Transue & Williams Steel Forging Corporation

Guaranty Trust Company, *Transfer Agent* — The Chase National Bank, *Registrar*

After an examination of the properties and business of Transue & Williams Co., of Alliance, Ohio, and a report thereon by Julian Kennedy, an appraisal by The American Appraisal Co., and an audit by Messrs. Arthur Young & Co., an agreement has been made pursuant to which said property and business as a going concern is to be purchased and vested in a New York Corporation, to be named Transue & Williams Steel Forging Corporation with an authorized capital of 110,000 shares with no par value, of which 100,000 shares will be issued for said property and business plus $750,000 cash to be paid into the new company. The remaining authorized capital will be unissued for the present.

From the enclosed letter of Mr. O. F. Transue, Vice-President and General Manager of the old company and who is to be president of the new company, we summarize as follows:

(1) The new company has a forging capacity of 40,000 tons and stamping capacity of 4,000 tons, which represents probably the largest tonnage of drop forgings produced by a single plant in the industry. The company's plants are thoroughly modern and well equipped and have the advantage of splendid railroad and power facilities.

(2) Gross earnings have increased approximately 800% in the past six years and net earnings have increased 1,100%. Estimated net earnings for 1916, based on seven months' results, indicate earnings of at least $1,200,000 for the year, or approximately $12 per share on the stock to be outstanding.

(3) The business of this company has increased steadily regardless of fluctuations in the steel industry as a whole. For instance, during the last year of general depression in the steel industry, 1914, this company's sales actually increased 35% and net earnings increased 20%, due to the constantly increasing demand for its special products.

Based upon the cash purchase price actually to be paid for the entire property and assets of the old company as a going concern and including said additional cash working capital to be provided, the assets of the new company will be equivalent to approximately $37.50 per share, of which $16 per share or approximately $1,600,000 will be represented by net working capital.

All statements are believed to be accurate, having been obtained from official sources, but they are not guaranteed.

All legal matters pertaining to this issue are being passed upon by Messrs. Wing & Russell of New York City, Counsel for the bankers, and by Messrs. Lynch, Day, Fimple & Lynch, of Canton, Ohio, Counsel for the old company.

ACTING AS SYNDICATE MANAGERS WE HAVE AGREED TO PURCHASE 70,000 SHARES OF THE ABOVE STOCK WHEN, AS AND IF ISSUED AND HAVING SOLD AT $45.50 PER SHARE ALL OF THE STOCK SO ACQUIRED BY US THIS ADVERTISEMENT APPEARS AS A MATTER OF RECORD ONLY.
