A RHYME FOR SLEEPERS.

"I write unto you, young men."—JOHN.

Ye are not strong as you should be,
Nor fearless in the cause of Right;
The ray received from Deity
Sheds not abroad its holy light;
And while a glorious trust you bear,
Ye seem but creeping children, when
Nerved by a high resolving care,
You should be vigorous, working men!

Untouched as yet by weakening years,
And giants if ye bend the will,
Why be the slaves of ease and fears,
And skrink when Duty cries—Fulfill!
Where is the calm, stern aim of life,
The love of Right, and hate of Wrong?
Why this withholding from the strife,
When Truth is calling for the strong?

Deem it ignoble thus to live
Inactive while there's work to do;
To Truth the earnest efforts give
Of Talents God has given you;
Drug not the Soul with pleasure, when
Full armed and laboring it should be—
Dreams are for children—not for men—
They tell not on Eternity!

Up! then, each slumbering one, and forth
Where'er the gloom of Error lies;
Cry, "God and Truth!" and thus give birth
To one more star in midnight skies:
E'en though at first it flickering burn,
'T will steadier grow from loftier aim,
And if one Soul toward it turn,
Earth will be brighter by its flame!

A. D. F. RANDOLPH.

LAND SLIP.—On Monday evening last, a portion of the hill adjacent to the Steep Rocks on the Hudson River, comprising an area of six or seven acres, and about 50 feet in depth, broke off in three masses at three several times, and slid down the face of the hill to the beach below, a distance of about 200 yards. Upon striking the level each mass broke into pieces, piling up a chaos of gigantic fragments of pure clay, intermingled with trees, some of them of large size. The perpendicular hight of the hill is perhaps 150 feet. The action of the water, and the rapid succession of freezing and thawing at intervals, will account for the phenomenon. Providentially there was no dwelling in the course of the avalanche. [Kingston (N.Y.) Jour.

BOSTON IMPROVEMENTS.—We learn from the Whig bulletin that the Baptist Church in Federal street has been purchased by a gentleman and that a line of stores will be erected on its site in the Spring. Gragg's stable, which cost less than $20,000, will probably be sold for $30,000, and a splendid row of warehouses be erected on its site and also on Atkinson st. A magnificent hotel is to be built in Bumstead Place, to be completed in 15 months, which has already been leased to Major Barton and Capt. Comstock. In addition to these the new structure of the Mechanics' Association in Bowdoin Square, the Horticultural edifice in School st. and the superb Gothic church in Hanover street, with thousands of stores and dwellings to be erected in the Spring will afford some indication of the increasing thrift and prosperity of the Bay State city.

☞ A lady in Cincinnati, who lived opposite to Mr. D. A. Powell's Foundry, and had her arm broken a short time since by the explosion of a steam engine in the Foundry, instituted a suit for damages, and recovered $350. It was shown on the trial that the boiler used in the Foundry was unsafe, and that a boy, wholly unqualified for the business, was employed as Engineer.

MORMON MORALS.—The citizens of Montibello precinct, Hancock county, (Ill.) have had a meeting to organize a plan of protection against Mormon thieving. A schedule was exhibited showing that property amounting in value to $1,336 50 had been stolen from the single precinct of Montibello.

DEATH FROM RUM.—A man named Booker was found dead four miles out of Gardiner village, (Me.) on the 15th ult. having frozen to death the night previous. He was intoxicated, and perished from excessive rum drinking.

☞ FRANCIS BAKER has escaped from the jail at Tunkhannock, Wyoming County, Pa. He was under sentence of death for the murder of Robert Atkinson.

☞ A boy named Blakeslee, about 12 years old, stabbed another boy of the same age named Mayce with a pocket knife, in Hartford, on Thursday last. The wound came near being fatal.

☞ The steamboat Tigress, which plied for some time from Philadelphia to New-York, has been sold to a gentleman in South America.

DEPARTMENT OF STATE, Washington, Jan. 30, 1845.

The following despatch has been received from the Charge d'Affaires of the United States at Copenhagen, Denmark, respecting the establishment of certain lights by the Danish Government; which is published for the information of those trading in that quarter.

Legation of the United States, Copenhagen, October 28, 1844.

Sir—The following notices have just been issued by the Danish Government, viz:

"GREAT BELT.—A fixed light has been established on the most Westerly point of Zealand, called 'Refness,' at the Northern entrance of the Great Belt. The light stands on a tower at the hight of 70 feet above the level of the sea, and is visible at the distance of three-quarters North, and Northwest.

"Sprogo Island light revolves four times in a minute, and will shine every night.

"LITTLE BELT.—The fixed light on the Island of Bango has been elevated to the hight of 28 feet above the level of the sea, and is now visible in all directions, except that of South-west by West, where it is concealed by the town of Bango."

I have the honor, &c. [Signed] W. W. IRWIN.

RICH'S IMPROVED PATENT SALAMANDER SAFE—Warranted dry, as well as fire and thief proof.—The following certificates from some of the most respectable merchants and others in the city of New-Orleans, establishes their fire proof qualities beyond all doubt:

"The undersigned save this day witnessed the trial of one of Rich's improved patent Salamander Safes in the furnace of the Sea Bird.

"The Safe was placed in the furnace at 10 minutes after 11 o'clock A. M. and remained there three hours, constantly exposed to the most intense heat that could be created by the use of pitch pine and cottonwood. It was then taken to the store of Mr. Rich's agent in this city and opened, when they found that the contents were neither burned nor scorched, and that the wood work bore no appearance of having been exposed to fire.

"The undersigned are convinced that this Safe was subjected to greater heat Nonn could possibly exist at the burning of any building in the city, however combustible; and consider, that their interests have no bias in saying that Rich's Safes are eminently secure against the risk of fire, under any circumstances whatever.

NEW ORLEANS, 12th June, 1844.

Jerome B. Harper, Master of steamer Sea Bird.
John Hoey, Fire Inspector of Western Marine and Fire Insurance Company.
Thos. H. Chenoweth, Joseph Grant,
R. McGregor, J. H. Stauller,
A. C. Labatt, Benjamin B. Cock,
Rene H. Brunet.

One of our customers saved $40,000 in one of Rich's Safes, although the burglar had six or eight hours to try his skill on he lock.

The above Safes are sold in this city only by
