Rescued From Ice in River.

Patrolmen Keller and Schuster at the foot of East Fifty-third Street early to-day saw a man clinging to a piece of floating ice in the East River. At the Charities Dock, two blocks below, as the man was carried down by the tide the policemen threw him a lifeline and hauled him out. He gave his name as Hans Anderson, sixty-three, of No. 230 East Forty-eighth Street, and said he had fallen into the water accidentally. He was taken to Bellevue Hospital.

AMERICAN SUGAR CO. HAS $1,387,000 DEFICIT

This Is Despite the Enormous Export Demand—Surplus Is Over $16,000,000.

Despite the enormous export demand for refined sugar, due to the practical suspension of the beet sugar industry in Europe as a result of the war, the American Sugar Refining Company, in its annual report for 1915, shows a deficit of $1,387,669 after the payment of dividends on the common and preferred stock and after $1,272,000 had been set aside from current earnings for depreciation.

The company still has a surplus of $16,328,802 above a total capitalization of $90,000,000, divided equally between common and preferred stock. By special appropriation it has increased its pension fund during the year to $1,000,000.

The company now has 19,565 stockholders, with average holdings of forty-six shares each.

As a result of the enormous demand, activity in raw sugar in New York has reached unprecedented proportions. Over 700,000 bags, worth over $12,000,000, have been dealt in during the last six days, an official of the Federal Sugar Refining Company said. The wholesale price of refined sugar has been advanced to 6⅝ cents a pound.

Stomach Trouble Due to Acidity.

Stomach troubles, such as indigestion, wind and stomach-ache, are simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation and to neutralize the acid a teaspoonful of bisurated magnesia, probably the best and most effective corrector of acid stomach known, should be taken in a quarter of a glass of water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation and neutralizes the acidity in a few moments. Bisurated magnesia can be obtained from any druggist. It enables the stomach to do its work properly without being hindered by poisonous gas and dangerous acids—Advt.

CHURCH WEDDING AND CLUB RECEPTION FOR MISS BEATRIX BUEL.

MISS BEATRIX BUEL

Church weddings, followed by club house receptions, seem to be favored by Easter brides this year, and Miss Beatrix C. Buel has selected the Collegiate as the church and Cosmopolitan as the club for her wedding, which takes place at 4 o'clock, April 26. Miss Buel is the daughter of Mr. and Mrs. Clarence Clough Buel of No. 103 East Seventy-fifth Street, and she is to marry Henry Clapp Smith, son of Mrs. Joseph A. Smith of No. 480 Park Avenue. The bride-to-be is a sister of Mrs. Vivian Burnett of Plandome, L. I.

Arrested for Inviting Children to Go to Movies.

Edward Ryan, a clerk, thirty-eight years old, living at No. 551 West Forty-fourth Street, was arrested early last night on a charge of annoying children in front of a moving picture theatre on Ninth Avenue, near Fortieth Street. Magistrate Simms in the Men's Night Court fined him $10. According to Policeman Stokes, who made the arrest, Ryan tried to persuade several children to go into the movie show with him. When one of them protested to the policeman he arrested Ryan.

Guiomar Novaes Gives Pleasing Piano Recital.

By Sylvester Rawling.

GUIOMAR NOVAES gave a piano recital at Aeolian Hall yesterday afternoon. She has talent. It was reported that Mr. Paderewski, who heard her recently, predicted a brilliant future for her. Miss Novaes played the Beethoven sonata, opus 81A, with a youthful freshness and a directness that charmed. Her interpretation of the Chopin sonata, opus 58, was replete with beauty and, save for some immaturity in the finale, imposing. Shorter descriptive pieces by Couperin, Daquin, Saint-Saëns, Dubois, Philipp and Oswald, ending with the Schubert-Tausig "Military March," gave Miss Novaes opportunity to create atmosphere. Her tone is big and elastic.

Mr. Amato, instead of Mr. De Luca, was the hunchback jester in "Rigoletto" at the Metropolitan Opera House last night. His impersonation, which is not unknown to us, is replete with intelligent action as well as with impressive song. For the rest the cast was the familiar one of this season, including Mme. Barrientos, Mr. Caruso and Mr. Rothier, with Mr. Polacco conducting. The performance was a fine one and a great audience showed its appreciation of it without stint.

Miss Farrar's continued indisposition has compelled the abandonment of the special matinee performance of "Madama Butterfly" announced for to-day.

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

Look at tongue! If feverish, bilious, constipated, take no chances.

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhœa, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Advt.

ACTOR HIDES HIS GRIEF.

Richard Carle Plays Role After News of His Son's Death.

Soon after Richard Carle, the actor, received word yesterday of the death of his eighteen-year-old son, Lloyd, he had to don his motley stage costume and entertain an audience in the leading comic role in "The Cohan Revue 1916" at the Astor Theatre.

Carle received the news during the morning. Yesterday was matinee day, so he was not able to go to his home at Long Branch, where the death occurred.

"There was no understudy," said one of the actor's associates last night. "Carle was terribly broken up, but he didn't let the audience see it. He worked just as hard as ever for the laughs."

Discard Your Dust Cap Sweep Without Dust

Yes, madam, there is now a new way to sweep without raising a particle of dust. You can dust your ornaments first then sweep, and the ornaments will be as clean as before you started sweeping.

Here's how you do it: Get a can of Nomordust—a powder—sprinkle a little across the room, then sweep it ahead of you as you go. Nomordust enables you to collect the dust, whereas ordinary sweeping spreads it.

But it does more than this. It makes sweeping much easier. You can clean any room in half the time and with half the effort, yet you only have to sweep half as often, because Nomordust gets the room so much cleaner.

As one housekeeper said: "Nomordust gives me as much time for other things as if I had a new maid"—yet Nomordust costs but a few pennies a month.

Nomordust is fine for old rugs too—brings out the original color; and it's good for wood floors and linoleums as well.

You know about dustless dusting—now learn about dustless sweeping. Get a 10c can and then if you're not more than pleased, your money will be refunded.

HOW OFTEN DOES YOUR LAMP NEED CLEANING?

Your lamps, oil cookstove or oil heater will not need cleaning half so often if you fill them with clean, reliable oil—Socony (So-CO-ny) Kerosene Oil.

Very often the lamp is blamed for smoking, smelling and forming wick crust, when it is really due to the use of inferior oil.

Kerosene is not all alike by any means—any more than all butter is alike. Or all flour, or all sugar.

Socony Kerosene Oil is the name of the Standard Oil Company of New York's best kerosene. It is manufactured by improved refining methods, and every gallon conforms to certain fixed standards of quality.

Say "Socony" to the grocer's boy when he comes to take your oil can. Look for the Socony sign on your grocer's window. It is a quality sign and one of the easiest ways to recognize a reliable dealer.
