Market Closing—Strength and activity were displayed in the late afternoon, although stocks were supplied on strong spots. Large interests seemed inclined to restrain advancing movement and preserve the factor of a short interest. New Haven, Can issues and Reading were particularly strong features, and best prices for the day were made toward the close. Western Union recovered from 54 1-8 to 57; Steel closed at 89 1-4 and Southern Pacific issues both made gains from 11-8 to 1 7-8 points over the close of Saturday. Total sales, 481,854 shares, the largest total for some time back.

Opening of market was active, and prices as a rule were a fraction under Saturday's strong close. There was evidence of realizing by speculators who new profits on commitments entered into a few days ago, but commission houses reported an increase of public interest which helped to absorb offerings of stocks.

Initial decline in Steel was 1-4, at 89 3-8. Union Pacific opened off 3-8, at 154 7-8, and Canadian Pacific was influenced by its break in London market, opening 2 1-8 points down at 218. Close observers said there was a large short interest and that a part of it seemed inclined to cover on declines. The bearish element argued that the street had exaggerated significance of settlement of telephone difficulty. American Telephone opened 3-4 off at 122, while Western Union opened 1-2 point down at 57 and declined under pressure to 54 1-8. While there was heavy volume of realizing in first half hour, the sales were absorbed and undertone was good.

Lehigh Valley was a strong feature, advancing to 162 3-4, a gain of 7-8.

There was liquidation of Western Union by people who bought in past years in expectation of highly favorable results under telephone management and who have become apprehensive of the effect of the sale of the $30,000,000 stock owned by the telephone company.

Volume of trading was large during the first hour and prices held steady. Saturday's bank statement was favorable and made a good impression, and the fact that the big New York banks intend to go into the new banking system was regarded as assurance that the scheme would be an entire success, as the smaller banks are certain to follow the large ones. There were a few weak spots in the early part of the second hour, but they did not represent the market, as the general tone was good. Missouri Pacific lost 2 points, to 23 1-4, on expected poor statement.

In the early afternoon Southern Pacific advanced to 89 1-4 and Reading to 165 1-8, while the general list was all strong and made gains. American Can issues advanced over 1 point.

Wheat prices were very little changed at opening. Large receipts at Minneapolis, and the snow-covering in parts of West and Southwest caused selling.

Corn barely steady. Receipts are liberal and weather is favorable in most sections.

Wheat sold off a little. The various estimates received on Argentine crop surplus vary so much that claims are made of over statement, and same is said in regard to the Russian crop estimates.

Corn was weak. December was down one cent a bushel, due to heavy receipts. Western receipts are 1,000,000 bushels above corresponding day last year.

Wheat was dull and heavy in afternoon and closed 1-8 lower. Corn rallied a little from the low point and closed 1-8 to 1-2 off.

NEW YORK COTTON MARKET.

Saturday's Close.		Open.	High.	Low.	Close.
12.20	Dec.	12.15	12.18	12.01	12.03
11.93	Jan.	11.85	11.92	11.74	11.78

12.17	July	12.10	12.17	11.99	12.01

The cotton market opened barely steady at 7 to 10 points lower, but bear profit taking and heavy purchases of January and March by big spot interests had a steadying influence after the call and prices advanced sharply.

Prices held steady after the opening.

Heavy offerings in the middle of the afternoon broke prices below the previous low, and selling was said to be for short account. Market closed weak at 7 to 20 points decline.

CONSOLIDATED STOCK EXCHANGE.

Profit taking on a large scale throughout the list and the development of special weakness in a few stocks like Western Union and Missouri Pacific gave the market on the Consolidated Stock Exchange a "spotty" appearance in the early dealings to-day. Offerings, however, were well absorbed on recessions and firmness showed in the afternoon. Southern Pacific and Reading became particularly strong, with the first named selling at 88 3-4 on the Consolidated, when it was quoted at 88 5-8 on the New York Stock Exchange.

The market in Reading was a very broad one, with commission houses handling some large orders. One house bought 1,000 shares at 164 7-8 in two lots of 500 shares each. The expectation of the probable signing of the Currency bill to-night by President Wilson exerted a stimulating effect upon the market in the afternoon trading. The forenoon reaction was to an extent precipitated by a lower cabled range of prices from London. There were some vague rumors of friction between the British and American admirals in Mexican waters.

Prices on the 9.30 o'clock opening call reflected declines from Saturday's closing quotations, the most loss being 2 1-4 points in Canadian Pacific. Lehigh Valley was down 5-8 of a point, Amalgamated Copper, Smelting and Erie each down 1-2, Union Pacific, St. Paul, Northern Pacific and Steel each down 3-8, and Reading down 1-4. Opening prices at 10 o'clock on the New York Stock Exchange were generally at or close to the prior Consolidated figures. In the after call trading Missouri Pacific did not sell under 23 3-8, against a low of 23 1-4 on the other board. Western Union got down to 54, against 54 1-8.
