GIRL PRISONERS WORE THE EVIDENCE

Two From Boston Accused of Robbing Woman Who befriended Them.

How to take possession of the alleged evidence to-day was puzzling Detectives Thornton and Miller of the Bedford Avenue Station when they took two Boston young women from Brooklyn detective headquarters to the Bridge Plaza Police Court to arraign them on the charge of burglary. The sleuths charged that one of them, Agnes Shea, of No. 54 Nashua Street, Boston, was wearing a stolen dress and waist and that the other, Mrs. Margaret Anderson, of No. 11 Linwood Place, Boston, had on a stolen dress and silk stockings. It is customary for the police to seize evidence from prisoners—but this was such a chilly morning!

The Hull girls left Boston on Sept. 21 to see New York, and on the boat met Mrs. Ethel Holtzman of No. 347 South Third Street, Brooklyn, who invited them to her home. They left Sept. 22. Two days later Mrs. Holtzman's home was robbed of $250 worth of jewelry and clothing. Thornton and Miller found the girls' photographs in a vanity case they had left behind and picked the pair up.

VAN DRIVER HELD FOR ROBBING MOVER

Woman's $81 in His Shoes, Prisoner Says He Needed Money Owing to Strike.

When the police found $81 in the shoes of John Fagan, a van chauffeur, living at No. 108 Bradhurst Avenue, they arrested and arraigned him to-day in Harlem Police Court. Miss C. Bishop of No. 9 East 84th Street, complaining that the money had been stolen from her.

Miss Bishop was moving yesterday and left her handbag with the money in it on a table. She missed the money late in the afternoon and reported the loss to the police. Detective Thomas Lyons went to No. 238 West 98th Street, said to be the office of the moving concern, and there Fagan confessed, according to the police, took off his shoes and disclosed the money. He said he had been out of work a long time owing to the movers' strike, had three children and had to have food.

BIG DOCKET IN U. S. COURT.

Nearly 300 Cases Scheduled for the Term in Brooklyn.

The October term of the Criminal Branch of the Federal Court in Brooklyn opened to-day, with Judge Edwin B. Thomas of Connecticut presiding.

On the calendar were 283 cases, the largest number ever recorded in the Brooklyn Federal Court calendar. More than one hundred of them are liquor cases, among which are the cases of William R. Tiernan, brother of Judge Tiernan of Staten Island, and Harry Hugot of Staten Island. Oct. 20 was fixed as a tentative date for the Tiernan trial.

Other cases in which dates for trial were fixed are: Bacardi Rum Company, Oct. 18; Dr. Otto L. Maigt, Dec. 1; Wilson & Co., Armour & Co., Cudahy Packing Company, Swift & Co., and Morris & Co., Oct. 20.

Ex-King Constantine Barred by Italy.

PARIS, Oct. 6.—The Italian Government has refused permission to former King Constantine of Greece to enter Italy, according to information reaching the French Foreign Office to-day. Constantine some weeks ago expressed a desire to visit Italy.

How the "EASY" Became the Favorite

The first satisfied user told her neighbor and her neighbor told other neighbors. The neighbors told thousands of other neighbors. Result—thousands of satisfied "EASY" users.

The reason for this is that the "EASY" Vacuum Electric Machine cleans clothes by *air pressure* and *suction*, being a mechanical duplication of the human hands when washing fine silks, laces and woolens.

The two vacuum cups move up and down 60 times per minute. Before the down stroke they change position so that the *air pressure* and *suction* are applied to all the clothes in the round copper tank. On the down stroke the air in the two vacuum cups forces the hot soapy water through the mesh of the garments—on the up stroke they suck the soapy water through the mesh. Dirt or foreign substances lodged in the mesh or stuck to the garments cannot resist this 60 times per minute *air pressure* and *suction*. There is no friction, rubbing, jerking or dragging of the clothes—no wear or tear. The "EASY" will wash the daintiest laces or the sheerest fabrics and silks. Your woolens, flannels and blankets will not only be spotlessly clean but you will be delighted to find them fluffy and pleasant to the touch.

The "EASY" is made from metals, namely, solid copper, brass, aluminum and steel. It is durable and sanitary. Its simple construction makes it easy to operate and understand. All mechanism, including the famous G. E. motor, is suspended from an iron base under the copper tank and out of the way. It occupies less space and yet has a larger capacity than other washers, which is due to the large round tank which has no corners or crevices to collect foreign substances or dirt. Its three legs, with swivel castors, allow it to be moved about easily. It is fitted with electric swinging wringer, also gas heater under tank, if desired. Its capacity is adjustable to small or large washings.

Ask your nearest dealer for a free demonstration of your next week's washing in your own home. No obligation on your part.
