WOMAN TEACHER SAYS TURKS HATE GERMANS AND WAR

Thousand Armenian Refugees Reach New York on Greek Steamer To-Day.

The heaviest incoming steerage passenger list to reach New York in six months was brought into port to-day by the Greek liner Vasilefs Constantino, from Patras, Greece. She had 1,172 persons, mostly Armenian refugees, in the steerage; 223 passengers in the second cabin and 52 passengers in the first cabin. The steerage consignment was a particularly malodorous lot, and Dr. O'Connell, the Health Officer, sent ninety of them down the bay to be fumigated and scrubbed before going to Ellis Island.

Grace M. Boynton, a daughter of the Rev. Dr. Nehemiah Boynton, of this city, was a passenger together with Miss Isabel Thorpe, of Montclair. These young women have been teachers in a school for girls in Constantinople. They left the Turkish capital on June 17, and reached Greece by way of Bulgaria.

"Germany," said Miss Boynton, "is shipping enormous amounts of supplies and munitions into Turkey through Bulgaria. With characteristic German efficiency, these shipments go along steadily and there is no hunger or distress in Constantinople. The Germans are in complete domination in Turkey and have, thus far, succeeded in preserving order.

"The Turks are more kindly disposed toward Americans, French and English than are the Germans. United States Minister Morgenthau, representing the Governments at war with Germany, has been doing great work in Constantinople and was recently instrumental in having an order issued by Envir Pasha, banishing all the residents of the allied races to the Gallipoli Peninsula, greatly modified."

Miss Boynton said she heard that thirty-nine Armenians were publicly hanged in Constantinople on June 14 and 17. On the night of June 16, she said, the Pera quarter of Constantinople, occupied by poor people, was destroyed by fire which for a time threatened the Top Hani Mosque.

Turkish sentiment, Miss Boynton declared, is against the war. But for the influence of Germany, her Turkish friends told her, Turkey would never have entered the conflict.

NEW YORK COTTON EXCHANGE.

Cotton prices were off 4 to 5 points, with traders selling. Market was narrow and quiet during the morning. At end of third hour prices showed advances of nearly $1.50 a bale in past two days. Buying by Wall Street houses, in sympathy with strength in stock market, coupled with short covering, was the feature.

Elliott Resigns One Job.

President Howard Elliott of the New Haven Railroad to-day resigned the offices of President and Director of the Central New England Railway to conform to the Validation Act recently passed by the Massachusetts Legislature. His place was taken by E. G. Buckland.

FRENCH .75 FIELD GUN WILL WIN WORLD WAR, SAYS AMBULANCE DRIVER

American Asserts Disease Has Been Overcome in Sister Republic's Trenches.

"This war is going to be won with the 75-millimetre gun of the French," said William Ahlstrom of No. 1 West Eighty-fifth Street, who arrived today on La Rochambeau of the French Line from Bordeaux.

Mr. Ahlstrom was formerly an automobile salesman and went to the front six months ago as driver of an ambulance with the French army. Most of his time was spent in Alsace.

"The French are the best and bravest kind of fighters individually, but they have been up against machines, not men. When they clash hand-to-hand with the Germans, the latter aren't in it. A Frenchman is usually good for two Germans. But they are building up a machine of their own. They've also got a 75-millimetre gun that is a wonder. It fires thirty times a minute and there are 500 slugs in every shrapnel.

"I saw the gun work at 6,000 yards and there was nothing left of the German trench. For range-finders they are the original range sleuths.

"At the beginning more men suffered from disease than from bullets. One night they took 1,100 men with typhoid out of the trenches. But that's all changed now. Medical science has triumphed over typhoid, and the trenches are marvels of cleanliness and sanitation."

BERLIN SENDS A NOTE ON NEBRASKAN CASE

Said to Offer Compensation if It Is Found the Steamer Was Torpedoed.

BERLIN, via The Hague, July 13.—Germany will make full investigation of the reported torpedoing of the American steamer Nebraskan off the southwest coast of Ireland May 25, and will offer full compensation if it is found the explosion that damaged the vessel was caused by a German submarine, it was learned to-day.

A note dealing with the case was handed to Ambassador Gerard by the Foreign Office last night. Its contents were cabled to Washington to-day.

The Nebraskan, carrying a crew of forty-seven men, was badly damaged by an explosion while en route in ballast from Liverpool to New York on the evening of May 25, about twenty miles south of Fastnet Rock. She reached Liverpool under her own steam.

The British Admiralty issued a statement that she had been torpedoed. The naval attaché of the American Embassy at London, is understood to have reported his belief that the Nebraskan was attacked by a submarine.

ITEMS FOR INVESTORS.

Activity of plants of U. S. Steel Corporation is reflected in fact that for first time in several years it is in the market as purchaser of raw steel.

Copper producers look for increased sales this week on basis of 20 cents a pound.

Magma Copper Company, par value $5, has listed 300,000 shares on the Curb Market. Sixty thousand shares of Wayland Oil and Gas Company preferred stock, par value $5 per share, fully paid, has been put on list.

Cuban American Sugar Company will close its fiscal year Sept. 30. Earnings last year on common stock were equal to 30 per cent., and this year's earnings indicate a surplus for the common stock of between 50 and 60 per cent. The stock opened yesterday at 88, closed at 101, and sold at 108 to-day.

Idle cars in United States and Canada decreased 24,817 in June.

Kerr Lake Mining Company—Quarterly dividend of 25 cents a share payable Sept. 15 to stock of record Sept. 1.

American Smelting & Refining Co. has started two more plants in Mexico making three in all indicating that industrial conditions there are improving.

BATTLESHIP FIRE NEAR 9,000 LBS. OF POWDER

New Jersey's Crew Masters Blaze When It Is Within Ten Feet of the Explosive.

BOSTON, July 13.—A fire in the forward handling room, within ten feet of 9,000 pounds of powder, on the battleship New Jersey, in dry-dock at the Charlestown Navy Yard, was extinguished by quick work of seventy-five of the crew to-day. It was believed that the fire was caused by a short circuiting of electric wires. The wires were cut and the room was flooded.

blaze on the battleship Alabama at Philadelphia last Sunday was also attributed to electric wires.

BELMONT ENTRIES.

FIRST RACE—For three-year-olds and up; highweight handicap; six furlongs, main course.—Leo Shoiny, 128; Superintendent, 120; Polarius, 115; Adams Express, 113; Capra, 118; Hanson, 116; Vladimir, 108; Quartz, 120; Fenmouse, 110; Lady Panchita, 125; He Will, 122.

TODAY'S BEAUTY SUGGESTIONS

Face powder simply covers up an unattractive complexion and leaves no lasting benefits. Those who have tried a simple spurmax face lotion find it much better, as it removes skin discolorations, such as freckles and tan, and makes the skin smooth, white and velvety. This lotion is made by dissolving four ounces of spurmax in one-half pint hot water, then adding two teaspoonfuls glycerin. This complexion beautifier does not rub off or show like powder, and gives a more refined appearance. It removes both shininess and sallowness, rapidly giving the skin a permanent, healthy, youthful appearance.

An especially fine shampoo for this weather can be had at trifling expense by dissolving a teaspoonful of canthrox in a cup of hot water. Pour slowly on scalp and massage briskly. This creates a soothing, cooling lather that dissolves and removes all dandruff, excess oil and dirt. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on a glossy richness of natural color, also a fluffiness which makes it seem very much heavier than it is. After a canthrox shampoo arranging the hair is a pleasure.—Advt.

The Boston Post

EDWIN A. GROZIER, Editor and Publisher

Is the First Choice of Local and National Advertisers in Practically All Lines of

DISPLAY ADVERTISING

Below are the totals in agate lines for the five leading Boston papers for the first half year of 1915, Daily and Sunday included, among the principal lines of business. Classified advertising not included. The Boston Post does not make a specialty of classified or small want advertising, because with its very large circulation it cannot carry such business profitably at prevailing Boston rates. It is proper to state that, including classified advertising, the Globe has the largest volume of total advertising. The Transcript, unlike the four other papers, has no Sunday edition.

In the Eighteen Groups of DISPLAY ADVERTISING for the First Six Months of 1915

The Boston Post Leads in Fourteen.
The Boston Transcript leads in Three.
The Boston American leads in One.
The Boston Globe does not lead in any.
The Boston Herald does not lead in any.

Here is the Evidence—Stars (★) Show the Leaders at a Glance
