BIRTHS FAR AHEAD OF DEATHS IN U. S.

In 1918 There Were 15,342 Pairs of Twins and 147 Sets of Triplets.

WASHINGTON, May 10.—Births in the registration area of the United States, which covers about 53 per cent. of the country's estimated population, in the year 1918 exceeded deaths by 34.4 per cent.

Statistics for that year just compiled by the Census Bureau show a total of 1,363,643 births in the territory included in the registration area, which is a small decrease compared to 1917, while the deaths, 1,014,620, show a slight increase.

Of every 100 infants born during 1918, the figures show, ten died before reaching the age of one year, a fractional decrease over 1917. Mortality rates among male infants was 23 per cent. greater than that for female infants.

The birth of 15,342 pairs of twins and 147 sets of triplets were reported. The order in which the births were recorded ran all the way from 245,027 cases of first born to 68 cases where the birth reported was the twentieth or more child.

GOMPERS OVERCOME AT WIFE'S FUNERAL

Wreath From President and Mrs. Wilson Among the 300 Floral Pieces.

Mrs. Samuel Gompers, who died in Washington Thursday night, was buried from Benedict's Funeral Parlors, 43d Street and Eighth Avenue, yesterday afternoon. Interment was in Washington Cemetery by the side of her daughter Sadie. The Rev. Dr. Stephen S. Wise officiated at chapel and grave.

To the services came men and women prominent in the labor movement in all parts of the country.

Among the more than 300 floral pieces was a wreath of lilies, orchids and tuberoses bearing a card inscribed, "The President and Mrs. Wilson, with sincere sympathy."

During the services in the chapel Mr. Gompers was temporarily overcome.
