BUSINESS OUTLOOK IS GOOD ALL OVER U. S.

WASHINGTON, Aug. 1.—The monthly summary of business in the United States prepared by the Federal Reserve Board to-day from reports from the agents of the twelve federal reserve districts shows domestic demand gradually taking the place of foreign orders.

"The present trend of business is more along the line of conservatism which bankers and business men have been urging," the summary stated. "It tends to a more permanent prosperity.

"The general business outlook is satisfactory. Crops are better than the average in most districts and the labor situation is satisfactory everywhere except in New York, where the garment workers are on strike, and San Francisco, where strikes continue on the water front."

EXPERIENCE.

(From the Boston Transcript)

"What is experience, anyway?"

"It's what the other fellow leaves you."

MOTHER OF THE BOY IN AIR BUBBLE CASE IS AT DEATH'S DOOR

Grieves Constantly and Refuses to Take Food Since His Arrest.

OLNEY, Ill., Aug. 1.—Another death may result from the "air bubble" death mystery, which has already claimed the life of seventeen-year-old Elizabeth Ratcliffe, Indiana farm girl.

Mrs. Emma Hinterliter, mother of Roy, who is accused of the girl's murder, has completely collapsed, and reports from her home in Wabash County to-day are that her reason is in danger. Since the arrest of her son she has grieved constantly, protesting his innocence, and for most of the time has refused food.

Efforts were again made to-day by Hinterliter's wealthy relatives to secure his release on bail that his further imprisonment at this time will not result in his mother's death or insanity.

So far the authorities have refused to consent to his admission to bail and are steadily at work picking up the loose threads of their case. Three or four boy companions are being carefully watched and daily questioned by city authorities. Hinterliter so far shows no sign of breaking down and steadily protests his innocence of any knowledge of how the girl met death.

The State chemist, who is examining the organs of the dead girl, has notified the local authorities that he has not yet been able to make a detailed report, although so far he has found no evidence of poison. While the authorities insist that the girl died from injection of air, there are certain features in the case still a mystery and they desire the detailed report of the chemist before any further court action is taken.

The chronic cigarette-boner never says "Sorry friend—sorry"; when he goes south with your last MECCA. Why should he? He's sure got his'n.
