Complete Stock Tables and Financial News

Stock Market

There were no important developments in the news over the week-end or to-day to influence the course of security values, yet the stock market displayed a generally heavy tone. The cotton and grain market also were lower.

Weakness of most stocks seemed to be due as much to lack of demand, coupled with a weakened technical position, as anything else, although at times there was evidence of real liquidation in the rails.

During the rise last week shorts were forced to cover a large part of their commitments, and finding that the buying induced by the decision of the Railway Labor Board and the virtual settlement of the British miners' strike has ended, they again put out short contracts. But there was not much courage displayed in this selling and the bear element was not disposed to follow up successes scored early in the session. After the market reacted a point, trading became decidedly dull.

Railway stocks were heaviest. Canadian Pacific fell more than two points, and the leading high-priced dividend payers dropped a point or more. An influence in this selling was the publication of the fact that there has been a large increase in the number of idle freight cars during the last two weeks, and the number of idle freight cars is everywhere accepted as an accurate index of business conditions.

There was not much of a disposition to pay serious attention to the opinions of leading railway executives that the volume of traffic has touched its approximate bottom level, and that with economies in operating costs permitted by the abrogation of the national wage agreements, net returns and the balances available for dividends should soon show a decided upward trend. Yet it is the opinion of good judges that the railroad outlook has improved so that its influence in determining the question of the continuance of current dividend rates is bound to be important. The estimate of the number of companies that may have to cut disbursements to shareholders is being sharply reduced.

Rumors of impending dividend reductions by independent steel companies were rife, and had an unsettling influence on the price of steel shares. These shares also showed declines of about a point. The remarks of Judge Gary at the annual meeting of the United States Steel Corporation were everywhere read with keenest interest, but failed to have market influence.

Exceptions to the trend of the general list were the oils, the coppers and, among specialties, Peoples Gas. The last named stock made a new high for the year. The action of Mexican Petroleum suggested the existence of market support by sponsors of the bond issue announced to-day, but its comparative strength had a favorable influence on the price of other oils.

Money continued to renew at 7 per cent. Demand sterling at $3.93 1-2 was one-eighth of a cent higher.

OVERCOME BY SMOKE.

40 Families Routed From Homes by Bronx Blaze.

Mrs. May Domis, forty-eight, was overcome by smoke early this morning while leaving her home with her daughter, when a fire in a one-story frame building used as a junk shop and a stable in the rear threatened her home at No. 728 East 149th Street. She was taken to Lincoln Hospital suffering from shock and hysteria. Forty families in the house at No. 740, and four families in the house at No. 738 East 149th Street left their homes because of the dense smoke. The blaze gave the firemen a two-hour fight, during which East 149th Street surface traffic was held up.

MARKET REPORTS BY RADIO.

WASHINGTON, April 18.—It is now possible for any farmer in the country to get his market news from the central market, hundreds of miles way, within a few minutes. By paying $50 to $150 he can get a radio receiving set, rig up the wires on his barn or house, and know before he goes to market how much he can get for his products.

Lack of Housing Shows in Bronx Marriage Licenses.

Deputy City Clerk Thomas J. McCabe of the Bronx declared to-day that he had issued only 278 marriage licenses for the first fifteen days of April, considered the banner month of the year, against 368 in the same period in 1920. The scarcity of apartments and high living costs are blamed for the decrease. Figures from the other boroughs show in Manhattan 1,932 were issued between April 1 and 17, against 1,836 in the same period last year. Brooklyn shows a decrease of 534, in 1920 numbering 2,950 and this year 2,416.

Alabama Loss by Storm Several Million Dollars.

TUSCALOOSA, Ala., April 18.—The death list at Ralph, as a result of Saturday's tornado, was increased to five to-day by the death of Elma Barton, the thirg member of his family to be claimed by the storm. His mother and baby brother were killed instantly when the tornado struck. The damage in other parts of Alabama is estimated at several million dollars.

Many Fire Prevention Violations.

One hundred and ten persons were arraigned before Magistrate Brough in the Municipal Term Court to-day on the complaint of Thomas J. Hayes, new chief of the Fire Prevention Bureau, who charged them with violation of the fire prevention laws. Fines of $25 each were imposed in most cases, and a few sentences were suspended.
