# ARBITRATION URGED AGAIN UPON HEADS OF GARMENT SHOPS

### Strikers' Chief Denies Bad Faith Charge in Quitting Conference.

Members of the Citizens' Committee, led by Allen Robinson and I. N. Seligman, announced to-day that efforts would be made to induce the Employers' Association to try the arbitration plan of settling the garment workers' strike. Mr. Robinson and his committee published an advertisement in a morning paper setting forth the advantages of arbitration.

A reporter for The Evening World was informed by officials of the Employers' Association that there is nothing to arbitrate and that the only way discussion can be resumed is by the union dropping the demand for an "outsider" to take part in price-setting negotiations.

There seems to be no objection on the part of the manufacturers to a reasonable increase in wages all along the line. They contend that there is no dispute about wages, but say that the union officials retired from the conference when E. J. Wile and his associates refused to submit to the presence of an "outsider" in their shops. Mr. Wile summed briefly his objections to the "outsider" as follows:

"In the first place please state what we yielded to the union in the presence of Mr. Gompers, a labor leader of unquestioned reputation: We granted them the right to strike in the event that an employee was discharged without just cause—that is, just cause from their point of view. We accepted the proposition of a preferential shop, though all along the union has contended that it had no grievance with us but that concerning hire and discharge. Anyhow, we agreed to prefer a union to a non-union man.

"Suddenly the union demanded the right to have an outside delegate of its own selection in our shops to dominate the fixing of piece prices. Such a thing would not be tolerated by any business man in this country. That is an insult to business men. Under the present system the piece rates are fixed by union members in each shop. Union members, understand, who have been indorsed by the officials of the union and a representative of the manufacturer. Could anything be more reasonable? And could anything be more distasteful to a business man than that he should permit a stranger to come into his shop and supervise the fixing of rates that affect the selling prices of everything made in the industry?"

Benjamin Schlesinger answered this as follows:

"If the Association thinks we are in the wrong, why does it not submit the entire matter to a board of arbitration? Are they afraid of a board of arbitration? We are not. Now the facts are that the Association brought in at the last minute a proposition to eliminate entirely all base rates for piecework and we would not stand for it. It is true that we asked for a price-adjuster appointed by the union to be present in the shops while prices are being fixed.

"Mr. Wile's statement in this morning's papers that the representatives of the union did not act in good faith at the conferences is misleading and untrue. The representatives of the Union have displayed more good faith and patience than any self-respecting group of men could be expected to. The seven long days of conferring with the committee of the association were often a patience-trying torture to us and still we sat there and did our best to negotiate with them and bring about an adjustment. On the seventh day we became thoroughly convinced that the manufacturers had no real intention of settling the strike, and we have decided to put an end to this farce.

"The manufacturers came to this conference with the determined aim to deprive the workers of all the concessions granted to them six years ago, and to this the union will not consent even if the strike is to be carried on the whole summer."

### ITEMS FOR INVESTORS.

International Nickel Company in last year paid three quarterly dividends of 1 per cent. each and a fourth dividend of 5 per cent., making 8 per cent. in cash for the year. It is understood that the directors have decided on a policy of distributing dividends more evenly over the four quarters instead of waiting until the end of the year to make a special payment.

Sears-Roebuck's increase in net earnings this year is estimated at from 10 to 15 per cent., and total surplus now aggregates nearly $15,000,000 more.

N. Y. Transportation Company declared an initial dividend of 25 cents per share, payable Sept. 1, to stock of record Aug. 1. The shares have a par value of $10, recently reduced from $20.

### Buried Miners Rescued.

JOPLIN, Mo., July 19.—The four men who have been imprisoned in the Babcock mine, near here, since 2 o'clock Monday afternoon were rescued alive at 7.15 A. M. to-day.

***Important Note***

The Wanamaker Roll-of-Honor instruments included in this sale—Knabes, Schomackers, Emersons, Lindemans—have been used by us in concerts and tone demonstrations. They have been handled with care, and are in perfect musical shape; but because we have used them we cannot sell them as NEW instruments; hence the price reductions.

***A Wonderful Opportunity***

This is a floor-clearing operation, not a profit-making sale. We have new stocks coming in to the Salons, and must make ready for them.
