BOLD VILLAINY.—A well dressed man walked into the Bank of Brighton, at Brighton, yesterday afternoon, and threw down on the counter a quantity of notes which he wished exchanged for notes on that bank. The cashier in counting the money, found four $5 counterfeit notes on the Cumberland Bank, Portland, Me. He was informed they were bad, and he replied he had just sold a horse and received them in payment, and under the plea of finding the person he received them of, went out, taking with him the good notes, but leaving the bad ones on the counter. As he did not return, inquiries were made for him, and it was found that he had passed similar notes in four stores in the centre of the town, without detection, and growing bold by success, at last tried the bank. THE FIRE BURNING IN ALLEGANY.—We gave a few lines in our last relative to the Whig gathering in one corner of Allegany county, on the 4th. It was a most splendid affair—followed up in the evening by a meeting in one of the spacious churches at Rushford, when an intelligent audience listened until near 11 o'clock to the discussion of Whig principles.

These meetings were followed up on Friday evening by a spirited rally of the sterling Whigs of Pike—who turned out in their strength. Our friends in Allegany assure us that they will do better than they did in 1840, and are resolved upon offsetting Steuben. They can and will; for there are no truer or more zealous Whigs in the State than are to be found amongst the free hills of Allegany. [Rochester Democrat.

THE LIVINGSTON COUNTY GATHERING.—We inadvertently omitted to notice the immense gathering of the Whigs at Geneseo on the 4th.—It was a second edition of our own meeting of the 29th, with improvements. No one estimated the number below TEN THOUSAND, while many insist that there were 12 or 15,000 present. The utmost harmony and enthusiasm prevailed, and thrilling speeches were made by Messrs. COLLIER, FILLMORE, and others. We shall have full particulars in the Livingston papers.

☞ HENRY W. DE PUY, former editor and publisher of the Orleans Republican, at Albion, but lately of the Wabash Standard, Lafayette, Indiana, well known to many of our citizens, we see by the last number of the latter paper, renounces Loco-Focoism, and declares boldly against the annexation of Texas to the Union.

RAILROAD COLLISION.—This morning, at a quarter before 6, the steamboat train from Providence was intercepted at the junction on the Back Bay by the Worcester merchandise train going out, and the engine and tender of the former badly smashed. One of Harnden's crates was also upset, and the baggage car of the Worcester train badly injured. No person was hurt. [Boston Mail, 9th.

DUEL AT CINCINNATI.—A note from the editor of the Cincinnati Commercial informs us that a bloodless duel was fought opposite that city on the evening of the 3d instant, between Mr. Edward Kenna, a lawyer of Cincinnati, and a Mr. Jones, son of Bank Jones, of Cincinnati, a lawyer of New-Orleans. Jones had previously given Kenna a caning.

☞ TEXAS BONDS are quoted in the New-Orleans papers at *twelve cents in the dollar*—Texas Treasury notes at *seven and a half cents in the dollar!* Is it very wonderful that the holders of these bonds and notes should be in favor of "immediate annexation," whereby their sixpences and ninepences would be converted into collars, in consequence of the "assumption" of the Texas debt by our Government? [Petersburg Repub.

☞ A. Mr. Samuel Donnels, his wife, two sisters, and a Miss Gil. were drowned in the Mississippi on the 27th ult. by the swamping of a boat in which they all were. Two negroes and one white man swam safely to shore.

☞ Ephraim Martin was arrested on Sunday, charged with having forged the name of Thomas M. Burgess on the back of a note for $1000; also with having forged the name of Benjamin Dyer. He gave bail in the required sum to answer before the proper court. [Prov. Jour.

☞ George Thompson, who shot Miss Hamlin, at Bellevue, has been tried, convicted, and sentenced to be hung at Lower Sandusky, on the 12th inst. By the law of last winter, we believe all executions in Ohio are hereafter to be conducted in secret.

BURNED TO DEATH.—A servant girl in the employ of Mr. NEILEY, of Columbus, O. was burnt to death on the 3d inst. On visiting the room from whence the smoke and flames were issuing, the bed was found to be almost entirely consumed, and the body of the girl so burnt and charred as to be hardly recognized.

SANDS'S SARSAPARILLA.—The adversary to man's temporal enemy medicine is found, growing in groves and under a multiplicity of forms. Sickness and disease have made their devastating inroads until our mortal frame is prostrate in the earth. In Nature's bounteous storehouse we find a balm for every ill, and, if it is used aright, health becomes again established. For derangements of the blood, diseases of the bones, swelling of the joints, cutaneous diseases, effects of mercury on the system, secondary syphilitic symptoms, Scrofula or King's Evil, hip diseases, and others of a similar nature, Sands's Sarsaparilla stands preeminent. This medicine has acquired an enduring fame for its great curative powers, and the proprietors are daily receiving from all sections of our country the most convincing testimonials to its virtues.

"Who steals my purse, steals trash—
But he who filches from me my good name,
Robs me of that which not enriches him,
And makes me poor indeed!"

The Bard of Avon must undoubtedly have been inspired by the spirit of prophecy when he penned the above memorable lines. To him was no doubt granted the power of lifting the curtain of futurity, that by so doing he might be enabled to sing to his wondering contemporaries the mysteries of coming time. How else can we account for the lines which we have above quoted, and which so aptly apply to the base counterfeiters of DR. FELIX GOURAUD'S ORIENTAL PREPARATIONS! The villainous wretches who attempt to deprive Dr. G. of his "good name" by imitating his ITALIAN MEDICATED SOAP, POUDRE SUBTILE for eradicating hair, GRECIAN HAIR DYE, SPANISH LILY WHITE, &c. &c. &c. are just the self-same rascals against whom the mighty shakspeare thundered forth the above philippic. Remunerating on the banks of the Avon, the master Poet saw with his mind's eye the injustice that would, in after years, be done to Dr. Gouraud, and through him to science itself—thus his indignation immediately found vent, not only in the above passage, but in others, which we shall quote at some future period.

Dr. Gouraud again anxiously cautions the fair sex to avoid the hosts of counterfeits bearing his name, as they are not only powerless for *good*, but absolutely destructive to the complexion, past all hope of redemption! Remember, the genuine article can only be procured at the old Establishment, 67 Walker street, 1st store FROM Broadway.

BLOODY AND BRUTAL MURDERS OF PROTESTANTS AND CATHOLICS—SHAME ON PHILADELPHIA CITY—Are ye mad or sick, that ye thus murder, debase, disfigure and maim God's handy work—rendering them more disgusting to behold, than if they were covered with eruptions, freckles, sunburn, pimples, blotches, or any cutaneous disease of the skin? Jones' Italian Chemical Soap, to clear the complexion, cure eruptions, chapped and tender flesh, &c. &c. The most remarkable discovery in medical science for diseases of the skin, was that made by M. Vespirini, the celebrated Italian physician. He shaped his discovery in the form of a beautiful piece of soap, called the Italian Chemical Soap. Many physicians will hardly believe it; they have seen the astounding effects of this. The inventor himself has had for two years and a half a dreadful scrofulous head disease; he has had three practical surgeons in that time, taken several grains of calomel a day for weeks, had the head shaved twice a week, has taken sarsaparilla without the slightest effect; he has had his head shaved two weeks with a razor, and it is curing it fast. This much for eruptions.—For ladies or children, for clearing the skin of tan, pimples, freckles or roughness, nothing can equal this; it makes dark and yellow skin white and clear. One trial will astonish all who try it for chapped flesh, bites of mosquitoes, &c. Price 50 cents per cake.

This is sold (until the only places in the city where you can get the genuine) at the sign of the American Eagle, 82 Chatham street, or 333 Broadway, N. Y.; or 133 Fulton st., Brooklyn. jy9 2eod

CITY INTELLIGENCE.

WEDNESDAY

BOARD OF EDUCATION.

President CLARK in the chair.

The sum of $2,500 was appropriated for School purposes in the First Ward.

SIXTH WARD SCHOOLS.—Mr. Engs, from the Committee, stated that the Comptroller (like the Comptroller of last year) considers himself an officer of the Common Council, and not of the Board of Supervisors, and wishes action from that body before paying appropriations. He presented a report, stating that the sum of $7,000 had been appropriated for the purchase of two lots on Elizabeth street for school purposes, and that notwithstanding that the Common Council contested the appropriation, Mr. McMahon, of the Sixth, stated that the deeds had been made out to the Corporation, and that the lots could not now be purchased but at a much higher price.

Mr. Engs, from the Committee, offered a resolution for the appointment of a Special Committee to inquire into the merits of the variance between the Committee and the Comptroller in relation to the sum required for school purposes. Mr. E. made strong comment on the communication made by the Comptroller in the newspapers relating to the subject. Mr. Quackenbush defended the Comptroller. Referred to Messrs. Lee, Rich and Doremus.

A report was received, stating that the new school in Monroe street, in the Seventh Ward, is in operation, and is occupying 281 males, 156 females, and 252 infants in the primary department.

The Chamberlain was directed to retain $1,700 for pay of clerk and other expenses. Some papers were referred and the Board adjourned.

CIRCUIT COURT....Before Judge KENT.

WILLIAM P. HAZARD, survivor of the firm of A. Tanner & Co., vs. RUSSELL E. GLOVER and FRANCIS B. OGDEN.—The plaintiffs were sailmakers, and furnished sails, &c. in 1840 to the steam bark Clarion, on her being fitted out with the Ericsson propeller, &c. and sent to Cuba. The present action is to recover $204 for such. The defence is that Mr. Ogden was not an owner, and also that the bill had been paid.—It was shown by testimony that Mr. Ogden was part owner, and gave up his said, his commission at Liverpool for the purchase of some parts of the enterprise. [He is now Consul at Bristol.] It was also shown that the note which Mr. Glover gave for the receipted bill had never been paid. Verdict for plaintiff, $356, with interest.

JAMES HAYES vs. JAMES FOWLER.—Action to recover the amount of a quarter's rent for premises No. 45 Whitehall-street. The house had been rented by James Fowler, Jr. for the housing of an engine and boiling-house. The defendant was sued for the rent. Last October the second, and two or three weeks afterwards his young wife died of consumption, their only child having died a short time before. The female took possession of the house and rent it, but the tenant not paying, he brings action against Mr. Fowler for the amount. A non suit was entered.

MARINE COURT.—Before JUDGE SUDDUTH.

ROBERT LAUNITZ vs. ALBERT WAGSTAFF.—The plaintiff is a sculptor and worker in marble. The defendant is one of our wealthy citizens, and resides in Waverly Place.—The present action is to recover of Mr. Wagstaff about $45 for work done on two splendid statues, which Mr. W. had purchased at auction; also for the expense of a table top, &c.—The principal defence was that the plaintiff offered to do the work gratis; also, that there had been an account for rent and payment was implied.—Verdict for defendant.

COURT OF COMMON PLEAS.....Before Judge ULSHOEFFER.

ARCHIBALD DUNN vs. JAMES FOWLER.—Action of replevin in relating to clothing kept for the payment of rent at a public house, the plaintiff refusing to pay but $5 for the board of himself, wife and two children for seven days, &c. (referred to yesterday.) Verdict for defendant.

GEORGE M. CHAPMAN vs. HENRY WILBUR.—Action to recover damages for malicious prosecution, referred to yesterday. It appeared that, while at Batavia, Mr. Chapman thought he discovered that Mr. Wilbur had not stated correctly the price at which the farm had been sold, and remarked that he had got possession of the letters—that he knew "how to come it over" such fellows as Mr. W.;"—that his sister should enter a suit and he would be a witness, &c. When he got to Wilbur's office he threatened Mr. W., who called his brother and clerk, locked the door, and demanded of Chapman the letters, saying he would have them or Chapman should not leave the office. Chapman was kept in the office hours. He entered an action afterwards for false imprisonment, which is still pending. Subsequently, had some months after the occurrence, Mr. Wilbur caused him to be indicted for stealing the letter, on which he was acquitted by direction of the Court at Batavia, which tried the case, and the present action is brought by Mr. Chapman for malicious prosecution. The Court charged that the fact that the jury, in order to find against defendant, must be satisfied that he caused the indictment to be obtained, and, even if so, that he had acted without probable cause. If he made the charge with probable cause, although he may have been governed by malice, the jury cannot find against him. This will rest upon the question whether Mr. Chapman borrowed the letters with a view to examining the orders he had given, or with a view not to return them. Sealed verdict Thursday forenoon.

COURT OF SESSIONS....Before the RECORDER and Aldermen DRAKE and EMMONS—MATHEW C. PATTERSON, District Attorney.

TRIAL FOR MANSLAUGHTER CONCLUDED.—The trial of John C. Robinson, a young colored man, for manslaughter in killing Patrick Daly, by striking him over the head with the bar of a door, was resumed. The Recorder charged the Jury on the law and the facts of the case, as he understood them to be. The Jury retired at a quarter before 2, and returned into Court at 4 o'clock with a verdict of guilty of manslaughter in the fourth degree, and he was remanded for sentence.

TRIAL FOR BURGLARY.—Henry Jackson, a colored man, was tried for burglary in the third degree, breaking into the junk shop of James Boyle, No. 30 Sheriff-street, on the 6th of June, and stealing teapots, lead, &c. worth $5, which were found in a house in Orange-street, occupied by the prisoner's father. The Jury found him guilty, and the Court sentenced him to the State Prison for three years.

JURORS FINED.—Two Jurors were fined $25 each for non-attendance at Court except on the first day of the term, and nine were fined $5 each for default in attendance this day.

ANOTHER BURGLARY.—John DeNike, a boy, was tried for burglary in the first degree, in breaking into the house of Christian F. Bunker, No. 60 Fourth-street, on the 19th of June, and a silver spoon stolen by him was found. He was caught in the house by watchman Clarke, who also found another man there, but who escaped. He was seen to do so by William Moeser, of No. 90 Nineteenth street, who succeeded in the let off, by calling the family out. He was arrested, examined before Justice Drake, and then arrested and took him to the Police Office, where he was committed to answer.

DISTURBING A CONGREGATION.—Jonathan Gable, under the influence of his own base feelings, went on Monday night into the Methodist Church in Bedford street, and disturbed the worship by singing a vend sale, and then pulling out a pack of cards, began to shuffle them. The receipts of revenue at this port on the 9th instant, (yesterday,) as we learn, exceed $150,000.

A well dressed man went into the Bank of Brighton, Mass, and asked the Cashier to exchange some bills for him, among which were four counterfeit 5s on the Cumberland Bank, Portland, Me. He did not succeed, but it was afterward discovered that he had passed such notes at several stores in that town. This may be considered the height of impudence.

The trains and the two steamboats have made 8,81 trips amounting to 165,695 miles, and conveying 443,403 passengers, and on the Marblehead Branch 24,581, making a total of 447,984 passengers transported during the past year. To this amount reals of rent estate and Portsmouth bridge dividends and $5,320—making a total of income $109,223. The expenses have been $25,491 interest on the bonds, $3,000 for sinking fund, and $3,000 for contingencies, $79,887 for dividends payable on and after July 24. The old surplus on reserved fund was $19,920, and that account is now increased to $42,664. The report concludes by stating the result of the years' operations in a dividend of 7 per cent, and an addition of $22,744 to the surplus fund. The Massachusetts Mills Co. at Lowell divided 8 per cent for 6 months.

At Boston, Railroad stocks of the dividend class are firm, and held for advancing rates. Sales of Eastern have been made at 93¼, dividend of 3½ per cent off—equal to nearly 13 per cent. Lowell is worth 26½—Maine 5—Concord 27—Charlestown Branch 85—Worcester 16. Portland is more inquired for at 88 a 88½. COTTON—There is more activity in this staple, and holders appear disposed to yield slightly for the purpose of making sales. We hear of about 800 bales taken recently by shippers, at the prices of last week.

FLOUR AND MEAL—Fresh brands both Genesee and Michigan are rather scarce and wanted, which brands, liable to sour, are plenty. This latter description sells from $4,00 to 4,12½, but fresh Michigan and Genesee are in demand at 4,18¾ a 4,25, and fancy brands at 4,37½. The demand from the East is tame. There could be 1000 bbls. Genesee sold for England if freight could be had low enough. Sales Wellman's extra at 4,75 and Brooklyn City Mills at 5,00, and 200 bbls round hoop Ohio at 4,25. Southern we hear of no change. The sales are 350 bbls Genesee at 4,18¾, 50 do Jersey Rye Flour 3,00, and North Hiver at 3,81¼ a 3,50—the latter for prime. Meal is quiet at 2,43¾ a 2,50.

GRAIN.—There is no new Wheat in market. The lots of Illinois here are held at 90 cents. Corn is in fair demand and steady. We notice sales 2,400 bushels southern White at 49½, weight; 700 do at 48c; 600 do Northern at 52c, and 500 do do Yellow at 50c, all measure. The Montpelier has about 17,000 bushels on board. A sale of 1200 bushels Rye was made at 60 cts, to the ship, and 62c delivered. Oats are held at 34 a 35 cts, which is an improvement.

PROVISIONS—The market continues dull, prices however, we believe, have not further declined. The sales include 225 bbls Porto Rico, and a cargo of 241 hhds and 60 tcs. Cardenas, from second hands, on terms not made public. Low priced Mess Provisions continue to be in demand, but there is very indeed, little or no fresh low of any grade offering at present. The sales include 110 bbls Porto Rico, at 6¾ cents; 10 Cuba, 6½; 30 St. Croix 7¾; 500 boxes Brown Havana, 6½ a 7¾, 4 mos; and 24 hhds and 88 bbls St. Martins, on private terms. The market generally for Coffee continues dull, and prices are without change, the demand being very limited, which is firmer. The sales include 800 bags Brazil at 6¼ a 7½; 200 do Cuba 6½ a 7½; 22 Laguayra, 7½; 80 Sumatra 7; 100 green Java, 8¾, usual time.

NAVAL STORES—Turpentine is held at previous prices, without any transactions of importance. The sales are 50 bbls Wilmington Spirits at 33 a 35 cents, delivered; and 500 bbls Rosin Tar, at 68½. Spirits Turpentine being scarce and in demand, has advanced, sales being now made at 33 cents: cash, in lots; and we under-hand 50 casks Southern, to arrive, were taken at the same price. 4 mos. 50 casks sold last week to a dealer at 34 cents, cash, for prime.

FRUIT—Sales have been made of 1800 bxs Bunch Raisins at 2,18 a 2,20.

FEATHERS—We notice a sale of 200 lbs prime Western Live Geese at 50 c. cash.

RICE—The stock is low, and holders very firm, demanding 3,50 for the best qualities. The sales are moderate at 3,12½ a 3,37½ cash.

BEESWAX—We notice a sale of 14 bales Cuba White, for extract, at 42 c. 4 mos, short price.

METALS—A lot of 200 tons Scotch Pig Iron has been sold on terms we did not learn.

WHALE OIL—The bark has still an upward tendency, and there is a good demand for Prime. At the close holders generally were asking $7 and $9. The sales as far as reported were 100 to 120 bbls. Prime at $6 75, $6 81¼ and $6 87½, and 200 bbls Mess at $8 37½. We also note sales 200 bbls than Mess at $8; 200 bbls Rusty Prime and Mess at $5 and $8, and 300 bbls Ramps at $6 65. There is some inquiry for Lard, and 8¾c. was refused for a fair lot.

New-Bedford Oil Market

For the week ending July 8.

We have heard of no transactions either in Sperm Oil, Whale Oil or Whalebone during the past week, holders requiring higher rates than purchasers are disposed to submit to.

IMPORTANT TO CLAY CLUBS.

Clay and Frelinghuysen Breast-Pins.

☞ The subscribers, having been repeatedly solicited from various parts of the country to furnish copies of their beautiful *Daguerreotype* Likeness of Hon. HENRY CLAY, taken a few days after his nomination by the Baltimore Convention, have made arrangements for copying it extensively into BREAST-PINS for the benefit of the friends of that *eminent Statesman*. The Likeness is a very *speaking* one, and has met with universal commendation from the friends of Mr. Clay. The following notes, among others, bear ample testimony to its *peculiar excellence:*

"The Daguerreotype Likeness of Hon. Henry Clay, by Messrs. Anthony, Edwards & Co., is, in our opinion, far the most accurate ever taken—indeed, the *only* one giving, as it does, his peculiar expression in such manner as has never been attained in any painted or engraved likeness that we have seen." (Signed) J. T. MOREHEAD, U. S. Senate.
EPHRAIM H. FOSTER,
GARRET DAVIS, M. C.

"The Daguerreotype likeness of Mr. Clay by Messrs. Anthony, Edwards & Co., is, in my opinion, far the most accurate ever taken of him, giving his peculiar expression in such manner as has never been attained in any painted or engraved likeness that I have ever seen."

(Signed) GEO. EVANS, U. S. Senate.

"I think the likeness above alluded to, of Mr. Clay, a very correct and excellent one."

(Signed) J. J. CRITTENDEN, U. S. Senate.

The copies being made by the Daguerreotype process, are of course equally faithful with the original, and the likeness in this diminutive form is fully as striking as in the larger picture.

The Pins will be small, chaste and well made, warranted solid gold. As there will probably be an extensive demand for them, they will be furnished at the very low price of $1 50 each, or at the rate of $36 per dozen.

Should a particular style of Pin be desired by any Club, they can be got up at a few weeks' notice, and nothing more will be charged than the actual additional cost of the Pin.

Orders sent through any responsible New York house will receive immediate attention.

THEODORE FRELINGHUYSEN.

The subscribers have also in their possession the finest likeness ever taken of Hon. THEODORE FRELINGHUYSEN, in most perfect picture in every respect, and the expression is peculiarly animated and pleasing. The general opinion of Mr. F.'s friends may be gathered from the following note:

Messrs. Anthony, Edwards & Co.

GENTLEMEN: I have seen with pleasure your Daguerreotype picture of Hon. Theodore Frelinghuysen, and, from my acquaintance with him, can bear testimony to its excellence.—The picture is taken in your usual admirable style, and the expression is such that his most intimate friends could not suggest an improvement. I unhesitatingly pronounce it the finest likeness of Mr. Frelinghuysen
