

# DISBROW

A Tribute of Appreciation

## Combined Churn and Worker.

SOME SAY IT DOES ALL WE CLAIM. • OTHERS SAY WE DON'T CLAIM ENOUGH.

of combined machines. Would you like to know more about the Disbrow? Drop us a postal card.

# We use Rollers

To work the butter in the Disbrow. We use a peculiar shaped roller. Yes, we have a patent on that shaped roller. Our competitors wish we didn't have. We are not forced to resort to paddles. We don't have to use the side of the churn to work butter against. Did you ever see a butterworker that was a success, without rollers in it? We never did.

The Disbrow will work all the butter it will churn. When you use a Disbrow you don't need to take out part of the butter while you work the rest. That's what you do when you use other kinds

**Owatonna Manufacturing Co.,**

## DWARF ESSEX RAPE

### RAPE AS A PASTURE.

Rape is unequalled as a pasture for sheep in the autumn, and as a fattening food in the field it is without a rival in the way of cheapness or effectiveness.

### Rape as a Catch Crop.

Rape is particularly adapted for being grown as a catch crop, as, like the turnip, it grows better late than earlier in the season. When a grain crop, therefore, has failed from any cause whatever there is ample time to plow the land and sow rape upon it.

Do They Like It?

Sow 6 lbs. to the acre. Price, 25 cents per lb.; 6 pounds for \$1.00
