The Trenton State Journal states that Archibald W. Burns, Cashier of the Mechanics' Bank of Burlington, was removed from that post, and George Gaskill appointed in his stead.

Counterfeit one dollar notes, letter D, on the Mohawk Bank at Schenectady, have made their appearance at Buffalo. The engraving is coarse and ragged, and the general appearance of the bills bad. A slight examination only needed to distinguish them from the genuine.

The Customs receipts of the first quarter of the present year, at Philadelphia, ending April 1, 1845, for duties at the Collector's office, amounted to $642,634 85, and those for the second quarter ending July 1, 1845, are estimated at $520,000.

The Directors of the South Carolina Railroad have declared a dividend of $2 25 per share for the last six months.

The Pittsburg Gazette says sixty-five tons, part of a lot of Railroad Iron for the Miami Railroad, arrived on Saturday from the Great Western Iron Works, and was shipped on the Ohio Mail, and H. Kinney. The whole amount required by the Company will be about 700 tons, all of which will be furnished by the Great Western Works.

The case of the Commercial Bank, of Natchez, which was carried to the Supreme of Mississippi, was decided a few days since under the quo warranto act. There were eleven charges of forfeiture against the bank. If the bank does not plead over or appeal, she stands convicted by the judgment of the Court on the demurrers of fraudulent subscriptions of stock—of failing to require one-fifth of the capital to be paid in previous to going into operation—of becoming insolvent by the mismanagement of its officers, and of a fraudulent refusal to pay specie on their notes—of a failure to establish four branches with certain amounts of capital, being four distinct causes of forfeiture. If the bank pleaded over, two other causes of forfeiture will be assigned, to wit: the payment of dividends in specie to the stockholders of the bank while in a state of suspension, and the fraudulent issue of notes or bills commonly known as 'blue backs' at a time when the bank was insolvent and had no means with which to redeem the same.

In the Circuit Court of Adams county, on the 10th inst in the case of the State vs. the Planters' and Agriculture Banks, the pleadings presented the question whether a continued state of suspension caused a forfeiture of their charters. The Court, says the Mississippian, on demurrer to the replication of the State, alledging this fact, decided that such continued suspension of specie payments amounted to a violation of the charters of banks. It is understood the counsel of the Banks will take an appeal to the High Court. Application has also been made for the appointment of a Receiver for the Union Bank. The application comes from two or three Tennessee Banks and other creditors of that prostrate institution.

At New-Orleans Exchange was as last quoted Sterling 9½@10, Francs 5 27½@5 25, on the North, Sight bills ¼@½ prem.

At Louisville Eastern Exchange 1 per cent prem at the banks, and 1 ⅌ cent out of doors and abundant. Money is plenty, and nearly all the good *business* paper offered at the banks is taken.

MANUFACTURERS AND OTHERS can obtain liberal advances in cash on all kinds of goods, manufactures of every description of saleable WOOLENS, COTTONS, and other Goods in sums to suit, by applying at 41 Pine-st, up stairs, and in same solid on the usual terms. Is it true that the Sub Treasury is not as equivocal a component as his "cut up" advertisement.

Does not the young man even go so far as to insinuate at the beating of the article, that he makes the genuine Pulmonic Syrup from the old Indian recipe? OBSERVE. There is no plain assertion of the fact. He does not assert or pretend—nor has he ever any where presumed to assert or pretend in direct terms, that he made the ORIGINAL GENUINE Pulmonic Syrup from the old, original Indian Recipe, which I hold. He MAKES not do so. To be sure, greater and greater boldness is perceptible. First come various statements, containing all manner of insinuations, personal allusions, coarse language, misrepresentation and assumption—but not a word of the ORIGINAL GENUINE Pulmonic Syrup made from the old, original Indian Recipe? By and by an "ocean" was discovered forth, and he was "proving to the world" that his Pulmonic Syrup, made from the old, original Indian recipe, which I hold! Would not the young man have sworn to the important fact, if he could conscientiously have done so? Finally, the extremity becoming desperate, third papers thrust themselves forward, and two statements, pretended or real, signed respectively, "O. C. Seymour" and "George P. Rex, M. D." appeared. There was no lack of invention here—but the whole affair was so wrongly managed, that the inflated mass suddenly collapsed at the first touch of reason. Among other things, one "statement" pretending that the young man's syrup was made from some Indian recipe, and the other, that he was the "ORIGINATOR" or INVENTOR of it!

The reader will soon discover that the young man's present endeavor is but a sorry repentance of the same puerile force.

As to the young man's personal "statement," what is it but the SAME STORY accompanied and "his" syrup, accompanied by the most glaring attempt to mix up and connect my name with his, and incorporate my history with his own? It it will not do. Art have cannot succeed against Truth—he cannot make the "cut up" Pulmonic Syrup is the same as Beekman's ORIGINAL GENUINE Pulmonic Syrup—the public will not be persuaded that I lent him my experience, in any way. I will not do it. If the young man' vrup is good, let him prosper with it in peace. But the remarkable celebrity of the ORIGINAL GENUINE Pulmonic Syrup, which I prepare, from the old, original Indian Recipe which I hold, is my own property and no turning or twisting, no plausible pretexts, no ordinary personal allusions, or rosy assumed indelicate charge, shall ever wrest that property from me.

Now let us look at the "citizens' certificate" and see what it amounts to

The certifiers state that they were called on by the person named to give their testimony in regard to "his" Syrup, and "having inspected" his "statement," "fully believe the same." "Most of which facts there set forth" they "know, such facts "having transpired under" their "own immediate observation"? Did the certifiers carefully examine the "statement"? Are they quite sure that it was the same that published over their "certificate"? Is it the part of upright and sensible men to certify that they "fully believe" a one-sided "statement" violently impugning the motives and character of an absent stranger? How could the certifiers "know" "most" of the so called facts? Did not those, according to the "statement" itself, transpire at different and distant places, and at long intervals of time? Do the certifiers assume to have been present on those different occasions? Do the certifiers assume to "know" the words, sentiments, arrangements and operations of distant persons, with whom they had no connection whatever?

Passing to the next point of any importance, we observe the certifiers state that they "are satisfied of" their "own knowledge" that the person spoken of "was the first producer" of his own Syrup? What does "first producer" mean but "originator," and originator but invention? Note the glaring inconsistency! The young man endeavors, at the head of his advertisement, to convey the impression that he makes "his" Syrup from an old Indian recipe, in use, of course, before he knew any thing about it—and then gets different persons, "by whom" "the origin" of his Syrup "is known," to certify that he is the "first producer, "originator," or inventor of it!

But what, after all, has this "certificate" to do with the MATTER IN QUESTION? It is not what the certifiers know or "believe" about "his" Syrup. What do they know about the TRUE ISSUE? Do they so much as mention Beekman's ORIGINAL GENUINE Pulmonic Syrup? No. Is any thing said about the old, original, Indian Recipe? NOT A WORD!

Do these gentlemen certifiers realize their unenviable position before the public? Lending themselves to a private artifice,—joining in an attempt to injure an absent and unoffending man, in fact, a total stranger to most of them! Is this the way a constituency is to be honorably represented? the duties of responsible officers and professions faithfully performed? the sacred errand of justice to be honored? above all, the mission of TRUTH and PEACE preached?

I confess I am grieved. The spectacle is a lamentable one. Do, in forgiveness, to match the author's "works"..... 2 50
