NO S ON EDUCATION.

Much interest is aroused in Newburg, N. Y., in regard to the measure now before the Board of Education, to make text-books in the public schools free. The two daily papers of Newburg, *The Journal* and *The Register*, are strongly in favor of the proposition, which it is thought will be finally adopted by the Board.

M. Jules Ferry has issued an edict for the abolition in French schools of the punishment known as sequestration. This punishment was solitary confinement from one to five days in a repulsive dungeon, with a diet of bread and water. The French papers call attention to the superiority of the English schools, where such grim discipline has never been practised and where there is no need of walls or barriers, no youth being ever tempted to escape out of bounds.

The third annual meeting of the National Council of Education will be held at Saratoga, N. Y., on July 5. Prominent educators from all parts of the country will take part in the discussions.

There is apparently a good opening for competent teachers in California, judging from the following verbatim copy of a composition on Nevada County, written by an applicant for a teacher's certificate and presented to the county board of education: "Nevada County is situated in the west part of California. It is a mountainous county, and also there is agriculture carried to a great extent. It is dived, into a number of towns and villages; it is bounded on the east by Placer County; it has one river which I might mention: 'Bear River, many small creeks, and ets. There are many large churches, theatres and other public buildings. I must say it is one of the finest system, of public school that there is in the State. Its people are thrifty, energetic and God-fearing people. There occupation are hydraulicing, agriculturing, fishing, mining and school-teaching There are all kinds of scenery, that any one would expect to see in a mountainous county; the green field of waving wheat and corn, its vegetable gardens, fine residence and surrounding grounds. The mountains present themselves robed in a mantle of white, here a lone tree on a high bowlder representing true manliness. The principal cities of note are Nevada City, Grass Valley, San Juan and Dutch Flat. The first mentioned is of principal note because the courthouse is situated in said city and it is the county seat; the next is a very pretty green valley, where the air is pure and healthful; the principal occupation is mining."

A proposition is before the Baltimore School Board to make the tenure of school teachers ten years. The object of this measure is to take the schools out of politics, and, though much opposition is shown to it, it will probably become law. The project to establish an industrial school in Baltimore is now fairly launched.

President Gilman, of the Johns Hopkins University, has written an article in the June number of *The North American Review* on "The Present Aspects of College Training," in which he shows that, while American colleges have made great advances in architecture and in educational apparatus, they have done very little to endow professorships. The result has been either that the best talent has not been secured in many instances, or that professors have been obliged to do outside work to add to their income. In either case great injury is done to the cause of education.

A company composed of influential clergymen of the English Church and leading representatives of the great universities has been formed in England to establish first-class schools for the education of boys and girls of the middle class. It is intended to give the pupils a thorough practical education, combined with definite Church teaching.

The authorities of the Argentine Republic are making commendable efforts to elevate the standard of education in that country. The Government has just secured the services of eight young women recently graduated from the Normal School at Winona, Minn., to take charge of normal schools in the Republic.

The National Educational Assembly will meet at Ocean Grove, N. J., next August. It will be conducted by the Rev. J. C. Hartzell, of New-Orleans, Governor Pattison, of Pennsylvania, will preside at the first session, and the opening address will be delivered by United States Commissioner Eaton. Many other distinguished speakers will make addresses.

The Christian Union has the following pleasant reference to the accomplished president of Williams College: "Two gifts to Williams College last week aggregated $5,000. Dr. Carter has signalized each year of his presidency by a considerable increase in the endowment of the college and is working with tireless zeal to enlarge its usefulness, strengthen its position, and raise its standards of scholarship. Never in the history of the college has it done such good work as it is doing at present; never before has it offered such advantages to students. The alumni have always been notably loyal, but they have by no means discharged their obligations to the institution.. A gift of $500,000 ought to be forthcoming from a body of men who represent a large capital and who owe much to their *alma mater*. President Carter is in a position which enables him to ask for gifts to the college with the best possible grace: he has made it worthy of the largest liberality."

The possibilities of spelling are illustrated by a professor in San Francisco, who declares that "Ghongbphtheghtteean" is a correct spelling of "potato." He proves it thus: "Gh stands for *p*, as you will find from the last letters in hiccough. Ough stands for *o*, as in dough. Phth stands for *t*, as in phthisis. Eigh stands for *a*, as in neighbor. Tte stands for *t*, as in gasette; and eau stands for *e*, as in beau."

NEW-YORK MILITARY ACADEMY.

FORT WASHINGTON, N. Y.
Established 1854.
Superintendent—JOHN B. HAYS, M. D.
REOPENS SEPT. 4, 1883.

A Boarding School of the highest grade, whose three-fold end, and scrupulously followed, is to mould, at an early age, the intellect of youth by *science*, the will by *obedience*, and the feelings by *religion*; never separating these three great requisites, instruction, discipline, religion, while fitting for every profession.

Situated on Washington Heights, about ten miles up the Hudson, it is reached by the Sixth Avenue Elevated Road to 155th-st. Carriages are always in waiting, or, by timely notification, the superintendent meets the arrival of any train.

A more beautiful and healthy place—on an eminence commanding the most delightful scenery—or more attractive surroundings, are not found along the fair-famed banks of the Hudson. Its buildings are unusually homelike.

There are forty acres of land attached to it, shaded and intersected by oak groves, affording ample space for playgrounds.

French, German, and Spanish spoken.

TALLOW—Steady and quiet; Prime City, quoted 7 15-16c.; sales, 47,000 ℔, 7 15-16@8c.

LIVE STOCK MARKET.

NEW-YORK, June 6.—BEEVES—Receipts were 252 cars of 4,163 head, all at Jersey City, with the exception of a single car-load. Total for four days, 16,151 head, against 8,858 head for the corresponding time last week. Thirty-seven cars were export cattle for Messrs. Lingham & Eastman, and about 30 car-loads came direct to city slaughterers, leaving 184 fresh cars on the market in addition to the dozen car loads or more held over from previous arrivals. The supply was rather heavy, the demand slack, and slaughterers had things pretty much their own way. Drovers were willing to drop prices ½c per ℔, but butchers insisted on buying the Cattle ½c off from Monday, and in most cases obtained the concession asked for. Coarse, heavy Corn-fed Cattle and Poor to Common Steers received the lowest bids, in some cases nearly $1 per 100 ℔ less than on Monday. A few selected Tops sold at 12½@12¾c to dress 56@57 ℔; Choice Bullocks at 12¼c, to dress 56 ℔; Fair to Prime Steers at 11¾@12c, also to dress 56 ℔, and Poor to Fair Stillers at 10¼@11c, to dress 56@58 ℔ (about 20 car-loads from Kentucky at that range). Seven cars from Terre Haute, Fair to Good Colorado and Native Stillers mixed, sold at 11@11½c, and 10 cars of Prime Native Stillers from Des Moines at $5 60. Old Oxen sold down to 9½c, to dress 55 ℔. The market was the dullest of the season and at a late hour it seemed likely that at least 60 car-loads would be carried over, including a good number of Prime Heavy Bullocks for which the demand was exceptionally light. Shippers talked of losing $1@$1 50 per car-load, and Washington Market men offset these injurious stories with reports of Dressed Beef selling down to 8½c, "in fact," said one butcher, "nobody appears to want any beef; the people are all living on blueish and strawberries."

No shipments of Live Stock or Fresh Meat from this port to-day. The Lydian Monarch is reported to take out 971 Live Cattle and 300 sheep to-morrow for F. H. Lingham & Co.

Sales.—F. Samuels for self: 29 Missouri Steers, 1,274 lb, at $6 35; 32 do, 1,201 lb, at $6 35; 20 do, 1,317 lb, at 11¾c, 55 lb and 50c per head; 29 do, 1,309 lb, at 11¾c; 19 do, 1,329 lb, at 11¾c; 16 do, 1,343 lb, at 11¾c.
