Benjamin Franklin says:
"The use of money is all the advantage there is in having money."

One Advantage

Many banks and trust companies pay interest on their depositors' balances every six months. The *Franklin Trust Company*, however, pays interest *monthly* and the amount of interest credited is shown on the statement of deposits and withdrawals sent to every depositor at the end of each month.

Depositors thereby receive the distinct advantage of interest on their balances compounded twelve times in each year.

Accounts of $200. and upwards accepted.

Chile Proposes Central Bank

The Chilean Congress has under consideration a measure recommended by the Finance Committee of both houses for the establishment of a central bank, whose mission will be limited to the issue of gold notes at 12 pence per dollar in exchange for gold deposits, upon a plan similar to that of the Conversion Bank of Buenos Aires.

Stocks

Wall Street, March 22.

The more irregular tendencies manifested in the stock market were traceable to additional selling for profits, an increase of operations for the short account and a diminution of public interest. Dealings were again fairly broad, but individual offerings were in lighter volume, except in the more popular issues.

United States Steel held its accustomed place as leader, fluctuating, on an enormous turnover, between 115¼ and 116¾, and closing at 115¾, a net loss of ⅝ of a point. Bethlehem Steels yielded no small part of their recent gains, the old shares falling 7¼ to 141¾ and the new 6 to 134½, with 1 to almost 3 points in allied industrials.

Motors reflected constant pressure with equipments and metals, declines in these groups ranging from 1 to 3 points, with 1 to 2 for some utilities. Ohio Gas proved the striking exception in the latter division, scoring an extreme gain of 9⅞ points at 122⅞ on relatively large trading.

Rails were roused from their apathy in the latter part of the session, Canadian Pacific heading the advance at a gross gain of 5¼ to 163½, with 2 for its subsidiary "Soo," and 1 to 1½ for Reading, Norfolk & Western and a few of the Southern and Southwestern issues.

Among the miscellaneous stocks movements were more than ordinarily restricted, with few changes in prices. Distillers' Securities, however, yielding 2¼ points on the reduction of the dividend from a 6 to 2 per cent annual basis.

The bond market was featureless, with nominal dealings in the international group. Domestic issues were inclined to shade. United States coupon 4s advanced ½ per cent on call.
