DEATH BY LIGHTNING.—During the heavy thunder-storm yesterday afternoon, the house of Jacob Kesler, on Maple-street, was struck by lightning, and Mrs. Kesler immediately killed.—The electric fluid passed through the roof near the ridge-pole at the gable end, and after passing through the wall next the roof, making a hole about six inches in its descent, it struck Mrs. Kesler, who was sitting upon the stairs, upon the side of the head and face. She expired immediately. The lightning passed through the open door. The deceased left seven children.

P. S.—We have since learned that the lightning came down the stove-pipe, which went through the roof. A quantity of rags in the chamber were set on fire. The only mark by the fluid upon the body of the deceased woman is upon the side of the head, where the hair is burnt off as with a hot iron. [Roch. Dem. 9th.

A SHARK IN SHORE.—While some boys were engaged in catching clams on the flats of the bay at Absecum, in this State, on Wednesday, they espied a shark in shallow water—supposed to have been left there as the tide receded. One of the boys, as stated in a Philadelphia paper, thinking to have some sport with the creature without danger to himself, where the water was but about a foot deep, commenced pelting him with an oar. The shark made after him, when, in turning to run, the boy fell, and was seized by one of his legs, which was most horribly and dangerously mutilated, before his companions could render him assistance. They finally succeeded in beating the creature off and killing him, when they found the condition of their fellow as represented. [Newark Adv.

WHAT FOOLS POLITICIANS make of themselves in their disgraceful scrambles to secure some particular man for President! How much better would it be if they would, instead of giving up their attention to the man whom they want, look a little at the sort of medicine he would be likely to administer to the body politic. So too, in the affairs of ordinary life, how much more happiness would be enjoyed, how much money would be saved, if men would not run to the doctor or that apothecary whenever they are afflicted with coughs, colds, heart burns, cholera, dyspepsia, fevers, rheumatism, and all kindred diseases—but just go quietly to 420 Broadway, or, if it be nearer, to 125 Fulton-street, and procure Peters' Lozenges, Pills or Plasters—celebrated for the universality and the certainty of their cure.

"FACTS ARE STUBBORN THINGS"—And the most stubborn of all facts, that one takes the least and thousands follow. So it is with George Saunders' Metallic Tablet Strop, which is the original of the many spurious imitations called Metallic Tablets, now offered for sale to delude the public.

Certificates of the great use and value of the Tablet Strop may be seen at No. 183 Broadway, but that it may be more satisfactory to the public, the following are inserted from Dr. Gibbons, Dr. Valentine Mott, ass. Gen. James Tallmadge.

The undersigned have for some time made daily use of George Saunders' improved Strop, we can freely testify to its value. The side which he calls the Metallic Tablet, is as far as we know, a thing of his own introduction in this country. It appears to be an excellent, convenient substitute for a stone, and operates on the same principle as steel does upon a table knife, but with far greater smoothness and certainty. It gives the unpleasant necessity of oil and water, to assist in wetting. The other three sides of the strop are extremely well finished, flat, smooth, and almost elastic, preserving the razor from that roundness of edge which so soon destroys its keenness.

J. GRISCOM,
VALENTINE MOTT.

Saunders' Razor Strop, with its four sides, combines adamantic all the requisites to sharpen and set razors with a fine and smooth edge. It is a real comfort to possess it.

Many imitations having come of Saunders on their labels, and various initials, the public are cautioned when buying those the name G. SAUNDERS is on, the original inventor and manufacturer, 183 Broadway.

SARSAPARILLA AND TOMATO BITTERS.—We give a few of the many proofs we have received of the wonderful virtues of this most valuable compound:

Extract of a letter from Dr. Williams, of Vermont.

Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous tumor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Bentley, Esq. of Cambridge, cured of the dyspepsia of two years' standing, after trying a hundred remedies without the least effect.

Benjamin Whitney, of Lyons, cured of indigestion and dyspepsia by using two bottles.

John Wilcox, of New-Redford, cured of a dreadful humor of three years' standing, after taking all other preparations in vain. Likewise his sister has used it with the happiest results for the same purpose.

Sold by the agents, A. B. & D. Sands, Druggists, No. 79 Fulton-st, corner of Gold; and 100 Fulton-st, 273 Broadway, 77 East Broadway, N. Y.; also sold by Williams, 245 Broadway-st, Newark, N. J., and by Dr. Wood, Harlem. Price $1. jy12

CUSTOM HOUSE, New-York, June 16, 1842.

C. C. SERING, Esq.

Dear Sir—The extraordinary benefit derived by me from the use of your "Restorative Cordial," impels me to make the following statement, not only in an act of duty in regard to suffering humanity, but as one of justice toward you, its proprietor.

For for years I was most seriously afflicted with Dyspepsia and its various complications, so much so, indeed, that I was rendered most miserable by a few days in the week. I suffered most from disordered digestion and a painful affection of the bowels, connected with the most troublesome and intolerable costiveness, the particulars of which I would be silent place here in specially. Suffice it to say, that the last bottle of your Restorative Cordial, taken some six months ago, afforded me immediate relief, and that having continued it from time to time, I am now happy to add, that the cure has been complete and permanent. Believing that many persons may be similarly afflicted with the various forms of Dyspepsia, I am induced to make this public acknowledgement for the general good.

Respectfully, yours, &c.

☞ **Tenth Ward.** At a meeting of the Democratic Whig committee of the Tenth Ward, held at Columbian Hall, on Friday Evening, July 8, 1842—

The following Preamble and Resolutions being read, the Ayes and Noes were called on their adoption, when the same were then unanimously passed:

Whereas, an attempt has been made in the Tenth Ward, by a pretended patriot Whig meeting, but in really a meeting of Custom House Officers and a few of their relatives, made up partly in number, to create an impression abroad that John Tyler has a large party of friends in this section of the city, and that his course as Chief Magistrate of the Union was approved by them; and

Whereas, at said pretended Whig meeting resolutions were passed condemning the Whig majority in Congress, for neglecting the interests of the country, which are, by our opponents, they say and attempt to make upon us responsible, for every proceeding with the veto of Congress—therefore,

Resolved, That, in the name of the Democratic Whigs of the Tenth Ward, we condemn and repudiate alike the praise of John Tyler and the censure of the Whig majority in Congress; that we believe Mr. Tyler has not three sincere friends in the Tenth Ward, apart from office-holders, and that our attempt to arrest a party in his favor in this Ward will be so modest as the Executive to be a disgrace to those who are willing to figure as the tools of a President who has betrayed the best interests of a country which trusted in his promises and professions.

Resolved, That, in our opinion, it is the duty of the President of the United States, placed in office for the benefit of the People, to sign all bills passed by their immediate Representatives in Congress, that do not plainly conflict with the provisions of the Constitution; and that the conduct of John Tyler in vetoing bills passed by large majorities of both Houses, for no such reason, is unprecedented, contrary to the genius of our institutions, and calculated, if persisted in, to destroy that balance of power in the different departments of our Government, without which it cannot exist.

Resolved, That we look on the law for distributing the proceeds of the sales of the Public Lands, as one that was called for by the voice of the whole country, as just and proper in itself; and that, in our opinion, nothing should be allowed to divert a trust derived from our Revolutionary sires for the benefit of all their posterity, except to defend our country from foreign invasion.

Resolved, That the above Preamble and Resolutions be signed and published in the Courier & Enquirer, Tribune, New-York American, and the True Whig, at Washington.

The bill of J. Heath, for carriage hire, $2 50; and the bill of A. Scur and Livingston, for $31 74, for repairing Battery dag, were referred.

Adjourned to Monday next, 5 o'clock.

BOARD OF SUPERVISORS.—The Mayor in the Chair.—All the members present, being, with the Mayor, Recorder, and members of the Board of Aldermen, 13.

There being no Committees for the ensuing year, it was ordered, on motion, that the Mayor appoint such, agreeably to the standing regulation, and report at the next meeting.

The Coroner's bill, several from the Comptroller, and some in the hands of Alderman Leonard, (who had not been enabled to have the Committee act upon them,) were handed to the Chairman to be referred, when appointed, to the appropriate Committees.

A bill of Assistant Alderman Nesbit, for cutting two seals, amounting to $55, and of Mr. Callendar, clerk police, for $33 15, were ordered to be paid.

The bill of M. M. Noah, amounting to $2,000, for salary as a Judge of the Court of Sessions, and of James Lynch, for the same, and costs, amounting to $4,26 41, were referred, agreeably to a resolution presented by the Recorder, with directions that measures be taken to have them placed in a train of payment.

The resignation of Fitz Green Halleck, as Deputy Superintendent of Common Schools, and the temporary appointment of Mr. Charles Stuart by the Clerk, as such, was announced by the Mayor.

On motion of the Recorder, the Board went into the election of a Deputy Superintendent.

Alderman Leonard nominated Mr. Seaton. Alderman Balls nominated Wm. L. Stone, and the Mayor named Mr. Stuart. The latter was second d by Alderman Purdy.

A ballot was taken, when Mr. W. L. Stone had 11 votes, Mr. Seaton 4, and Mr. Stuart 4, so that Mr. Stone was elected.

Alderman Balls called a resolution, declaring that John F. Truesdell, Thomas K. Rollinger, and William P. Morse, had been removed from the office of Collectors of arrears of taxes, and directing the Comptroller to give public notice prohibiting persons from paying money to them in that capacity.

Doubts were expressed as to the power of the Board to do this. Alderman Balls said they had determined to retain the collecting for legal, to which they had no right. Alderman Crolius said his father had been removed to make way for Mr. Stevenson, and compelled to resign fees for collection to which he had been engaged two months. Resolution adopted, 11 to 3.

Several of the Supervisors handed in their lists of Grand Jurors. The Aldermen of the 5th and 6th were not quite ready.

APPOINTMENT OF A CHAIRMAN.—Alderman Balls observed that the statute provides that a chairman shall be elected at the first meeting of the Board. It has been heretofore omitted. I move that we go into the appointment.

The Chairman remarked that the custom had been for the Mayor, or in his absence, the Recorder, to act as Chairman. It grew out of usage, however, and not from statute.

Alderman Purdy nominated Robert H. Morris. Alderman Balls nominated Frederick A. Tallmadge. Messrs. Underwood and Lee were appointed tellers. On the first ballot, Frederick A. Tallmadge had 7, Robert H. Morris 6, C. Rale 3, and blank 1.

Requiring 10 to make an election, a second ballot was ordered. The Recorder declined being a candidate, the duties of his office rendering the situation inconvenient. On the second ballot, Robert H. Morris had 7, Calvin Balls 9, F. A. Tallmadge 1, and blank 1. On a third ballot Robert H. Morris had 7, Calvin Balls 11, and blank 1. Alderman Balls was declared to be elected. The Mayor then called him to the Chair. A motion was made to adjourn to Thursday afternoon next, at 4 o'clock: carried.

COURT OF SESSIONS.—Before the Recorder, Judges Lynch and Noah, and Alderman Leonard.

TRIAL FOR ASSAULT AND BATTERY.—John Mitchell was tried for an assault and battery on Dennis Driscoll, of No. 110 Roosevelt street, on the 23d May last. The jury found him not guilty.

PLEA OF GUILTY.—Catharine Riley, indicted for grand larceny, in stealing clothing and jewelry, worth $30 75, from William B. Dougherty, No. 1 Second street, a small portion of which only was found in her possession, withdrew her plea of not guilty and pleaded guilty to a petit larceny.—Plea recorded, and she sentenced to the city prison for 20 days.

TRIAL FOR BURGLARY.—John Taylor was tried for a burglary in the 3d degree, in attempting to break into the distillery of Charles Seymour, No. 175 West 13th street, on the night of the 6th or morning of the 7th May last. The prisoner was found at 1 o'clock in the morning with his head and shoulders in the window, which he had forced open, and was struck with a club and knocked out, but got up and fled, leaving his hat and boots. He was subsequently arrested. The jury found him guilty, and the court sentenced him to the State prison for 3 years.

The Court adjourned to 11 o'clock on Tuesday morning.

POLICE OFFICE Monday, July 11th.—THEFT OF MEAT.—A man named Adam Cling, in company with another named Haight, on the 29th April last, stole a side of beef, &c. worth $27 37, from the premises of Thomas F. Day, No. 64 Suffolk street. Today Cling was arrested and committed to answer at the upper police office.

ROBBING A FELLOW-BOARDER.—A man named John Maher was arrested by officers Webb and Hathwaite, charged with stealing $38 in gold and $250 in bank bills from James Henry, a boarder at Duffy's, No. 44 Washington-street, where Maher also boarded. Some of the gold was found on his person, and the principal part of the bills at the boarding-house of the wife of the accused in Ridge-street. He was committed.

There is no improvement in demand for Foreign Exchange. Sterling 7 a 7½; France 5 40 a 5 37½.

Mobile funds are rather easier, but there is little or no demand for any description of funds.

There is a rumor that some arrangement is about to be made, by which Lewis County Bank notes will be appreciated.

The Ohio Life Insurance and Trust Company have declared a dividend of three and a half per cent, payable at their agency in this city on the 1st August.

The Seaman's Bank for Savings has declared a seventy-second dividend at the rate of six per cent per annum, payable on demand.

Counterfeit $5 notes of the Greenwich Bank are in circulation at Newark, N. J. and Troy, N. Y. The engraving is bad, but the general appearance of the note, it is said, is calculated to deceive. Those described were of letter H, various numbers, and dated June, 1841.

The following remarks in relation to our Safety Fund Banks are from Thompson's Reporter:

"Many of our best Safety Fund Banks have it in contemplation to surrender their charters and reorganize under the Free Banking law. There is now but one privilege enjoyed by a Safety Fund over a Free Bank, which is that of issuing notes without depositing securities, and for this privilege alone a tax of half per cent per annum on the nominal capital, according to the present laws, for at least ten years to come, must be paid.

"There is in this city rising of $12,000,000 of Safety Fund banking capital. The annual tax of half per cent on this is $60,000. The average circulation of these (the Safety Fund Banks of this city) is about $1,200,000. Now suppose the tax to be changed from 'capital' to 'circulation,' and we find it to be five per cent. Our Banks, then, and in all probability will continue to hold, upon New-York stock this is necessary to obtain this amount of circulating notes, and we doubt whether, for years to come, they can find better investments. Why then does a sound, prudent Bank consent to contribute, year after year, without an equivalent?

"The North River Bank, which is the pioneer in this important move, is in successful operation, and its stock is on the rise. There is no perceptible change in the management or business of the Bank. Depositors continue their confidence. Their discount line is as full as usual; and in fact, without examining the nice or the expense account, one would not know whether they were Safety Fund or Free. We predict that the Free Banking law will yet be the favorite, and that the Safety Fund will explode."

The Sales at the Philadelphia Stock Board were again very light on Saturday.

In the Pennsylvania House, the bill supplementary to the act of the regular session providing for the ordinary expenses of Government, and for a loan of 7 per cent to pay interest falling due in August next, was discussed. The rate of interest of the loan was fixed at 6 per cent instead of 7. An amendment to the bill authorizing the Governor to sell at public sale $1,000,000 worth of Corporation Stocks belonging to the Commonwealth was offered. It was moved to amend by providing that the Governor shall receive at par in payment of stocks so sold by him, any certificates of State Loan, for the payment of the interest upon which, the stocks so sold have been specifically appropriated. Both amendments were rejected. In the lack of small notes, some of the merchants of Wilkesbarre have issued small checks. The Attorney General has taken the matter in hand. The Philadelphia Bank is paying the interest on certificate Treasury Notes.

The charter of the Farmers' Bank of Reading has been extended.

A public meeting was held at the St. Louis Exchange on the 27th ult., and a resolution adopted directing the appointment of a Committee of Fifteen to call upon the Bank of Missouri, and the different Companies and private bankers of the city, upon the subject of bringing their currency to a specie standard, and to ascertain what steps the bankers deem suitable to effect that object.

Its politics will be of the old Republican school, and it will support the measures of the General Administration, and address itself to the moderate and patriotic men of all parties—striving by every constitutional means, and at an alarming crisis of public affairs, to urge the adoption of salutary laws and promote the prosperity and tranquillity of the country. A more detailed view of the whole plan and principles of the paper will appear in the first number.

THE UNION will be published exclusively on the cash system, and delivered to subscribers and others at the low price of two cents a number, or a shilling weekly. A large paper will be printed weekly at two dollars per annum, always in advance. As a very three edition of the first num. her will be issued, advertisers will please apply in time for insertion, and those who for many years have sent their annual and other advertisements to my paper, are invited to renew their favors in the new journal.

Editors currently exchanging will please transmit their papers forthwith. Apply at the office, No. 142 Fulton-st., next to the Sun office. M. M. NOAH.
