with it, but intimated the prosecutor might consent to a delay of a few days.

Fifth Avenue, 34th and 35th Streets, New York.

# LIVING MODEL USED IN COURT TO PROVE MURDER

At Woman's Trial He Aims Pistol as Doctor Orders to Refute Claim of Suicide.

GUILDHALL, Vt., May 5.—The prosecution in the case of Mrs. Florence M. Dodge of Lunenburg, who is on trial for the murder on Sept. 17 last of William Heath, a painter of Dalton, N. H., rested at 10.24 A. M. to-day after a demonstration had been made with a living model in the presence of the jury for the purpose of showing that Heath could not have committed suicide. The demonstration was made by Dr. B. H. C. Stone of Burlington, a medical expert, upon Samuel Richardson, a man who is of about the same size and build as was the victim of the mysterious shooting in Mrs. Dodge's home.

Just previous to the demonstration Mrs. W. A. Heath, the widow of the man killed, was recalled for the purpose of testifying that her husband was right handed. When Dr. Stone and Mr. Richardson stood before the jury the doctor indicated a point on Richardson's body, about four inches below the heart, which, he said, was the location of the bullet wound on Heath's body.

Then placing a pistol in the hand of Richardson, Dr. Stone, by measurements made in the presence of court and jury, showed that when the pistol was held in the left hand and directing it at an angle at which the bullet entered Heath's body, the living model, aided by the doctor, was able to keep the muzzle of the weapon twenty-one and one-half inches distant from the body; but without the assistance of the doctor, he could keep it less than nineteen inches from the body. By elevating the weapon at an angle of between twenty and twenty-six degrees, it was demonstrated that the pistol must be about sixteen inches from the body and one and one-half inches from the coat sleeve.

When the pistol was placed in the right hand, Richardson, with the assistance of Dr. Stone, could barely direct it toward the angle at which, it is claimed, the weapon must have been held when Heath was shot, and the muzzle was close to the body. No demonstration was made by the subject without Dr. Stone's assistance when the pistol was held in the right hand.

W. E. Balch, who made the cast of the bullet marks on the floor of the room in which Heath was shot, was recalled and testified that in his opinion, based on the appearance of these indentions the shots were fired from the hall.

## "TAINTED MONEY."

**Some Wellesley Students Would Return Rockefeller Gift.**

WELLESLEY, Mass., May 5.—A petition to the Wellesley College trustees to return to John D. Rockefeller the $150,000 presented by him to the college several years for a heating plant is being circulated by students.

The petition was drawn up after a warm debate in a freshman class meeting, at which it was voted to appoint a committee to frame the petition and circulate it.

The petition closed with the words "We, the undersigned, do not feel that our college should rest under the shadow of this gift."

FRECKLES

New Drug That Quickly Removes These Homely Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as a new drug, othine—double strength—has been discovered that is a positive cure for these homely spots.

Simply get one ounce of othine—double strength—from Kiser's or Hegeman's and apply a little of it at night, and in the morning you will see that even the worst have begun to disappear, while the light freckles have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine as this is sold under guarantee of money back if it fails to remove the freckles.

## HALSEY COOLEY IVES STRICKEN IN LONDON.

Director of the City Art Museum in St. Louis a Victim of Apoplexy.

LONDON, May 5.—Halsey Cooley Ives, director of the City Art Museum of St. Louis, was stricken with apoplexy here to-day and his condition is very serious.

Mr. Ives is widely known in this and other countries, having been many times decorated in recognition of his attainments in art. Part of his early education was acquired in the technical schools of South Kensington. On several occasions he has represented the United States Government as commissioner abroad. He was chief of the art department of the St. Louis Exposition in 1904. Mrs. Ives, who was formerly Margaret A. Lackland of St. Louis, has many friends in this city.

Mr. Ives was born in Havana, N. Y., Oct. 22, 1847. His father was Hiram D. Ives. The younger Ives was a draughtsman when the civil war began and he enlisted in the army. He was sent to Nashville, Tenn., where he served during 1863 and 1864 as a draughtsman. He returned to his New York home in 1869 and took up designing. In this work he travelled over a large part of the country.

**Shad Up the Hudson.**

ALBANY, May 5.—The run of shad has begun in the Hudson River and the fish have already been netted as far north as Rhinecliff.

HOW I MADE MY LASHES GROW

BY HULDA THOMAS

This is a subject I know you will all be interested in, and I want every reader of The World to feel free to write me and ask all about it. It is said there is nothing new under the sun, but this treatment is a discovery but recently made and is possessed solely by me—it cannot be found anywhere else in the world.

I am a student of the beautiful. As far back as I can remember I have studied human faces to find out what makes some so much more beautiful than others. I noticed that excessive and beautiful eyes were usually fringed by long, luxuriant lashes, and were offset by perfect brows. Eyes having thin lashes and imperfect brows never appear attractive and seldom denote strength of character. Having had thin lashes myself and finding nothing that would enhance the growth of lashes or brows, I set to work to experiment myself. Being the wife of a physician and having some knowledge of chemistry, I hit upon a lotion which actually made my lashes much longer, but did not even to thicken them. I then experimented further and finally produced a salve which caused an immediate growth of new hair but did not lengthen the old ones to any extent. I then came to the conclusion that neither a salve nor a lotion ALONE would produce the best results, but that they must be used TOGETHER, and, sure enough, after applying the fluid during the day and the salve at night for two weeks, there was a wonderful improvement in both length and thickness, which changed the entire expression of my face, making me appear ever so much younger and more beautiful. Every one who has since bought and used this combination treatment has had the same result. Absolutely harmless to eye itself or sight. Prices and literature sent FREE.
