THE LA PUSH WELL

Is now down

Two Hundred Feet

Mr. Fred Price, who has just returned from a tour of inspection, says indications are far beyond his expectations. He has some fine samples which he brought back with him, and they may be seen at the office of the Company in the Union block. Owing to bad formation the cost of drilling has gone far beyond what we thought it would, and in consequence the promoters of this company have placed 40,000 more shares on sale, which they offer at 10c per share; and they would ask all who are interested in oil to call at their office and talk the matter over with them.

We have a good thing, and can convince you of the fact. If you cannot call, please write to

La Push Oil Company,

FRED. PRICE, secretary,

FIRST OF NEW IMMIGRATION

INQUIRIES FOR HOME SITES INCREASING IN NUMBERS —
 THEIR UNANIMOUS OPINION OF THE MOST DESIRABLE RESIDENCE DISTRICT.

The first wave of the year's heavy immigration has reached Seattle.

We have calls every day from new arrivals who are looking for business locations and home sites.

They examine the city from end to end, but invariably gravitate to Capitol Hill as the most desirable district for residence purposes from every standpoint.

The verdict of overwhelming numbers is a test of value that cannot be shaken.

There is no time for delay in selecting choice sites on Capitol Hill.

The lot you have your head set on today may be sold to another by tomorrow.

Grouchy was just fifteen minutes too late at Waterloo.

Capitol Hill is twelve minutes from the business center by three electric car lines.
