COURT CALENDAR.—This Day.
CIRCUIT COURT.—Nos. 1 to 20, inclusive.
COMMON PLEAS.—Nos. 67, 36, 76, 47, 6, 52, 8, 2, 5, 17, 32, 44, 46, 50, 53, 22.

CITY INTELLIGENCE.

SATURDAY.

SHERIFF'S JURY.

WILLIAM L. STONE vs. LEVI D. SLAMM.—CHARGE OF LIBEL.—Plaintiff, who is Superintendent of Common Schools in this city, brings action of Libel against defendant, (Editor of the Plebeian,) laying his damages at $10,000. The articles were contained in the Plebeian of the 8th and 13th of April, 1843, and were in substance as follows: "Col. Stone, Editor of the Commercial Advertiser, is Superintendent of the Public Schools. Every school-book is placed under his surveillance, and whatever work of merit may be presented to him, let it be written by a Democrat or recommended by one—let it contain but one fact or sentiment calculated to awaken in the minds of the children a love of their country, and the despotic *imprimatur* would reject it."

The libel was proved by Mr. Tappan, Librarian of the Society Library.

Mr. L. B. Shepard, counsel of the defendant, contended that the article was not a libel, but a portion of mere newspaper controversy, &c.

Mr. H. Ketchum, counsel for Col. Stone, contended that the article had the effect of impairing confidence in Col. Stone as a Superintendent of Schools—that Mr. Slamm had been called upon to retract, but refused to do so. Verdict for plaintiff—$1,200.

SUPERIOR COURT....Before Judge OAKLEY.

WILSON, Public Administrator, vs. BEACH.—Action to contest a Bill of Sale given to defendant by the late Dr. Ward, already referred to. The Court charged that a debtor, if he chose to do so, was at liberty to prefer certain creditors. The question in this case was, whether the forniture, having been left in the hands of the widow of Dr. Ward to carry on her boarding house, showed the transaction to have been for her benefit, or to pay the debt of defendant. The Jury could not agree, and were discharged.

Before Judge VANDERPOEL.

VAN WINKLE vs. CONSTANTINE.—Action of ejectment to recover possession of property in Fulton-street, opposite St. Paul's Church-Yard, already referred to. The cause was first tried in this Court thirteen years ago, and gives in favor of plaintiff, which was confirmed by the Supreme Court, but sent back by the Court of Errors. The case rested almost entirely on the fact whether 'the mark' of Jane Van Winkle to a deed had been made by her or not. The Jury found for defendant.

COURT OF COMMON PLEAS.....Before Judges ULSHOEFFER, INGRAHAM and DALY.

DECISIONS.

G. GHADWOOD vs. FRANCIS E. BERGER, Administrator, &c.—If defendant remit, without prejudice, the balance reported in his favor, the report to stand; otherwise, set aside.

GEORGE P. BERTRAND vs. M. CAFFEE.—Verdict confirmed, with costs.

THOMAS RYAN vs. ELISHA S. MOTT.—Verdict confirmed, with costs.

BENJAMIN R. SMITH vs. FREDERICK LIESA.—Verdict confirmed, with costs.

POLICE OFFICE.

THEFT OF MONEY.—Edward Hodge, a colored man, was arrested for stealing $22 in money from the drawer of the store of William B. Berran, corner of First Avenue and First street, of which $14 were found in his possession; the residue he threw away. He was committed to answer.

STEALING FROM A CHURCH.—A man James Carr was arrested and committed for stealing a mason's hammer, worth $2, from the new Grace Church, corner of Tenth-street and Broadway—property of George Walker, No. 38 Hester street.

UPPER POLICE.

ARREST FOR BURGLARY.—Last night, Henry Dawson, a seaman, was caught in the cabin of the ship Grafton, lying at the Screw Dock, into which he had broken with intent to steal. He was committed.

STEALING PANTALOONS.—Thomas Garley, John Quinn and Samuel Jackson were arrested and imprisoned for stealing a pair of cloth pantaloons from a store in the Bowery.

CHARGED WITH POCKET-PICKING.—George Potter and Charles Hubbard were arrested last night by Officer Burk and Connolly, charged with having picked the pocket of Major General Winfield Scott of $139, while coming down the river in the steamer Troy. They were committed for examination. Two others were arrested also, on whom $96 in bills and $80 in gold was found; but as it was different money from that which the General had lost, they were discharged.

ROBBING A DRAWER.—George Wilson, a boy, was arrested and committed for stealing $5 from the money-drawer of Nicholas P. Lasson, of the Masonic Hall.

THEFT BY A NURSE.—Mary Ann Hauptman was arrested by Officer Rutherford, charged with stealing ear-rings, worked collars, &c. worth $10, from the house of Michael R. Cadmus, in Washington street, part of which were found in her trunk. She was committed.

CORONER'S OFFICE.

FOUND DROWNED.—The Coroner held an inquest on the body of an unknown man, supposed to be that of a sailor, who was found floating in the North River and towed in at pier No. 1. Verdict, found drowned.

SUNDAY.

POLICE OFFICE.

A NOTORIOUS BURGLAR.—Officer W. H. Stephens, of this city, this morning arrested a person named Samuel Wade, who has lately committed several burglaries in Philadelphia, &c. He will be sent back for trial, having fled from the theatre of his depredations.

BURGLARY.—The store No. 139 Chatham-street was burglariously entered last night and much property stolen. It consisted of gold and silver leaf and camel's hair brushes.—The burglars got off with their plunder.

ANOTHER.—A man named William Smith was arrested last night for breaking into the house of Henry Ferris, No. 40 Orange-street. He was found in the upper part of the premises and committed to answer.

John Henry, a colored man, was arrested and committed for stealing about $4 from Henry Lewis, No. 23 Orange-street.

William Dougherty stole a stove, and was committed for the offence.

CORONER'S OFFICE.

SUICIDE BY TAKING LAUDANUM.—A dissipated colored female named Betsey Chapman aged 27, and who resided at No. 15 Orange-street, committed suicide by taking laudanum. Verdict in accordance.

OLNEY'S SCHOOL GEOGRAPHY AND ATLAS.—Messrs. Pratt, Woodford & Co. of this City have just published a new and greatly improved edition of this very popular work. The following notice of the publishers will best explain the nature and extent of the improvements contained in this edition:

OLNEY'S PRACTICAL SYSTEM OF MODERN GEOGRAPHY, or a View of the Present State of the World, simplified and adapted to the capacity of youth. Embellished with numerous engravings of manners, customs, &c. Revised edition, accompanied by an entire new and elegant Atlas.

Although averse to the practice of altering school books, and thereby creating confusion in classes, the author of this work has been induced by the possession of recent, full and authentic materials, containing more definite and correct information than could before be obtained, to revise the Geography according to the present state of the science. If any errors have escaped notice, they will be corrected in future editions.

The plan of the book has not been changed, the author never having had any intimation that change was desirable. Teachers therefore who have been in the habit of using it, will still find it familiar. It is believed that the Atlas will be found superior to any other. It is engraved in the best style, and all the endeavors which experience and care could exert, have been used to make it accurate and clear. The object being to teach Geography to young persons, care has been used to exhibit the various portions of the world in the plainest manner, and so as to lead the pupil on with as few obstructions as possible. The Atlas contains some new features, among which are a more convenient arrangement of the United States, and a set of characters indicating Government, Religion, State of Society, &c. differing somewhat from the charts heretofore used. It is impossible to devise any emblems absolutely significant which can be used on so small a scale; but those employed will be easily remembered, and will fix the idea intended to be conveyed. The sale of nearly a million copies of Olney's Geography and Atlas, in the face of the most strenuous competition, may be said to have established its reputation as a work of real merit. If the publishers can rely upon the perfectly credible testimony which they receive, it has no equal in the *school-room;* and the practice of exchanging new copies of other works for old copies of this, has enabled many teachers to establish the fact. It now comes before the public with new claims upon its favor, and all persons interested in education are invited to examine it.

☞ Lieut. ROBERTS, the Mail Agent attached to the steamer Acacia, died yesterday at the Massachusetts General Hospital, having never recovered from the paralysis which struck him before the Acadia arrived at Halifax. He will be buried to-morrow afternoon from the Hospital at half past five o'clock. [Boston Adv. 28th.

THE WHIG DOCUMENTS.

The following is a list of the Whig Documents now for sale at the Tribune Office. Orders from Clay Clubs, Whig Committees, Booksellers, Merchants and individuals, accompanied by the cash, are promptly attended to, and the Documents shipped to any port of the United States.

SARGENT'S LIFE OF CLAY—The fullest and most complete Biography of Mr. Clay ever written. Price 12½ cents or per 100 ..... $8 00
LIFE AND SPEECHES OF HENRY CLAY. 2 vols. with Engravings; bound $1 25; by the quantities... 95

Commercial and Money Matters.

☞ *For Commercial and Money Matters see Last Page.*

SATURDAY P. M.

The Stock market was better at First Board, but prices were rather drooping at the Second Board. Good stocks are very firm.

The Exchange market closed quietly at 9 a 9¼ for Sterling, 5 25½ for Francs. The supply of bills was larger than the demand.

The Phenix Bank has this day declared a dividend of 3 per cent. for the last six months, payable on the 8th of July.

The Farmers and Planters' Bk. Baltimore, has declared a half yearly dividend of 3 per cent.; the Merchants' Bank a half yearly dividend of 3 per cent.; the Western Bank a dividend of 2½ per cent. for the last six months; the Union Bank of Maryland a half yearly dividend of 2½ per cent.; the Bank of the Metropolis at Washington a half-yearly dividend of 3½ per cent.

We copied, a short time since, from Thompson's Reporter, a statement that the notes of the Central Bank of Hallowell were coming here from the West in packages, and intimating that the public should be careful of these notes. We have received a letter from the Cashier saying:

"The Tribune of Saturday, 22d inst. has copied into it a base and groundless attack upon the Central Bank, of which I am Cashier. * * * For several years this Bank has issued a loan of $10,000 in the autumn to be paid in the spring, to one of the best firms in Illinois—one of the firm being a stockholder in this Bank. These bills do not come in in large packages, but as they are put out during the whole winter in the purchase of produce, they would naturally come on in small parcels. This has been our experience for several years past, and this year is not an exception. * * * It may be superfluous for me to say that the Bank is perfectly sound, the stockholders men of large property and strict integrity, and the bills are redeemed at Suffolk Bank."

In reply to this we have only to say that the bill did come here in packages; and as to the soundness, &c. of the Bank, we give the opinion of the Bank Commissioners of Maine, expressed in their last Report:

"It remains to speak of the Central Bank, at Hallowell. This Bank has fallen under the animadversion of the Bank Commissioners almost every year of its existence, yet with no evidence of improvement. The directors do not hold regular meetings, although such meetings are recorded and from time to time signed by a majority of the Board. The Cashier's bond has not been renewed according to law. A very large majority of the loan is over due, and on notes thus lying over, more than six per cent. is taken by agreement, for delaying collection. The Cashier seems to constitute the sole board of control in the institution."

The receipts over the Western Railroad for the first 25 weeks of this year are..... $275,215
Last year, same time..... 213,103
Excess in favor of 1844..... $62,116

The following are the sales of Stocks at Boston, Saturday: 220 shares East Boston Co. 10⅝; 150 do 10½; 100 do 90ds, 10; 6 Western Railroad 72½; 30 do. 1w, 73; 25 Reading Railroad 24½; 160 do 24¾; 200 do 24¾; 100 Long Island Railroad, b 3m, 80.

The receipts of the Chesapeake and Delaware Canal for the year ending on the 1st inst. were $38,013 90, being an excess of $21,965 45 over the receipts of the year previous. The number of passengers who have passed through the canal was 6,413, being an excess of 2,440 over the last year. The principal increase in the tolls is stated to have been derived from the Port Deposite, Havre de Grace, Baltimore and Norfolk trade. The "Randel and preferred debt" has been reduced the past year $40,424, leaving outstanding of said debt $122,658 16, toward the final redemption of which the Company has invested as a sinking fund $20,689 93. The supplement to the charter of the Company, passed by the Legislature of Maryland, was not accepted by the stockholders. The Attorney General of Delaware has informed the Company that they have no right to carry passengers, either free or for pay, but the President expressed an intention to continue to carry them until the question is legally tested.

At Baltimore, bills on London 9¼ per cent. prem; on Bremen 78½ a 78¾ cents per rix dollar; on Amsterdam 39¾ a 40 cents per guilder; on Hamburg 35½ a 35¾ cents per marc banco; and on Paris at 5 25. Coupons of Maryland State bonds are selling at the following rates by the Brokers, viz: those of 1841 at 90 cents, those of 1842 at 75 cents, and those of 1843 and 1844 at 81 cents.

At New-Orleans, the supply of Exchange has exceeded the demand, and a decline of ¼ a ½ per cent. was experienced, with difficulty of placing bills. Sterling 8½ a 9 per cent, prem; France 5 27½ a 5 22½. On New York and Boston the demand is light, and it is difficult to place 60 days even at 2% disc. Short sight sells with still more difficulty at difference of interest. Dealers are checking at ½ a ¾ prem. and are complaining of want of demand. No change to note in U. S. Treasury Notes. Texas is fluctuating according to the advices received from day to day from Washington. No change during the week in Citizens', Consolidated, Commercial, Atchafalaya or Orleans; Improvement is a little better. Exchange improved in the beginning of the week but is now dull.

Markets....*Carefully reported for The Tribune.*

SATURDAY, June 29.

ASHES.—There is a fair demand for Pots at 4 06¼, with sales of about 200 bbls. Pearls are steady; sales 100 barrels at 4 50. The receipts since the opening of navigation have been about 42,000 bbls; exports from 1st to 25th June 7337 bbls Pots, 429 bbls Pearls.

COTTON.—The market is very inactive, and we hear of less than 500 bales sold to-day, mostly by spinners. The fact that to-day was closing day for the steamer may have been one cause of the quietness of the market. There is left at the wharves 2,800 bales, of which 1,100 bales are ordinary to middling 7¾ a 8¾ cents, middling fair to fair 7¾ a 7⅞, good fair to fine 8¼ a 9½ and Mobile and New Orleans, inferior 5 a 5½, ordinary to middling 5½ a 7, and middling fair to fair 7⅛ a 8½. Exports from 1st to 25th June 22,028 bales; imports from 1st inst 18,000 bales.

FLOUR AND MEAL.—The market is quiet, and Western, excepting Genesee, has a downward tendency. The receipts of Genesee were very small, and holders were steady at 4 37½. Michigan and Ohio sold at 4 18¾ a 4 25. Buyers generally held off to-day, waiting for the July brand. In Southern we heard of nothing doing of importance; we quote 4 50 a 4 75. Rye Flour is dull at 3 25 a 3 37½ for Pennsylvania, Jersey Meal 2 50; Brandywine 2 62½, sales 50 bbls at 412.

GRAIN.—We heard of nothing more doing in Wheat. The new Wheat sold a few days since is said to have been the earliest arrival for many years past. The first last year was July 8, and sold at 117 a 122; July 11 at 122; July 15, at 115; 18th, July 12, at 107; 18th, July 11, at 137½; 1838, August 1, at 110; and 1837, July 19, at 175. There was little or no sound Southern Corn in market. A small lot of Northern sold at 49c, and yesterday 3000 to 4000 bushels Virginia and Delaware at about 48c, measure. A sale of 2500 bushels located New-Orleans was made at 40c, delivered. Rye is dull, and 1000 bushels sold at 60c, delivered. Oats are quiet at 28 a 28c. Some South ern sold at 25½c.

HAY.—The supply is fair, and 200 to 300 bales sold at 33 a 34c, and 100 bales for city use at 40c.

PROVISIONS.—Pork has lost all its buoyancy, and the market cannot be quoted over 6 62½ and 8 62½. We heard of no sales of importance. Of thin Mess 60 bbls sold at $8. We note sales 100 tcs pickled Hams at 3¾c, and 70,000 lbs Bulk at 2¾c for shoulders and 3c for Hams and Sides. There is less new Butter arriving, but Western dairy is still dull at 8 a 10, and Orange County 12½ a 14 cents. Grease Butter is very scarce. New Cheese is more plenty, and quite inactive; we quote 5 a 5½—principal sales 5 a 5¼, cash. Export from 1st to 25th June: Beef 4316 bbls; Pork 10,563 bbls; Lard 16,343 kegs.

RICE.—The market was quiet to-day. The firmness of holders under reduced stock prevents operations. The quotations are, common 2 87½, fair 3⅞, good 3 12½, prime 3 25, choice 3 37½, and in some instances ask 12½c higher than these quotations.

	—3078 "
Stock on hand June 29, 1844	1228 "

GROCERIES—The Coffee market continues dull, with sales only in lots as wanted for home use; they include 500 bags Rio, sold at 6¾ a 7¼ cents; 200 Cuba, 6¾ a 7; 150 Laguayra, 7¼; 100 Maracaibo, 6¾; 100 Java, 10¾; 100 Sumatra 7, usual time; and 200 St. Domingo, 5¾ cents, cash. There is not a great deal of Molasses offering, but the market is very dull, and prices have rather a downward tendency; 150 casks Sour Cuba sold for distilling at 22 a 23 cents; 60 a 70 Cuba Muscovado 27½; and 50 Guadaloupe, gulf 26, 4 months. Sugars generally remain inactive, the trade here buying sparingly. The sales are some 450 hhds. Porto Rico, partly to go out of the market, at 6 a 7½ cents, chiefly at 6 a 6½; 75 Cuba Muscovado 6¾; 26 New-Orleans 6¾; and 250 boxes Brown Havana 6¾ a 7½, 4 months. By auction, 30 bbls Porto Rico sold at 6¾ cts, cash; and 24 hhds New-Orleans, 6⅝ a 6¾, 3 months.

HEMP—Is in fair request for home use, and we notice sales of 250 bales Dew-rotted American at $80 a $85; 100 Manilla, $140 a 142 50; and in Boston, for this market, 400 bales Jute, $85, 6 mos. By auction, 131 bales damaged Dew-rotted American sold at $65 a 67 50, cash.

BEESWAX.—We notice sales of 10,000 lbs. Yellow at 29 cents for Southern; 29½ cents, cash, for Northern; and 7 bales Cuba White for export, 42, 4 mos. short price.

FISH.—The sales comprise 700 quintals Dry Cod at $2 93½ a $3; 300 bbls. No. 3 Mackerel, about $5 50; some new No. 2 over $8; and 700 bf. bbls. No. 1 Saybrook Shad, $5 75 a $8½, which for the latter is a decline. We understand, the entire supply of old Mackerel is at market.

ZINC AND SPELTER.—The market for both is rather unsettled, and prices are somewhat easier for the buyer; 500 lbs. Belgian Sheet Zinc sold at 8 cents, cash.

STEARINE.—We notice a sale of 250 bbls. soft, on terms somewhat private.

METALS.—There has been more doing in Swedes this week than for some time past—a cargo of 300 tons having been sold at $75, 8 mos. from the ship; and a lot of 100 tons, from Boston, on private terms. We have also to notice sales of 60 tons Scotch common Bar, at $60 50; 400 do English Scrap, about $49, 6 mos; and 1000 packs Russia Sheet, on terms we did not learn. The market generally is inactive, both buyer and seller awaiting late advices from England. Missouri now begins to come forward freely, and prices have declined; 2500 more pigs sold at $23 85, cash. There have been some sales of New Sheathing at 21¼ cents, which is a slight decline, but 21½, 6 mos. the former price is yet generally demanded—23,000 lbs. Old, heavy boiler, &c. sold at 17 cents; and 10,000 lbs. Sheathing and Composition at 16½, and 11, cash.

Correspondence of the Buffalo Commercial Advertiser.

CLEVELAND, June 24, 1844.

The English advices of the 4th inst. settle the question that prices in New-York must go lower than present rates to enable the shippers to realize a profit sufficient to afford them an account than simply to make freight for the packets. Under the presumption that the packet owners save the commission for selling $4 25 per bbl, could be paid in New-York and leave the vessel two shillings sterling per bbl. freight, after allowing all the other charges incidental to the business. Can the packets, at this season of the year, find a more lucrative employment than an almost positive certainty of realizing this rate of freight? It is thought not, and hopes are therefore indulged that factors will meet ship owners at this price, and rid the seaboard of its surplus stocks.

The new harvest has commenced favorably in all the earliest sections of the country while heavy stocks of old grain are to be found in several of the states waiting more activity in the Eastern markets. Nothing can give life to the trade, and safety to the millers and other operators in the country at all times, but an exhaustion of the stocks in the seaboard and in transit, and the sooner the eastern consignees realise this truth and act upon it, the sooner will a healthy and safe business commence. Lay the losses of this spring upon the shelf, and begin anew to redeem them, not nurse them along under the lingering hope that some unexpected calamity will to the crop some where or other may make a "fortunate strike" for the present holders. The losses must be submitted to, and "flour account" may as well be closed by "profit and loss" next month as at any later period of the season. The Western men one and all would find it to their true interests to instruct their eastern agents to come at once to shipping prices instead of getting them by easy stages, for until it is at that point every dollar invested West leaves less than one hundred cents nett proceeds of sales. Down with the prices, and let the farmers hold their stocks of wheat if they will not accept such prices as will leave some compensation on the investment.

There is not much activity in our flour market as buyers see no prospect of profit in purchases at $3 50, and sellers fancy there is but little probability of loss in holding at that price—good brands are offered at that, but the takers are either for Canada account or to make freights for vessels. Wheat moves more freely at 74 a 76 cents for same purposes, and at some reduction the shipments to Canada would be much increased.—Corn sells at or close upon 33 cents. Pork is quiet, the generality of holders refusing to accept $8 for mess, while prime is neglected at $5. The advices from Lake Michigan represent the stock there as very light and not more than adequate to meet the demand for consumption. The wool men are all looking through "glorification spectacles," and but few are sufficient masters of mathematics to demonstrate the extent of their profits. Yours, truly.

A HINT TO THE LADIES.—The desire of *pleasing* is of course predominant in the female breast; and that lady's position is indeed an enviable one who succeeds in establishing such a reputation for beauty as to make her "the observed of all observers." And yet how few there are who are *naturally* entitled to take rank with the fair Rosamond or Catharine de Medecis! The bust may be equally good; the stature equally commanding; the neck equally swan-like; or the eye equally brilliant; but what avail all these charms, unless to them is superadded the more entrancing beauty of a *clear and transparent skin?* It is related of fair Rosamond, that the clearness of her complexion especially allured her admirers, such, that the course of the "ruby wine" might be distinctly traced through the transparent windpipe! Now Dr. Gourand will not undertake to convert every dark-skinned lady into a fair Rose-bud; but he does undertake *to convert* a sallow face into one of his *Italian Medicated Soap*, will produce the nearest approach to that "divine clearness" which it is possible for mere science to produce. Indeed its effects are so wonderous as to appear almost magical—on its application, pimples, eruptions, freckles, sunburns, &c. &c. vanish like mist before the morning sun! Be *particularly* careful to purchase *only* of Dr. Gourand, at 67 Walker street, first store from Broadway—as a host of quacks and empirics have sprung up with a view of depriving him of a portion of the well-earned profits due to his fame. je26 2tod

SALT RHEUM, CUTANEOUS AFFECTIONS, PIMPLES UPON THE FACE and all diseases arising from impure blood may be cured and the system renovated by Comstock's Sarsaparilla.—Affections of the skin are among the most powerful to which nature is subject. They are invariably the cause of unhealthy secretions, disorganization of the vital fluids and inactive perspiration which give rise to bilious diseases, morbid debility and general torpidity of the system. This article is prepared in the most improved manner, upon an entire new process, and it is also combined with other powerful auxiliaries which render it a certain and effectual purifier of the blood. Comstock's Pain Extractor should also be used especially where emotions, erysipelas or sores, or a constant breaking out exists—these two articles if used together, are certain to cure and eradicate from the system any complaint of Salt Rheum or Cutaneous affection. Sold at 21 Courtlandt street. Price of the Sarsparilla 50 cents a bottle, or $4 per dozen.

A CERTAIN RELIEF FOR DEAF PERSONS.—The numerous testimonies we are daily receiving of the efficacy of Dr. McNair's Acoustic Oil in curing deafness, renders it worthy of the notice of all who are thus afflicted. Mr. Wm. Hayden of Middletown, Conn. report that two bottles of this Oil effectually cured him of Deafness of several years standing—he could scarcely hear any sounds distinctly, but the Oil produced the desired effect. A son of Mr. Felius of Newburgh was cured of Deafness several months standing, after suffering continued pain for a long time. A man in Philadelphia was cured of Deafness 18 years standing by one bottle of the Oil. Now these are facts which cannot be denied. Sold at 21 Courtlandt street. Price $1 per flask, also, the East India Dye for coloring the Hair, a beautiful black. It is far superior to any other dye in use.

TO THE GENTLEMEN AND LADIES ALSO.—How often do we see a fine head of hair beginning to fall out and grow thin; being all its lustre and beauty! The Balm of Columbia will prevent this, it will restore the hair even in bald places; it is the best tonic in use for promoting the growth of the Hair, it has been in use for the last fifteen years and has been daily increasing in popularity—it never fails to clean the head from dandruff and always gives it a lustre and beauty unsurpassed—only at No. 21 Courtlandt street.

☞ WOMAN, IN YOUR HUSBAND SUFFERING WITH THE RHEUMATISM, Swelled Limbs, Lumbago, Contracted Cords which renders him helpless and unable to provide for his family, perhaps he may be incredulous and unwilling to try any remedy; but we can assure you that a great remedy and an effectual cure, to wit, the Indian Vegetable Elixir and Liniment, may be had at 21 Courtlandt-st. There can be no mistake as to the effects of these articles. The Elixir being taken internally operates directly upon the whole nervous system and finds its way to the seat of the disease, while the Liniment, being applied outwardly, removes all the pain. This course will cure any military case of Rheumatism. Let the afflicted send forwith and procure these articles.

MARRIED.

In this city, last evening, by Rev. S. H. Cone, Mr. ELIAS GREGORY, of Albany, and Miss LOUISA A. KING, of New-York.

At Philadelphia, on the 26th inst. by the Rev. Dr. Bethune, Rev. WALTER COLTON, of the U. S. Navy, to Miss CORNELIA B. COLTON, all of that city.

At the residence of John S. Chipman, Esq. Waddington, on the 19th inst. by the Rev. Mr. Wood, CHARLES T. RUSWELL, merchant, of Pottsdam, N. Y. to Miss MARIA W. COLFAX, of New London, Ct.

DIED.

15th inst. schr Joseph, Brown, from Philadelphia, bound to Cuba.

We've heard the news from Baltimore,
And what the Whigs have done:
We'll back the nomination up
Of old Kentucky's son.

So Polk and Dallas clear the way,
The Whigs are all now rising—
They'll go it strong and win the day,
For Clay and Frelinghuysen.

☞ **Second Ward.**—A regular meeting of the Second Ward Clay Club will be held at the Second Ward Hotel, No. 57 Nassau street on Monday evening, July 1st at 8 o'clock. A punctual attendance is requested. All good Clay Whigs who are not members are requested to be present and sign the roll.
REVO C. HANCE, Chairman.
ABM. RUTAN, JAMES H. AIKMAN, } Secretaries. je29 2t

FIFTH WARD GRAND RALLY:
THE SPIRIT OF 1840 REVIVED.

"We rise on all our hills! Come forth! 'tis thy Country's gathering hour."

☞ **The Fifth Ward Clay Club** will meet on Monday evening, July 1st, at Marion Hall, 165 West Broadway, at 8 o'clock.

All who desire to see the Tariff preserved, Mechanics protected, and justice done to the Statesman of Kentucky, our own Henry Clay, will please attend, and join the Association.

The Fifth Ward Glee Club will open the campaign and invor the meeting with some choice new songs full of the spirit and fire of 1840.

The President of the Club will give some interesting statistics in reference to our early tariffs in this Republic.
