CITY INTELLIGENCE

WEDNESDAY.

Court of Common Pleas

Before Judge DALY.

Walter F. Williams vs. B. Deklyn.—The defendant is a member of the Bar. A controversy as to some business occurred in Chambers at one day, when plaintiff called defendant a liar, who thereupon struck him a severe blow on the face, and knocked him down. The present is an action for assault and battery. It appears that Mr. W. besides entering this suit, preferred a complaint at the Sessions. Verdict for plaintiff, 5 cents.

Before Judge ULSHOEFFER.

John Hemingway vs. Justus D. Miller.—The plaintiff sold a sloop last spring to J. Gridley, Jr. who owed him $250 on the purchase.—Mr. Miller agreed to pay this by giving 224 gallons of 40 proof French brandy, to be worth $2 50 per gallon. The transaction was completed, but it is now alleged that instead of $2 50 the brandy furnished was worth only 25 cents per gallon, and action is brought for the difference.—The charge is denied. Verdict this forenoon.

Circuit Court.

Before Judge Kent.

Baring, Brothers & Co. vs. Davis, Brooks & Co.—Action to recover the value of a large quantity of railroad spikes, invoiced at £5,280 sterling, which had been sent by B. B. & Co. from Liverpool to Pensacola, in connection with railroad iron and spikes plates, but which spikes had never been ordered, did not fit the rails, and were sent back (al ready referred to) The question was whether Davis, Brooks & Co. who, as agents for the Railroad Co. in Florida, gave the order to B. B. & Co. for the railroad iron and plates, had not delayed sending before notifying the English house that the spikes would be sent back, as to render themselves liable. The evidence showed that D. B. & Co. had been put to a large expense for storage, freight, &c. The Jury did not consider there had been unnecessary delay, and gave a verdict for defendants, (D. B. & Co.) for $4,725 86.

Grosvenor & Starr vs. William Slamm.—Action to recover the amount of a note for $500, signed by Mr. S. and endorsed by his brother-in-law, Mr. Rogers. For the defence it was contended that the signature to the note was not that of Mr. Slamm. The Jury, from the testimony, considered that the note had been signed by Mr. S. and gave a verdict for plaintiff of $506 55, being principal and interest.

Van Buren Ryerson vs. Franklin Morrell.—Mr. R. sold, in Dec. 1843, to Mr. M. his stock and furniture, and good will of the Exchange Hotel, No. 22 Courtlandt-street, for which Mr. M. agreed to pay $1000 to Mr. R. in cash, $600 for rent to Mr. Pearsall, owner of the building, and $1100 for a mortgage held by John Shepherd. The sale was for $4,500.—The balance was to be paid in lands in Shelby Co. Michigan. The present suit is to recover the balance with interest, it being contended that there is no such county in Michigan. Verdict for plaintiff, $2,178.

United States Commissioner's Office.

Before S. RAPELJE, Esq.

C. W. Hamlin, mate of the brig Erata, from Havana, was examined on a charge of smuggling 16 quarter boxes of Havana cigars. It appeared by the testimony that the cigars had been sent on shore wrapped up in the sail, and placed on the sailmaker's left—that Hamlin agred with Mr. Price, 22 Counties Slip, (who was not aware of their having been smuggled,) to sell them for $48, being $12 per M, and that while being carried from the sailloft to the store of Mr. P. they were discovered by a Custom House officer and seized. The brig lay at the time still at East river. On behalf of the mate it was shewn that he had been but recently married, and the cigars at Havana avowedly for the purpose of making them a present to his father-law in Baltimore, where he resides, and that he had stated to the 2nd mate his intention of getting the captain to put them on his manifest, but they had continual bad weather in coming on to the coast, which prevented him from speaking to the captain—and that the manifest had been taken by the Custom House officers sooner than he had expected. A most excellent character was given to him. He was held to bail to answer.

Vice-Chancellor's Court.

Before Hon. WILLIAM T. McCOUN, Vice-Chancellor.

E. Spencer vs. H. Mass and H. Kuttenhaor.—The defendants keep a coal-yard at the N. E. corner of 4th st. and 1st avenue. It was complained of by Mr. S. whose residence is adjoining, on the ground that it was a nuisance, the coal dust affecting his family and domestic pursuits, and the coal being piled up against the side of his house. He applied for, and obtained an injunction against them. A motion is now made for an attachment against them, they having, it is said, violated the injunction, using the coal-yard. In answer to this it was shewn that they had ceased to pile against the complainant's house. A cross-motion is made to dissolve the injunction, on the ground that a coal-yard is not such a nuisance as has been complained of. Motion to dissolve injunction allowed, but that for attachment reserved for decision.

U. S. Marshal's Office.

George Brenan, mate of the schr. Superb, from Portsmouth, N. C. was arrested yesterday on a charge of purloining the captain's watch. The vessel sailed from this port on the 26th Dec. and returned on the 27th inst. in charge of Mr Brenan the mate, Captain Drake of the vessel, having been drowned at sea on the 7th instant. The captain was known to have had a somewhat valuable watch, and the mate was enquired of as to what became of it, when he said that the captain had it in his possession when he fell overboard. The watch was subsequently found in the possession of Mr. R. the mate, and the present complaint was therefore lodged. He will be examined to-day.

Police Office.

Larcenies.—William H. Perry and John H. Bennett were arrested by new police officer Hallenbeck, on a charge of stealing a barrel of apples from A. H. West of Washington Market.

George Lyons was arrested and committed for stealing a decanter of rum from Harmon Meyer, 45 Anthony-street, and for assault and battery on a watchman, and on a Street Inspector of the 5th Ward.

John Ryan was arrested and committed for stealing a quantity of rope from No. 74 Beekman-st. the property of Messrs. Grinnell, Minturn & Co.

John Mathews (colored) was arrested and committed for stealing a pocket-book containing 63 cents, a breastpin worth $2 50 and some papers, from John Jones, No. 145 Chapel-street.

ANOTHER REVOLUTIONARY SOLDIER GONE.—Died in this village, on Sunday morning, 26th inst. Gen. ISAAC BEEKMAN, aged 83 years, from an apoplectic attack.

The deceased has long been widely known as one of our oldest and most substantial citizens. At an early age he was engaged in the service of his country, during the Revolutionary struggle—subsequently he has filled with credit many important posts of honor and usefulness. As as a member of our State Legislature, Judge of the County Court, and President of the Newburgh Bank, he had established in former years, a reputation for integrity, round sense, and good feeling, which secured for him the sincerest respect and esteem of all who knew him.

DUEL IN CANADA WEST.—A hostile meeting took place in this neighborhood on Thursday last, between Robert Stuart Woods, and W. D. Baby, Esqs. We are unable to give our readers the exact cause of quarrel, but believe it originated in politics. We are happy to say that no serious injury has been sustained by either of the parties. Mr. Baby, however, was slightly wounded in the right side, under the arm. Mr. Woods was attended by Mr. P. Salter, Mr. Baby by Mr. Albert Prince.

☞ Mr. William Mills, who went to Boston as Agent of the Mad River, Lake Erie and Marion Railroad, has returned to Cincinnati, and in a letter in the papers, says that a loan can be obtained in Boston and New-York of a sum sufficient to finish the Railroad from Cincinnati to Sandusky, on no other security than that of the Road, at an interest of seven per cent.

COMMISSIONERS OF INDIAN AFFAIRS.—The Commissioners who have been investigating the causes of difficulty and grievances in the Cherokee Nation, and enrolling the Old Settler and Treaty parties, closed their labors on last Saturday, the 4th inst.

The Commissioners who are to settle claims arising under the 17th article of the Treaty of 1835, passed through Little Rock (Ark.) on their way to Fort Gibson, Wednesday last.

THE GROWTH OF THE NORTH WEST.—We are all interested in the growth of civilization in our Northwest territory. It is a pleasing thought no slave can breathe upon its soil, but that its millions of acres shall be cultivated by freemen alone.

The territory of Wisconsin was set off from Michigan, and organized into a Territorial Government in 1836. Its whole surface is estimated at 47,000,000 acres, of which a little more than 10,000,000 has been surveyed. The first sales of public lands took place in 1833; the amount sold from that time till January, 1842, was 2,909,418 acres, for the sum of $2,761,762.

The lead mines of the Territory will be an inexhaustible source of wealth. According to the census of 1840, the whole amount of Lead produced in the United States and Territories, was 31,239,453 lbs.; and the capital invested was $1,346,755. Of this amount, Wisconsin produced nearly one half, or 15,129,350 lbs.; and the capital employed by her was $654,600.

The Southport Annual Register, No. 1, contains some interesting statistics in regard to this territory.

The assessed valuation of the real and personal property of all its counties, in the year 1843, amounted to $8,077,300.

The first Governor was General Henry Dodge, who held the office from 1836 till 1841. J. G. Doty succeeded him, being followed by N. P. Tallmadge, the present Governor.

Southport is a flourishing town on the western shore of Michigan, 55 miles North of Chicago, 35 South of Milwaukie, and is destined to become a place of great Commercial importance.

The first frame building was erected in this place in August, 1835, and six families settled there the same year. In November, 1843, its population was 1820, having increased it the previous four months 693. In 1835, provisions of all kinds were exceedingly high, not enough being raised by the inhabitants for their own support. Flour sold at $13 per barrel, Pork at $30, Potatoes at $1 50 per bushel. Now a considerable quantity of Wheat, Lead and Lumber, is shipped from that port. In 1843, the exports of these articles were:

Wheat, bushels	70,066
Lead, lbs	363,048
Lumber, feet	2,700,000

The location of a harbor since then, at Southport, has infused new life into all its operations, and building is going on rapidly. [Cin. Herald.

Commercial and Money Matters.

☞ *For Commercial and Money Matters, see Last Page.*

WEDNESDAY, P. M.

There was no marked change of feeling in the Stock Market to-day, but things were rather heavy. The movements in Congress on the Oregon question, following so immediately upon the Texas vote, have had their effect. The Money Market is also very tight, and the stringency appears to increase in the ratio of the approach of the 1st Feb. The Banks get 7 per cent, and in the street the rate is from 7 to 10 per ct. This great margin between the rate in London and here cannot continue long. There are good securities, which even under the disgrace brought upon American securities by the defaulting States, will tempt English capital here at the present high rate of interest. The attempt to reduce the 3 per cents which it is reported will be made by the English minister will undoubtedly have the effect of attracting the attention of English capitalists to the Stocks of this State and of the United States.

The foreign bill market is dull, and rates have a downward tendency. This is probably owing in some measure to the difficulty remitters have in the present state of the Money Market in paying for bills. Sterling is 9¾@10, Francs 5 23¾ a5 22½.

The packet Sheridan, for Liverpool, had no specie.

We hear of no freight engagements for Liverpool. The rate is 11-32d for square bales.

The shipments of Domestics from this port between 1st and 28th January were 882 packages.

The Jackson Marine Insurance Company have declared a dividend of 7 per cent on the capital stock, also 6 per cent on the scrip, both payable on the 1st of February.

The Mechanics' Bank at Newark, N J, its usual semi-annual dividend of 3 per cent, payable 1st of February.

We gave last week a table of the Free Banks of this State, the circulation of which is secured entirely by New-York or United States stocks. Those Banks are secure as far as the note-holders are concerned, beyond all peradventure. We now give below a table of the remainder of the Free Banks of this State, with their circulation and securities on the 1st January, 1843, of the safety of which every one can judge for themselves:

The following is an extract from a letter received from Harrisburg:

"It seems to be settled here now, that THE WHOLE INTEREST SHALL BE PAID. The Governor may feel some doubts, but the Legislature are determined to pay the whole interest, IF THERE IS MONEY IN THE TREASURY TO DO IT. Mr. Snowden has recognized to Mr. Mann for $301,000, and the estimates for this month are already exceeded."

S. H. Carpenter, Transfer Agent, has advertised in the Philadelphia papers that the Transfer Books of the Commercial & Railroad Bank of Vicksburg will be opened on Saturday, 1st February, at No. 76½ Walnut st.

A resolution has passed the Pennsylvania House directing the Committee on Banks to introduce a clause into all bills that they may report for charter or recharter, or for any alterations in existing charters of Banks, making stockholders individually liable for the notes issued, to the amount of stock held by each respectively—yeas 52, nays 35.

The notes of the Farmers' & Mechanics' Bank of Michigan are refused by the brokers of Chicago. They are, however, generally taken by the merchants. The agent has paid out his current funds, but continues to draw on New-York at 1½ per cent.

A private letter from a Member of the Legislature to his friend in Chicago, dated January 8, says:

"I believe the State revenue will be increased one mill, to be applied to the payment of interest, conditional, however, that the Canal Loan is filled up. We are looking anxiously for the next steamer, and if that brings news of the completion of the Loan the Revenue Bill will pass without any trouble."

The Nashville Whig gives the following statement of the fiscal affairs of Tennessee:

"The Public Debt of Tennessee, nominally stated from the amount of State Bonds issued, is $3,286,000, viz:

State Bank Six Per Cents, 1868	1,000,000
Union Bank Five Per Cents, 1848, '53, '58	880,000
Improvement 5½s, 1836	266,000
Improvement 5s, 1838 to '74	1,320,000
	$3,286,000

These items have been reduced, and the Bonds to all practical purposes canceled, to the amount of $79,000. This leaves the real indebtedness of the State $3,007,000.

A further reduction, amounting to something like $30,000, will be made in a few days, by an exchange of stock with the Planters' Bank of Tennessee, under the act of 1842. Under the operation of this law, the Union Bank has received of its own stock about $160,000 by the sale of Real Estate, and $21,000 by transfer from the State, and the Planters' Bank has received about $150,000 by the sale of Real Estate, and will soon receive in addition about $21,000 by transfer from the State.

When this shall have been accomplished, as it will be in a few days, the real indebtedness of the State will not exceed $2,880,000, the annual interest upon which will be $159,400.

The interest on the $500,000 Union Bank Fives has been and will continue to be regularly paid by that institution, in which the State holds stock more than equal, if valued at 80 cents in the dollar, to the principal of the debt.

This item being out of the account, the State has the interest upon $2,380,000, to provide for through her fiscal agent, the Bank of Tennessee."

The same paper gives the following statement of the condition of the Bank of Tennessee:

"The gross profits of the Bank, exclusive of its current expenses, since its establishment in July, 1838, amount to $1,158,-624, out of which it has paid six annual School and Academy dividends of $118,000, in all $714,000—leaving to the credit of profit and loss $804,649. Against this sum, the bank has applied to the interest of the Public Debt $697,722, and the improvement of Rivers in East and West Tennessee $111,935; to-gether $809,657—leaving a net balance of profit and loss unappropriated of $24,382.

The average annual profit upon the capital stock has been at least 8 per cent. Meanwhile, however, the capital stock has probably been impaired $400,000 by bad debts, the loss of interest upon which has been balanced by the profit upon the circulation and deposites of the Bank."

A sale of 30 000 bushels Wheat was made at Chicago on the 5th January at 73 cents, to a Buffalo operator. The price has since fallen to 68 cents. The quantity in store on the 15th inst was 200,000, with 100,000 bush at Mich City, and 100,000 more at Little Fort, Racine, and other points above, in Wisconsin. On the 15th February last year, 600,000 bush of Wheat were on hand awaiting shipment from Milan, Michigan City and Chicago.

FLOUR AND MEAL.—The market is very firm with small inquiry from the trade and the East. The selling rate for Western is $4 75, although holders are asking $4 81½, and it is not easy to find good brands below that rate. Southern descriptions are firm, but we hear of no important sales.

Export, from 1st to 28th January.

Wheat Flour ..... 12,061 bbls.

GRAIN.—The market is clear of Corn, there having been further sales of 7,000 to 8,000 bushels Southern at 46 cents, wt. for distilling. These are the only transactions in any description of Grain which have come to our knowledge.

Export, from 1st to 28th January.

Corn ..... 13,230 bushels.

HAY.—We notice a sale of 200 bales Jersey, for shipment, at 56½ cents.

TALLOW.—There is some movement, and 7¾ cents is firmly asked for Prime. Sales 20,000 lbs at 7⅝ a 7¾ cents, cash.

SEED.—A father sale of 34 tcs Clover has been made at 7¾ cents. Export of Clover Seed the past week, 58 bbls, 468 tcs and 122 bbls; and of Flax Seed for the season (cleared) 4,328 tierces.

BONE.—Sales 4,000 lbs North-West on previous terms.

PROVISIONS.—Prime Pork is rather buoyant to-day, but Mess is neglected. Of Prime 1,000 bbls have changed hands at $7 87½ a 7 90 and private terms. Mess is nominally $14. Beef is very firm, but without sales of importance. Lard is held at 7 cents, to arrive, while in small lots it has that price. For a prime lot of Hams 7¾ cents was refused.

Export, from 1st to 28th January.

Beef...4,326 bbls Pork....3,418 bbls Lard...9,540 kegs

HIDES.—We notice sales of 3,000 Tampico at 10¾ cents, 6 mos: 1,200 a 1,500 dry Southern and Western 8¾ a 10, 6¾ cents, 6 mos. Slaughter Cow, 50 lbs, to go 1 cent, at 6¾ cents, 6 mos. Slaughter in Liverpool Dec. 31, 1844, 239,869, against 296,137 Dec. 31, 1843.

OILS.—No sales of Whale for export. Linseed continues in request, with further sales of 5 a 6,000 English at 70 cents cash; 2,500 do, to arrive, on private terms; and American, in tcs, 67 a 68 cents, cash. 100 cases Florence brought $4; and 25 bbls Black and Spermaceti $40, both cash.

TEAS.—The stock of green is unusually light, and that of Black we understand does not exceed 12,000 chests. The market is very firm, with a fair inquiry from the trade, and some sales at previous rates. Stock in Great Britain, Dec. 31, 1844, 36,000,000 lbs, against 37,500,000 lbs Dec. 31, 1843.

The following transactions are for three days, and include some lots before reported within that time:

GROCERIES.—Coffee continues rather dull, and La Guayra, within a fortnight, is ¼ of a cent lower. The sales are 1500 bags Brazil, chiefly to go out of market, at 6 a 6¼ cents; 300 La Guayra 6⅝ a 6¾; 150 Java 9; 50 Green do 8¾, usual time; and 2,800 St Domingo, for export, 5½ a 5¾ cents, cash. By auction, 661 bags damaged Brazil sold at 4¾ a 5¼ cents, cash. There continues a good demand for New Orleans Sugars from the trade, and as they are offered sparingly, prices are a shade higher than at the close of last week. We notice sales of 450 New-Orleans at 4⅝ a 5¾ cents: 300 boxes Brown Havana, part for export, 6⅛ a 7¼; and a few White do 8½ cts, 4 mos. New-Orleans Molasses is in request, and prices have improved 1 cent per gallon. The sales comprise 75 casks and 175 bbls N. Orleans, 30 hhds Cuba, and 1,200 Havana, at 29 cents, 4 mos, and 1,200 bbls New-Orleans 22 a 23, 4 mos, closing firmly at the latter price.

METALS.—The Cambrian advices have induced much firmness on the part of holders of Bar and Pig Iron, and higher prices are now asked, but we hear of no further sales. We believe there have been some further sales of Missouri Pig Lead, but the particulars we did not learn. In Tin a sale of 150 slabs Straits has been made at 15 cents, cash. Tin plates, owing to favorable advices from England, are held higher.
