Representative of New York—Old and New

The New York Life Insurance and Trust Company occupies a unique position in New York. Its Trustees elect their own successors and no change in ownership of its stock can bring about undesirable changes in its business policy.

The Trustees are thoroughly representative of New York—old and new. Some are descendants of men who originally incorporated the Company in 1830; all are representative of those prominent in New York financial and legal affairs, just as has been the case since 1830.

The present Trustees are: Frederic W. Stevens, Stuyvesant Fish, Edmund L. Baylies, Columbus O'D. Iselin, W. Emlen Roosevelt, Cleveland H. Dodge, Thomas Denny, Lincoln Cromwell, Paul Tuckerman, Howard Townsend, Alfred E. Marling, Moses Taylor, Edward M. Townsend, Edward J. Hancy, Henry Parish, Nicholas Biddle, William M. Cruikshank, Stephen P. Nash, Lewis Spencer Morris, Joseph H. Choate, Jr. and Edwin G. Merrill.

The Trustees believe that the policy of specializing in Personal Accounts and Personal Trusts makes the Company unusually valuable to the New York of 1922.

Curb Prices Firm On Strong Support In the Oil Group

Standard Shares in Good Demand at Higher Levels; Industrials Hold Steady; So. Ry. Bonds Admitted

Curb prices ruled firm most of the day yesterday on good support for the oil shares, particularly those of the Standard group. Industrials held steady. Southern Railway 6½ per cent bonds of 1956 were admitted to trading and changed hands at 94⅝.

In the Standard group Prairie Oil and Gas, Indiana Pipe, Continental Oil and Buckeye Pipe recorded gains. Standard of Indiana advanced a fraction, and Anglo-American held firm at 17¾. Rumors of salt water in the Mexia field disturbed the market somewhat, and Kirby Petroleum lost a fraction, but these reports were officially denied and it was asserted that production in the field was steady increasing.

Reynolds B established a new high at 39. Radio common worked higher and Glen Alden scored a fractional gain. Intercontinental Rubber was under pressure.
