THE TRIBUNE.

THE MISSISSIPPI.—The St. Louis Reporter of the 20th says:

"The river rose yesterday from 6 to 8 inches, and is now higher than it has been before since 1826.—Notwithstanding the American Bottom is mostly overflowed, and the water spread over an immense surface, it is supposed that the river will rise here at least 12 inches higher. The Illinois River is unusually high, and is rising rapidly. So it is with the Osage and Missouri Rivers. The Mississippi above the falls is at a stand, but below the falls is still rising. The bottom lands on the Mississippi above and on the Osage, Missouri, and Illinois Rivers are covered with water. Below this City the low banks near the river are also overflowed. At Cape Girardeau the water has already reached the second floor of many of the buildings, and the low land between St. Genevieve and the landing is submerged.

"The water on the levee has already reached the stores above Laurel-street, and the curb stones near ly the whole length of the wharf. What the effect on our harbor may be, it is impossible to ascertain; but the high state of the water in the Mississippi as well as Missouri may prevent any dangerous abrasion of the Illinois shore opposite the mouth of the Missouri; and by some it is supposed that the channel will be diverted into the Missouri shore, and that the freshet may be beneficial to St. Louis.

"The lower Mississippi, it is feared, will suffer greatly from this unexpected rise.

"The rain continued to fall yesterday, but when our paper went to press there was some appearance of fair weather."

☞ As the fact will unquestionably get abroad from other sources, we may state, for the information of his political friends, that the Van Buren elector for this district is at present the tenant of a room in the insane department of the St. Louis Hospital. He was placed there, yesterday, by order of Judge Krum, of the Circuit Court, at the instance of his friends, and after hearing testimony in the case. His place on the electoral ticket, and as delegate to the Locofoco National Convention, to be held at Baltimore on the 27th inst., will, we suppose, be regarded as vacant, and other appointments made by the proper authority.

[St. Louis Repub. of 17th.

☞ We think Judge Krum did wrong. No more appropriate place for his patient could have been hit upon than the convention to which he was elected.

TO MAKE WATER COLD FOR SUMMER.—The following is a simple mode of rendering water almost as cold as ice: Let the jar, pitcher or vessel used for water be surrounded with one or more folds of coarse cotton, to be constantly wet. The evaporation of the water will carry off the heat from the inside and reduce it to a freezing point. In India and other tropical regions where ice cannot be produced, this is common. Let every mechanic or laborer have at his place of employment two pitchers thus provided, and with lids or covers—the one to contain water for drinking, the other for evaporation—and he can always have a supply of cold water in warm weather. Any person can test this by dipping a finger in water, and holding it in the air of a warm day; after doing this three or four times, he will find his finger uncomfortably cold.

OVERFLOW IN ARKANSAS.—The Little Rock Gazette, of the 15th inst. observes that the late freshets in Red, Washita, Lafine, Arkansas and White Rivers, have done immense damage to property along their whole extent. Along the Arkansas River, the damage done to the crops, and the loss of stock, &c. must amount to from eighty a hundred thousand dollars. The high water came when the cotton was just up, and continued until a period too late succe-sfully to plant. The Gazette considers the calamity of sufficient magnitude to call for legislative attention, and invites the planters and farmers to make up estimates of the losses in the growing crop, stock, &c.

ANOTHER BURGLARY.—The dry good store of William A. Morgan & Co. No. 111 Fulton street, in this city, was entered last night by taking out a pannel from the rear window, and raising the bolt.—Goods to the amount of about $300 were taken.

[Brooklyn Star.

CANADA.—The Provincial Parliament is convoked to meet in Montreal on the 24th June next, "there to take into consideration the state and welfare of our said Province of Canada, and therein to do as may seem necessary."

SAD ACCIDENT.—Last evening, about 7 o'clock, Mrs. Dennis Carrington and another lady with two children, were riding in a small one horse carriage, when they were thrown out, the thigh of the little daughter broken, and the mother somewhat bruised.

[New-Haven Cour.

☞ On Saturday, a Mr. Rufus Fay, of Hollister, Mass. was killed by a pair of oxen whom he attempted to stop.

To Mariners.

Information has been received from our Consul at Naples, that the Military Mole, in that harbor, has been prolonged so far that its foundations cross the direct line which vessels have been in the habit of taking from the great entrance (*Secca grande*) of Capri, to the Light House in the Mole; and they should be careful to avoid the new obstacle thus created.

SANDS'S SARSAPARILLA,

FOR THE REMOVAL AND PERMANENT CURE OF OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

This medicine is constantly performing almost incredible cures of diseases arising from impurities of the blood and general system. It has arrested and cured numerous cases of scrofulous affections, diseases of the skin, rheumatic gout, diseased liver, painful enlargement of the knee, elbow, and wrist joints, Chronic rheumatism, sore throat, chrome constitutional disorders, and various other disorders arising from impure secretions. In this preparation are strongly concentrated all the valuable medicinal properties of Sarsaparilla, on which its activity depends, compounded with other remedial agents, selected from the vegetable kingdom, the whole strength of which is extracted on an entirely new principle, which has cost many years of labor and much expense. The great object desired is now truly plainly accomplished, in the production of a remedy possessing a controlling power over supposed incurable diseases, heretofore unknown in the history of medicine.

The testimony of those who have been cured by its use with their residence, has been published, from time to time, and were it desirable more of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value, as an active and curative medicine in the above diseases. The afflicted, or those who may have given up in despair, and all who are interested, are invited to make a trial of this valuable medicine, or to call on those who have come forward and bome public testimony of its priceless value to them, and satisfy themselves individually of its power in arresting and curing disease, and of what it has performed for others.

The following cure of an inveterate case of *Scrofula* is submitted to the careful consideration of the afflicted:

PAWTUCKET, May 25th, 1842.

MESSRS. SANDS—Gentlemen: Having been relieved and cured of one of the most distressing maladies to which the human system is subject, by the use of your Sarsaparilla, I feel it my duty to make known to the public the facts attending my case, and the inestimable benefit I have derived from the use of your medicine.

In the Summer of 1838, when an infant, I had a swelling under my right arm, which gathered, broke, and proved to be of a Scrofulous kind. A few days after which I lanced, and immediately applied to a physician, who received but little benefit. I was induced to apply to several of the most skilful physicians the place afforded, and to make use of various specifics, notwithstanding however I continued to grow worse, until my right shoulder, side, breast, neck, and stomach, became one extending sore, which discharged matter in large quantities, and my life appeared to be fast wasting away. So much so much impaired that at times I was not able to go out of doors. I was a mere emaciated skeleton. Every one supposed I could live but a short time, and I had myself despaired of ever obtaining relief. In November last I accidentally saw your Sarsaparilla advertised in one of the newspapers, which induced me to make one more trial, hoping against hope, that it might be the means of my cure. It has done more good, than all the medicines I have ever taken. By the use of one or two bottles I was relieved from all pain, my health began to amend and I now feel perfectly well; I can use my right arm which I was unable to do for nearly five years, and I attribute the result entirely to a few bottles of your inimitable Sarsaparilla. I now feel confident that if others will similarly affected, that they may procure the right medicine and thereby save themselves suffering and expense. Those wishing to know further particulars may find me at my residence in Mill street, Pawtucket, where I shall be pleased to communicate anything in relation to my case.

I am, with gratitude, yours, &c.
CALVIN HARDING.

BRISTOL, ss., May 25th, 1842.

The above named Calvin Harding personally appeared before me and made oath to the truth of the foregoing certificate by him subscribed. COLLINS DARLING, Justice.

I hereby certify that the above is a correct statement of the case of Calvin Harding, and the wonderful effect of your sarsaparilla. I have frequently seen his sores dressed and know ing to the medicine he made use of.

THEOPHILUS CROWELL.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained gratis.

PAPER MILL FOR SALE.—Will be sold at public auction, without reserve to the highest bidder, on Wednesday, the twelth day of June next, at 2 o'clock P. M. on the premises, an extensive paper manufactory, three coal dwelling houses, barn, and about thirty acres of land. The buildings were erected a few years since by the Westfield Paper Mills Co., and have been always used and occupied for paper manufacturing purposes, and are now offered for sale in settlement of the estate of the late Moses Ely, deceased.

The situation is most advantageous, being within about two miles from the flourishing village of Westfield, two miles from the Hampden and New Haven canal, and two miles from the Western Railroad, which secures access to both Boston and New York at all seasons of the year. The mill has four engines, and the machinery is of modern style. The terms will be liberal, but will be particularly announced at the time of sale.

For further particulars, enquire of ALFRED FOST, Newburgh, N. Y., or EUGENE ELY, 71 Fulton street, New York, Executors of Moses Ely, deceased, or of Hon. P. ROUSE, or N. T. LEONARD, Esq. Westfield, Mass.; or CYRUS W. FIELD, No. 9 Burling-slip, New-York.
