paris, the Roumanian Government replied, according to a Bucharest despatch, that it would take every means to prevent contraband of war from passing over Roumanian territory, but would place no obstacles in the way of the transit of legitimate goods to Bulgaria.

According to a message to Paris, the Turks in Constantinople, believing the German army will soon cut its way through to them, have begun severely maltreating Greeks, Russians and British, protests of American Ambassador Morgenthau being unavailing.

The great Austro-German army which has invaded Serbia, it is said, is aiming to cut the Orient Railroad, which runs from Belgrade through the centre of Serbia to Nish and thence to Sofia and Constantinople. By following this line they would reach Constantinople in the least time, and it will be the task of the allies and the Serbians to hold them in check at those points. The Germanic allies and the Bulgarians far outnumber the allies and Serbians, but will have to fight desperately to get through the mountainous country.

BULGAR MANIFESTO PRAISES GERMANS, DENOUNCES ALLIES.

BERLIN, Oct. 8 (by wireless to Sayville).—A declaration of Bulgaria's intention to enter the war with Germany and her allies is contained in a Bulgarian manifesto, as given out here to-day by the Overseas News Agency.

"The central powers," says the manifesto, "have promised us parts of Serbia, creating an Austro-Bulgarian border line, which is absolutely necessary for Bulgaria's independence of the Serbians.

"We do not believe in the promises of the Quadruple Entente. Italy, one of the allies, treacherously broke her treaty of thirty-three years. We believe in Germany, which is fighting the whole world to fulfil her treaty with Austria.

"Bulgaria must fight at the victors' side. The Germans and Austro-Hungarians are victorious on all fronts. Russia soon will have collapsed entirely. Then will come the turn of France, Italy and Serbia."

The manifesto states that Serbia, the worst enemy of Bulgaria, has oppressed the purely Bulgarian population of Macedonia in the most barbarous manner, the male population being compelled to die for Serbia's cause, the women being outraged and the rivers running red with blood.

BULGARS INSOLENT IN THEIR REPLY TO RUSSIAN ULTIMATUM

PETROGRAD, Oct. 8 (via London).—Bulgaria's reply to the Russian ultimatum was transmitted in the Bulgarian language, notwithstanding the fact that the Russian is the traditional tongue in intercourse among the Slavic countries.

The message is described as "bold to the verge of insolence." In substance, Bulgaria denies German officers are in the staffs of the Bulgarian armies, but says that if they are present that fact concerns only Bulgaria, which reserves the right to invite whomsoever it likes.

Regarding acceptance of financial assistance from Germany, Bulgaria maintains the right to make loans wherever it pleases.

As to the demand that relations be broken with the "enemies of Slavdom," the Bulgarian Government asserts it is its privilege to choose friends to suit itself and join with any group it prefers.

GAIN CLAIMED BY GERMANS OVER FRENCH IN CHAMPAGNE; BIG GUN BATTLE, SAYS PARIS

Trenches Captured and Many Prisoners Taken, Declares Berlin Report.

FIGHTING IN ARGONNE.

Several Mine Positions Reported to Have Been Destroyed by Explosions.

Violent Cannonading Around Souchez, Near Roye and Along Aisne River.

NO GAINS ARE CLAIMED.

Contest in Champagne Continues, With Desperate Fighting on Both Sides.

OFFICIAL GERMAN REPORT.

BERLIN, Oct 8 (via London).—Following is the official report issued to-day by the War Office:

"After fruitless attempts on Oct. 5 and Oct. 6 made by the French to penetrate our lines comparative quiet reigned yesterday in the Champagne.

"The trench section to the east of Navarin Farm, which the French still held, was cleared of the enemy in the morning by counter attacks. Some prisoners and two machine guns fell into our hands. Toward evening the enemy artillery fire again grew intense. During the night there were infantry attacks at certain points. All were repulsed.

"During our successful advance against an advanced enemy position to the south of St. Marie-a-Py we captured six officers and 250 men.

"To the east of the Argonne, near Malancourt, we destroyed several enemy mine positions by explosions."

OFFICIAL FRENCH REPORT.

PARIS, Oct. 8.—Following is the text of to-day's official report from the War Office:

"The cannonading continued last night—both sides taking part—to the north of Arras in the direction of Souchez and its environs, as well as in the sector of La Folie and near Hill No. 140.

"There was also considerable activity on the part of the artillery of the enemy, together with answering fire from our guns, in the region of Roye and to the north of the River Aisne, in the direction of Tracy Le Val, and at the forest of St. Mard.

"In the Champagne district the Germans violently bombarded our positions between the roads running from St. Hilaire to St. Souplet, and from Souain to Somme-Py. Our batteries everywhere replied to this fire with great energy.

"Active fighting took place in the connecting trenches to the southeast of Tahure, in the direction of the Butte de Mesnil.

"Between the Argonne and the Meuse one of the French mines, in the Forest of Malancourt, shattered some sapping works of the enemy.

"The night passed in relative quiet on the remainder of the front."

BRITISH GAIN 300 YARDS IN MONTH IN TURKEY

Constant Night Fighting Gets Them Very Little Closer to Constantinople.

LONDON, Oct. 8.—During the past month of fighting at the Dardanelles the British have gained on an average something more than 300 yards all along the centre of the four-mile Suvla front, according to an official statement given out here.

The statement was embodied in a report from Gen. Sir Ian Hamilton, as follows:

"During the past month the fighting at Suvla Bay has not been on a scale calling for special reports. Every night there have been patrol actions and bomb attacks, and we gained an average of a little over 300 yards along the whole centre of the four mile Suvla front."

British Soldier Wearing Respirator To Escape Death by Choking Gas

PHOTO BY UNDERWOOD AND UNDERWOOD

This is the newest form of gas helmet worn in the trenches in France and Flanders by the English troops as a protection against the poisonous gas set loose by German shells.

TIMBER SCARCE WHERE 7TH AVENUE CAVED IN, SAYS BLAST FOREMAN

Supports Nearly Always Knocked Out by Explosions in Subway There.

John Mayne, motorman of the Seventh Avenue surface car which fell with its passengers into the subway excavation at Twenty-fourth Street and Seventh Avenue when the avenue covering collapsed on Sept. 22 last, was the first witness called this afternoon in Coroner Feinberg's inquest into the disaster.

Mayne said: "I had to stop the car halfway between Twenty-fourth and Twenty-fifth Streets because a flagman held up a red flag. I reversed and locked my controller with the key and set my emergency airbrakes. There were about fifty passengers in the car.

"A minute later I heard a blast, and the street seemed to sag from side to side; it seemed to slip toward the east side, and I felt the car going down. I fell to the platform as the car went down. I pulled myself out of the car, but I don't remember what happened then, because I became unconscious."

August Mezzanotte, the blast foreman was recalled. He said that at nearly every blast timbers were knocked out of place. The timber boss had told him only four days before the cave-in that he was short of timbers.

Asked about the amount of dynamite used in the blast at the time of the disaster Mezzanotte said: "There were four holes with thirteen sticks in them. Only half a stick was fired at the first blast. That was in one hole."

STOCKS ARE STRONG IN ACTIVE TRADING

Bethlehem Steel Continues to Soar —U. S. Steel Also Rises to New Level.

Strength and activity characterized virtually the entire stock list in the early trading to-day. There was profit taking in large volume. Bethlehem Steel continued the upward journey, going to 459, a rise of 9 1-2 points above the close of yesterday. This was a new high record for the shares. Bethlehem preferred sold at 175, up 5 points.

U. S. Steel, rising to a level above 81, was one of the encouraging features of the market. Colorado Fuel was strong and advances were registered in Westinghouse, Reading, Baldwin Locomotive and Crucible Steel.

The trading in the first hour was close upon half a million shares.

The railroad shares developed great strength and activity shortly after noon and advanced from 1 to 3 points. Bethlehem Steel, which had receded to 430, climbed back to 455.

"Wiretappers" Plead Guilty.

J. Mahoney and Charles Saith, two of six men who enticed Claude L. Clebourne, a purchasing agent of the British Government, to a house in Riverside Drive on Sept. 18 and separated him from $7,000 by the "wiretapping" game, pleaded guilty to grand larceny in the Court of General Sessions to-day. Judge Malone remanded them to the Tombs to await sentence. Robert White, another member of the gang who was arrested in Hartford yesterday, was not ready to plead and was remanded without bail.

GERMANS GAIN GROUND AT DVINSK, RUSSIANS ADMIT

Lines Are Held at Other Points, Says the Petrograd Report.

PETROGRAD, Oct. 8 (via London).—There is renewed military activity on the northern end of the Russian front from Dvinsk to Novo Grodek. The heaviest fighting is in the neighborhood of Dvinsk, to the south of which the Germans have had some success. On the whole, the Russians have been able to withstand their assaults.

The Germans have succeeded in crossing the Viliya north of Smorgan, enabling them to co-ordinate their forces north and south of this point.

Concentration of considerable German forces in the vicinity of Tarnopol, in Galicia, about 25 miles south of the frontier, is believed here to be due to political conditions in the Balkans rather than to an intention of menacing Kiev. Comparative quiet prevails throughout the southern fighting area.

Refugees continue to pour into Petrograd at the rate of several thousands daily. A feeding station established by British charities in the Petrograd station of the railway from Warsaw cares for hundreds daily. A Russian dignitary, on making a complimentary visit to this station, asked for Lady Georgiana Buchanan, wife of the British Ambassador, who is in charge of this work. He was conducted to an improvised bath train and found her on her knees, wrapped in a long apron, her sleeves rolled up. She was washing babies of the refugees.

BERLIN (via London), Oct. 8.—The following report of the fighting in Russia has been issued by the War Office:

"Army Group of Field Marshal von Hindenburg—Russian attacks north of Kosjany and south of Lake Wiszniew were repulsed.

"Army Group of Prince Leopold of Bavaria—The situation is unchanged.

Army Group of Gen. von Linsingen—Russian posts near Newel and Omyt, southwest of Pinsk, were driven off. Our attack in the region of Czartortwsk is making progress. German troops of the army of Count Bothmar repulsed several Russian attacks."

LARGER STANDING ARMY ASKED BY GARRISON

Secretary Wants 20,000 More Men and Suggests Militia Be Reorganized.

WASHINGTON, Oct. 8.—Secretary of War Garrison, it was learned today, has finally submitted to President Wilson his plan for national defense as it applies to the army—and it proves to be surprisingly inexpensive. His recommendations are understood to include an increase of standing army by about 20,000 men, reorganization of the militia and the creation of a reserve, increase of the field artillery corps, and an increase of reserve ammunition.

More extensive adoption of the Plattsburg, N. Y., plan of citizen-soldiery camp is proposed.

Appropriations recommended this year probably will not be materially larger than last year.

MORGAN'S PARTNER MUST RETURN FOR NEW TAX INQUIRY

Swore Off $908,100 and Commissioners Says It's "Unsatisfactory."

HIS LAWYER ANSWERED.

Officials Want to Know What His Interest in Morgan Firm Is Worth.

Henry P. Davison, of the firm of J. P. Morgan & Co., who swore down his $1,060,000 personal tax valuation to $91,900, was sent for this afternoon by members of the Tax Board in order that he may be requisitioned.

Yesterday, when Mr. Davison appeared before Tax Commissioner Chas. E. White, he was accompanied by counsel, whose name is unknown.

Commissioner White asked Mr. Davison about his interest in the Morgan firm, whereupon it is said his attorney replied for him.

"That is almost unascertainable," declared Mr. Davison's lawyer, "because it is an unliquidated interest."

After the financier and counsel had left the Tax Department, Commissioner White and Commissioner Shipley discussed the reduction. It was agreed that perhaps that particular part of the investigation of Mr. Davison's affairs concerning his interest in the house of Morgan had not been gone into sufficiently. Commissioner White took care to explain, however, that Mr. Davison was not at all to blame.

In the reexamination of Mr. Davison's interest in the Morgan firm it is understood that that interest will be duly taxed where it cannot be proved it is offset by debts. It is believed that there is some misunderstanding, and that the clearing of this may result in the incease of the Davison personal valuation.

Year before last, according to Tax Department officials, Mr. Davison was taxed on $75,000 worth of personal property and swnore off the entire amount.

Because of this swear off his name automatically remained off the books last year and he was not taxed at all.

CZAR'S COMMISSIONER HERE.

Will Co-operate With Purchasing Agent, Is Belief.

The Russian-American liner Czar brought to this port to-day six members of the Russian Industrial Commission of which Prof. Boris Bahlneteff of the Petrograd Institute of Technology is the head.

While the ostensible purpose of the Commission is to study American methods of munitions and commissary supplies it is believed that its object is to co-operate with the Russian purchasing agencies here.

Grocer Gets Four Months for Raising Figures.

Harry Getz, a grocer of No. 255 West Thirty-seventh street, who, on last Monday, was characterized by the Justices of Special Sessions as the "meanest man who had ever been arraigned before a court of law," was this afternoon sent to the penitentiary for four months. Getz robbed his poor patrons who ran accounts with him by raising the amounts in their account books.

To Jail for His Invitations.

Frank Barnes of No. 300 Smith Street, Brooklyn, was sentenced to the Hudson County Penitentiary for six months to-day by Recorder Cain in Bayonne, N. J. For two days Chief Griffin of Bayonne had received complaints from mothers that a man of the description of Barnes had been inviting young girls to go with him for automobile rides.

JOHN D. JR. WOULD SET PUBLIC RIGHT ON ROCKEFELLERS

Misapprehension as to Their Stand on Organized Labor —Praises Father.

DENVER, Col., Oct. 8.—John D. Rockefeller to-day made his first public address in Colorado when he was the guest of honor at the weekly luncheon of the Denver Chamber of Commerce. Speaking "as a business man to an assemblage of businessmen," he discussed the problems of the State, particularly with regard to industrial questions.

After expressing satisfaction at having been given an opportunity to meet the business men of Denver, Mr. Rockefeller thanked the people of Colorado for their kindness and friendliness to him during his three weeks in the State. He said that the friendly feeling toward himself was due in a large measure to his father John D. Rockefeller sr., who had shown his interest in Colorado and his confidence in the future of the Rocky Mountain region by his large investments in the Colorado Fuel and Iron Company.

John D. jr. referred to what he called a misapprehension on the part of the public regarding the Rockefeller attitude toward organized labor. He read extracts from his own testimony before the Federal Commission on Industrial Relations, which, he said, proved that he believed in the right of labor to be organized.

He spoke of his recently promulgated industrial plan as a further proof of his friendliness to the working class.

In concluding he declared there must never be another strike in the coal mining industry in Colorado, because when strikes occurred all parties were losers, including the public.

PRESIDENT HERE WITH HIS FIANCEE FOR SOCIAL VISIT

(Continued from First Page.)

land chicken, light biscuits, corn pone, sweetbreads and some of Adolphus's special Southern delicacies were included in the menu.

Mrs. Galt carried to-day a large bouquet of flowers given her this morning by the President. She was dressed in black and wore a veil, which partly covered her face. She was smiling and laughing constantly and apparently was very happy. Her mother, Mrs. Bolling, also wore flowers given her by the President.

The President was dressed as usual in dark clothes, with a light gray soft hat. He, too, appeared to be happy. He carefully assisted Mrs. Galt, Mrs. Bolling and Miss Helen W. Bones, his cousin, into the private car before entering himself in the station at Washington.

WASHINGTON, Oct. 8.—President Wilson, accompanied by his fiancee, Mrs. Norman Galt, and members of his family, left for New York to-day, where the party will be entertained by Col. E. M. House, the President's close friend, to-night at a theatre party in honor of the announcement of the President's engagement.

A big throng, the major part of which were women, awaited the President's arrival at the Union Station, where the party boarded the Presidential car. Many women were in the station. The crowd wanted to see the woman who is to be mistress of the White House. They also wished to see the President, but for once he was of less interest than another of his party.

The President reached the station first, riding from the White House in an automobile with his cousin, Miss Helen Woodrow Bones.

Mr. Wilson went to the President's reception room to await the arrival of Mrs. Galt, the crowd gathering about the door. Mrs. Galt and her mother appeared soon and after a smiling greeting, the President escorted his bride-to-be down the long platform to the private car, raising his hat in response to the ripple of handclapping from the crowd as he passed.

The Presidential party, which also included Mrs. H. W. Bolling, mother of Mrs. Galt; Dr. Cary T. Grayson and Secretary Tumulty, left here at 10 A. M. and is due to reach New York at 3.17 P. M.

Norwegian Bark Founders.
