SANDS' SARSAPARILLA.—From the time of Archimedes to that of Galileo and Bacon, a period of about eighteen centuries, science may be said to have been under an eclipse.—There were occasionally glimmerings through the clouds of ignorance and superstition, but they were brief and ineffective. Since Bacon's time, however, practical science has advanced with rapid strides, and the great preservative art, that of Medicine, has obtained victory after victory over disease, in swift succession. One of the most powerful of its weapons, at the present day, is SANDS' SARSAPARILLA.—Scrofula, rheumatism, erysipelas, salt rheum, and an army of eruptive diseases, have been brought under control by its agency; and day after day new testimony from various quarters attests its hygeian properties. It is not, indeed, the "philosophers stone" for which the Alchemists so madly toiled, but by the blessing of Him "in whose hands are the issues of life and death," it generally proves a specific in a wide range of maladies.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Wholesale Druggists, 79 Fulton-street, New-York. Sold also at 225 Broadway, 77 East Broadway, and by Druggists generally throughout the United States. Price $1 per bottle. Six bottles for $5.

One cake of Jones' Italian Chemical Soap will change the color of sunburnt, freckled, or wrinkled skin, to youthful smoothness, clearness and beauty; it permanently cures pimples, freckles, blotches, salt rheum, scurvy, shaving beads, barbers' itch, or any cutaneous eruption. Persons who have been deceived with counterfeits of the genuine Jones' Soap, would scarcely believe its wonderful powers. Let such give it one trial, and they will be gratified. NEWARK, June 24, 1845.—MR. BARRY: SIR: I dare say you will call to your recollection, some few months ago, of my stepping into your store, proposing to a wig, as my hair was fast turning grey, and absolutely falling off, and, instead of the whig, you recommended my using an article called Triophorous, assuring me that by its timely application I might restore it to its former color, and if it did not effect this you would return the money. Well, to be plain, I put little faith in what you stated, believing it to be impossible; but I thought I would try it, as you spoke so confidently about it. To be brief, I followed your directions, and take pleasure in stating that it has entirely restored my hair to its former appearance. I, therefore, heartily thank you for the lasting favor you have conferred on me. You will oblige me by sending 3 bottles, addressed to Mrs. Keight, Newark.

Sold by A. B. Sands & Co. 273 Broadway and 79 Fulton-street; John Meakim, 511 Broadway; S. Masson, 241 Spring street; Dr. Lindsey, 95 Sixth-avenue; Vanvoorhees, 437 Hudson-street; James W. ☞ DALLEY'S MAGICAL PAIN EXTRACTOR.—The unparalleled popularity of this medicine has excited the cupidity of certain worthless persons, who now endeavor to palm off a counterfeit or imitation article upon the public.

CAUTION.—We feel it our duty to again caution the public not to put the least confidence in the noisy, boasting quacks, but avoid all PAIN EXTRACTOR that has not the written (not printed) signature of E. DALLEY on the wrapper—for unless it is counterfeit. Sold wholesale and retail, at No. 128 Fulton street, Sun Building, N. Y. je27 3t*

The Pittsburg American says that the Commissioners of that county have concluded a negotiation with the Exchange Bank, for whatever sum may be required in anticipation of the in-coming taxes, to enable them to pay the State tax of the county. It is not supposed they will have to borrow over 10 or 12,000 for the short space of ninety days, to accomplish the spirited enterprise of the Commissioners.

The Buffalo and Niagara Falls Railroad Company have declared a dividend of 3 per cent payable 10th July. The capital stock of this company originally consisted of 1100 shares at $100 each but it was raised to 1500 shares at $133 33 each, making $200,000. The additional instalment was paid on all but 69 shares. The entire cost of 22 miles of railroad and equipage &c. in 1836 was $156,000. The road has recently been relaid with ¾ inch rails and put in complete order. The earnings for the last eight years have been as follows:

Year ending 1st April, 1838	$26,620 29
" " 1839	29,399 13
9 months " 31st Dec. 1839	31,492 86
Year ending 31st Dec. 1840	30,749 79
" " 1841	29,788 37
" " 1842	21,257 15
" " 1843	17,175 30
" " 1844	22,000 54
Total earnings	204,474 43

Average annual gross receipts about $26,480. Between 31st May, 1844, and 31st May, 1845, the gross earnings have been $22,172 84, and the net profits $11,047, equal to 5½ per cent on $200,000 capital. The whole debt of the Co. is $19,670. In view of the negotiations now pending relative to the continuation of the road from Lockport to Rochester, and at the solicitation of those charged with negotiation the following resolution was adopted at a meeting of the Directors on the 7th of June:

Resolved, That the board recommend to the stockholders of the corporation to surrender 10 per cent, of their stock to such persons as shall furnish and expend an amount necessary to build a railroad with iron rails from Niagara Falls via Lockport to Rochester, provided such persons undertake to build such road be subscribed within sixty days; and that said road be completed by the 1st of January, 1847.

The gross income of the Richmond, Fredericksburg and Potomac Railroad Co. for the year ending 1st April last, was $185,243; the net income $85,688; the dividend 6 per cent. Whole cost of the Road $1,454,171.

The report of the Portland, Saco and Portsmouth Railroad gives a very favorable view of the business of that road. From the statement it appears that the road, which is 51 miles long, has cost, without interest while building, about $23,100 per mile, or with interest till in operation, $24,250, including engines, cars, wharf in Portland, machine shop, and all the equipments of a first class road. An aggregate view of the whole receipts and expenditures is given as follows:

Since the 1st December, 1842, to which time the stockholders received interest on assessments, the whole earnings of the road have been	$207,669 36
The current expenditures about 44 per cent	118,852 78
The net earnings	148,816 58
Amount interest paid and accrued on loans	$44,615 42
Amount dividends, $9,50 per share	80,245 00—124,860 42
Balance on hand, June 1, 1845	$23,956 16

Equal to about $2,50 per share.

The whole number of passengers the last year was, for the 6 months ending Nov. 30th, 1844, 108,743—for the 6 months ending May 31st, 1845, 41,535, making a total of 150,279, exhibiting, as was to be expected, a much greater number in summer half, than in the winter half of the year.

Correspondence of Livingston & Wells.

UTICA, June 25, 1845.

The Electro Magnetic Co. formed here some few weeks since, are very actively engaged in prosecuting the work to completion between Albany and Utica.

This Company have obtained the right of way from the Railroad Companies between the two cities, and last evening they closed contracts for their posts and other materials for the entire route.

The capital of this Co. has been eagerly taken here and with that spirit and avidity that nothing now remains to have the line completed in the short space of 60 or 80 days.

The disposition evinced here assures me that the line of Electro Magnetic Telegraphs will be specially arranged and constructed from this to Buffalo, connecting Boston, Albany and Buffalo. The necessary capital for which could very easily be obtained *in this city alone*, if it were desirable or necessary.
