MEXICANS ATTACK BORDER PATROL; 500 SHOTS FIRED

Skirmish Across Rio Grande Lasts Six Hours With No American Casualties.

MISSION, Tex., July 20.—Approximately 500 shots were exchanged across the Rio Grande at Ojo de Agua, eight miles southwest of Mission, between a small American border patrol and a number of unidentified Mexicans.

The Americans were under command of Corpl. Kent and the fighting started when several shots were fired from the Mexican side. The outpost at Ojo de Agua, leaving the Americans returning the shots, immediately sent reinforcements under Sergt. J. C. Hutchison. The fighting continued six hours.

Col. H. F. Dalquerque reached the scene last night with the rest of K and M Companies of the Second Texas Infantry from nearby posts. A strong patrol has been doing out along the Rio Grande in the affected section as a precautionary against a possible attempt at border raiding.

Few details of the engagement reached here to-day. From the best information, there were about 100 Mexicans participating, and one report says three distinct bugle calls were heard, indicating that the Americans were attacked by an organized force.

There were no American casualties but latest reports say two or three Mexicans were seen to fall during the engagement.

Evening World Milk Fund, Like Famed Penny Lunches, Will Prove a Big Success

PENNY LUNCH IN ONE OF THE PUBLIC SCHOOLS.

What a Little Money Can Do in Supplying Children With Milk

$1.00	will provide one child with milk for	12 days.
2.50	" " " " " "	1 month.
5.00	" " " " " "	3 months.
10.00	" " " " " "	6 months.
20.00	" " six children with milk for	6 months.

Thousands of Kiddies Will Be Saved From Effects of Malnutrition.

By Sophie Irene Loeb.

Yesterday the Evening World explained that thousands of children were suffering in the City of New York for want of milk. An appeal is made to the public for funds to meet the emergency.

SOPHIE IRENE LOEB.

Contributions may be addressed to the Milk for Children Fund care of The Evening World.

The Association for Improving the Conditions of the Poor will see to it that:

Every penny will be used for the purchase of milk.

No family will be pauperized.

The milk will be delivered direct by the milkman to the home.

The Evening World is pleased to present a report below of the last fund contributed by the public in the interest of providing penny lunches in the public schools, as well as milk for needy ones.

The aim was directed as expressed in the slogan of the campaign:

No Hungry Child in a Public School! Food First for the School Children!!

At the time The Evening World made its investigations, three years ago, 37,776 children were suffering from malnutrition. That thousands of children have been saved through this campaign as well as the fund contributed by the public is proved by the account of the New York School Lunch Committee, which cooperated with The Evening World as the agency in carrying out the work.

Last year the money was given to principals for any child who had not the penny to secure the lunch in such a way as to not pauperize him by other children knowing of the arrangement.

This policy has been conducted since the penny lunch plan was adopted. Last year 1,176,000 portions of food were served in New York, exclusive of Brooklyn, as a result of the penny lunch system. The number was nearly doubled this year.

Besides this serving of penny lunches, The Evening World contributions by readers made it possible to conduct another great work. The anaemic and crippled children were given a mid-morning service of milk and crackers, and after several months spent in the anaemic class have been sufficiently well nourished to return to their own classes

For the school term, September, 1916, to June, 1917, the New York School Lunch Committee, from The Evening World Fund, served 10,496 quarts of milk, 5,549 half-pint portions of hot cocoa and 1,500 pounds of crackers. The Evening World in addition assisted in the continuance of the noonday hot cooked luncheons to approximately 10,000 children registering in Public Schools Nos. 69, 40, 44, 59 and 160.

Many letters of thanks have been received from the principals of these schools in which this service has been made possible.

The following "Cripple and Anaemic Classes" received milk and crackers during the year:

Manhattan.	*Bronx.*
P. S. 171	P. S. 10
P. S. 69	P. S. 43
P. S. 80	P. S. 52
P. S. 102	P. S. 4, Main Bldg.
P. S. 44	P. S. 4, Annex.

The New York School Lunch Committee account follows:

"Last year the Department set aside for this lunch use the entire building of what was formerly Public School No. 98 E, Manhattan, situated at Delancy and Tompkins Streets, under the Williamsburg Bridge. As a result of the vigorous campaign carried on by The Evening World sufficient appropriation was granted by the Board of Estimate and Apportionment to repair, remodel and equip the building. The old and worn school desks and benches were removed, the walls and floors cleaned and freshly painted, and the class rooms remodelled into a large kitchen.

"The kitchen contains fourteen forty-gallon cauldrons of copper, having a capacity for preparing soup, cocoa, stews, &c., for a maximum of 35,000 children. Every economical device as to sanitation and sterilization has been procured, one room being given up entirely to washing and sterilizing the food containers each day as they were returned to the kitchen.

"There is also a bakery from which thousands of pieces of cake, pies, desserts, &c. are turned out each day.

"The other rooms of the kitchen are devoted to the central food storage, the central utensil storage, equipment storage and the assembly room where the food is received, packed and checked for delivery to each school.

"The central kitchen was not ready for occupancy in September when the schools reopened, so it was decided to operate all their central kitchens as usual, opening the big central kitchen as soon as possible thereafter. In February the committee closed down four of the largest central kitchens, Public Schools 11, 21, 92 and 95, throwing all of them into central kitchen 98 E, making a total of twenty-five associate schools served from 98 E with a total registration of 27,567 children.

"It was a difficult problem in the beginning because of the different nationalities to be served. Public Schools Nos. 21 and 95 are purely Italian, therefore an Italian cook was a necessity. Public School No. 92 group is Jewish, therefore a Jewish cook was a necessity, while Public School No. 11 group is Irish-American and these people will eat neither Jewish nor Italian food. We adjusted this matter, however, by dividing our kitchen into national groups with separate soup and cocoa cauldrons.

"The cakes, pies and desserts are prepared and baked the preceding afternoon; the soups, cocoa and hot dishes, such as creamed potatoes, escalloped salmon and macaroni and tomatoes are prepared in the early morning and sent out steaming hot to the schools. These foods are prepared between the hours of 5.30 A. M. and 9 A. M. Each truck leaves the kitchen not later than 10 A. M. for the associate school."

GUARDSMEN PASS PHYSICAL TESTS FOR U. S. SERVICE

Rejections Less Than 2 Per Cent., and Vacancies Filled From Waiting Lists.

Physical examination of National Guardsmen is nearing completion to-day. The average of rejections is around 2 per cent., and most of the regiments have a waiting list from which to fill vacancies.

After examination, the men will undergo vaccination and inoculation, and be immediately equipped. Not only is equipment needed for the new men, but tents and other articles of regiments that saw service along the border need replacement.

The Seventh and Twelfth Regiments have taken over the Green and the South Meadow in Central Park. Where the young folks usually play tennis there marched back and forth a war strength company of Twelfth Regiment rookies, and one of them in uniform, but all in shirt sleeves and bare-headed.

Just north of them a company of Seventh Regiment men strung out in skirmish line, advancing slowly, firing steadily. Away to the westerly side of the Green other companies were drilling, their compact ranks fringed by dozens of the "awkward squad."

In the South Meadow several hundred rookies were formed into one big company for setting-up exercises.

The Sixty-ninth Regiment is also doing wonders with its new men, although they have no neighboring park in which to drill. All day long the armory floor, which was not built for a regiment of over 2,000 men, resounds with the shuffling tramp of the marchers. On Washington Heights, Col. Vanderbilt's engineers are doing the same thing.

The National Special Aid Society, through its Home Relief Committee, has installed two beds in the sick bay of the training ship Granite State, where recruits to the Naval Militia are quartered. A pulmotor and hospital supplies are part of the equipment.

At Marine Corps Recruiting Headquarters, No. 24 East Twenty-third Street, to-day Lieut. Gardner announced that the roster shows an enlistment of 29,552 of the 30,000 required. He said there was plenty of opportunity for former marines in Quantico, Va., where new barracks are being erected, to compete in examinations for non-commissioned officers for service in France and elsewhere.

Word was received from Washington by Lieut. Gardner that Walter Cogswell Forse, nineteen, of Binghamton had succeeded in enlisting as a marine. He was turned down in his home city, lacking the first finger of the right hand. With blankets, a bottle, frying pan and a few provisions, Forse walked to this city. He tried to enlist, but was rejected and started for Washington on foot, carrying a sign reading "From Binghamton, N. Y., to Washington, D. C., to join the Marine Corps. It's worth it." In the capital Major Gen. George Barnett was so impressed that he turned Forse over to Surgeon General Braisted, who reported that the proceedings had been accepted, to-day, for the missing finger.

At the Regular Army Recruiting Headquarters, No. 90 Broadway, 140 men enlisted yesterday.

Major Jay Paul Hopkins, U. S. A., for two years inspector-instructor of the Thirteenth Coast Defense, in Brooklyn, left yesterday for Fort Adams, R. I., preparatory to departure for service in France.

HONOR AVIATOR WHO PERISHED IN BATTLE

Distinguished Men Pay Tribute to Sergt. Barclay in Presence of 1,000.

A meeting was held by residents of East Elmhurst and Corona, L. I., in Public School No. 35, Corona, last night to honor the memory of Sergt. Iaia Norman Barclay, who was killed June 1 in an air battle in France.

More than one thousand persons attended the meeting, including the aviator's parents, Dr. and Mrs. H. V. Barclay of Elmhurst. Newton Whitney Gilbert, former Acting Governor General of the Philippines, made the address of eulogy, and for the French Government Vice Consul Mathew Video expressed sympathy for the young man's family and the gratitude of France for the actual service Sergt. Barclay had rendered.

SPARTANBURG CAMP WILL SOON BE READY

SPARTANBURG, July 20.—Many of the difficulties surrounding the building of a National Guard camp are being straightened out, and things are beginning to take on definite shape as to the construction of camp Wadsworth, the training ground of the New York troops.

Contractors are beginning construction to-day, while material for the water supply is on the way from Birmingham. The railroads have made considerable progress on the spur tracks into the camp site, and officials say they will be ready before Aug. 1.

The layout of the camp is completed and has the approval of Wood's staff.

AZTEC TREASURE EXHUMED.

Archaeologists in New Mexico Find Relics Buried Centuries.

SANTE FE, N. M., July 20.—An extraordinary find of historic pottery and relics has been made by Earl Morris, excavating Pueblo ruins at Aztec, San Juan County, with a force of twenty-five men, for the American Museum of Natural History.

The discovery includes sixty pieces of rare pottery, 20,000 carved red and black stone beads, baskets, matting, knives, battle axes and other stone implements. Turquoise beads, mosaics and shell ornaments are classed as among the finest ever excavated in the Southwest.

U. S. AIDS INQUIRY IN ALLEGED LOCKJAW PLOT

Attorney General Orders No Sparing of Expense—Cost Prisoner Fund.

KANSAS CITY, Mo., July 20.—"No expense is running down germ plot" is the substance of a telegram received to-day by United States District Attorney Robertson from T. W. Gregory, United States Attorney General. Mr. Robertson had asked his superior in Washington if it was advisable to spend any large amount of money in run down the alleged German conspirators.

Mr. Robertson empowered the Postmaster in Winfield, Kan., to begin an investigation into the death there of Charles Mulford, and sent Federal Investigators into counties where the germ-laden night plaster is said to have been distributed.

Mr. Robertson made public the names under those men were arrested. One, taken in Paola, Kan., has been released after it was found his plasters were not inoculated. Another, arrested at Clay Center, also may be turned loose.

In Marysville the authorities are holding Joan Ering, on whose package of plasters were taken the samples which show evidence of germ inoculation. Ering is forty-four years old, and of German extraction. He was arrested at Axtell, Kan.

Long Way Around to Barbados.

Bishop O. F. Coul De Carteret of Jamaica, West Indies, arrived here yesterday on the first leg of a journey of 2,200 miles to reach Barbados, which is only a few hundred miles from Jamaica, to be present at the ordination of two Bishops. He steamships are now running between Jamaica and Barbados.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Advt.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Advt.

ICE-MINT ENDS FOOT MISERY

Here's Quick Relief for Sore, Tired, Aching, Swollen, Burning Feet, Painful Corns and Callouses.

Just a Touch Stop Soreness. Instantly the Feet Feel Cool, Easy and Comfortable. Try It!

Here's real foot-comfort for you at last. Say goodby to your old foot salve, liquids, plasters and other dope. The modern way—the ether way—to end foot troubles is to use of Ice-Mint, a creamy, pleasant, snow white preparation, whose medicinal ingredients are imported from Japan, where the people have the finest, healthiest little feet in the world.

Rub a little Ice-Mint upon any tender, aching corn or callous. Instantly the soreness disappears and a delightful, cooling, soothing feeling is imparted to the skin. In a short time the corn or callous will loosen and may be lifted out easily with the fingers. No humbug! If your poor, tired, aching, swollen, bunion feet ever feel the magic touch of Ice-Mint they will fairly sing with comfortable that you will dance with joy. It's great! It's glorious! Give shoes or long hours of standing have no terrors for the friends of Ice-Mint. Resolve to end your foot misery today. Do not neglect those poor, tired, burning, corn-pestered feet any longer. Go here is real "foot joy" for you at last.

No matter what you have tried or how many times you have been disappointed Ice-Mint will give you that relief and satisfaction that you have been longing for. Try it! Ask at any drug store to-day for a small jar of Ice-Mint. It costs little and acts so quickly and gently; it seems like magic. You'll say so yourself.—Advt.

Bevo

A BEVERAGE

—the home drink

Besides its popularity at drug stores, fountains and restaurants, *Bevo* has found a welcome place in the home. A family beverage—a guest offering—a table drink that goes perfectly with all food.

As a suggestion for Sunday supper—Sweet red or green peppers stuffed with cream cheese and chopped nuts or olives, served on lettuce leaves. French dressing. Cold meat. Toasted crackers. Bevo for everyone. A beverage that tastes like no other soft drink. Pure, wholesome and nutritious.

Bevo—the all-year-'round soft drink.
