LIVERPOOL COTTON MARKET.—*Report for the week ending June 6.*—Our Cotton market experienced a decided, but as it subsequently turned out, only a momentary check, on the arrival of the Boston steamer, on Saturday last. Two or three days of quietness ensued, and in some instances at the most depressed moment, sales were effected at ¼d decline from the previous currency. But on Tuesday, the demand was renewed by the trade with much confidence, and we close the week under a reduced quotation of not more than ¼ ⅛ ₰. 1750 American have been taken on speculation, and 1330 American, 130 Pernams, and 250 Surats for export. 1000 Madras, 2000 Surat, 700 Carthagena, and 300 Egyptian, are declared for auction, on Friday next. The sales of the week amount to 29,000 bales.

From the Circular of the United Brokers.

The trade have taken a fair supply of Cotton during the past week, but the pacific character of the news brought by the Hibernia, on Saturday last, together with the heavy impending import, have induced holders to offer their stocks freely, and the prices of American description, more especially of the common and middling qualities, are fully ¼d ⅛ ₰ lower than on Friday last. Brazil, Egyptian and Surat are also rather easier of purchase.

From the Circular of Messrs. George Holt & Co.

Report for the week ending June 13—At the beginning of the week we rather lost ground—the demand being limited to a moderate supply for the trade, and the market generally dull. Since Wednesday, a change has come upon us; the sales being from 8000 to 10,000 bags daily, and prices fully supported. Those decidedly good state of things in the manufacturing districts, and the promise of its continuance, assisted by the present fine weather, has had to do with this favorable turn in our market; it is indeed, so far as we can learn, the only cause of the reaction. The Boston steamer of the 1st arrived this morning. From her accounts there seems to be no news from the United States likely to affect the Cotton market either way, except the agitation of the question of the Annexation of Texas may have that bearing. 8000 American and 100 Egyptian have been taken on speculation; 2500 American, 100 Pernam, and 500 Surat, for export. Sales of the week amount to 43,870 bales.

From the Circular of the United Brokers.

The market opened with a fair demand, which has increased during the week. Prices close without change, the recent imports being so freely offered.

Report of the Cotton Market, June 13.—The demand for Cotton is kept up with much steadiness, and some degree of animation. Both at the close of last week and up to this moment it has been the case. The result is a slight hardening in prices; it is, however, in so limited a degree scarcely to justify a raised scale of quotations. The sales on Saturday were 6000 bags, on Monday 8000, on Tuesday 6000, and to-day 10,100. Visitogether 32,000 bags in the four days. To-day 3000 were taken on speculation.

LIVERPOOL MARKET.—*Corn.*—Our market has been dull for all articles, and the sales made have been merely to meet the wants of the current consumption, without any disposition tospeculate on the part of the dealers. The prospects of the growing crops are now considered very favorable. The markets on the continent have been much excited by the cold weather which was known to have prevailed in the united kingdom in May, and a very considerable advance had taken place in wheat in consequence

Iron.—The Iron trade, which a fortnight ago was in a languid and declining state, has undergone a complete change and is now full of life. Scotch Pig Iron, which could find but few purchasers ten days ago, at 57s 6d to 58s per ton in Glasgow, is now eagerly bought at 77s 6d, and 80 shillings is generally asked; in Liverpool the price is 65s to 68s. An advance of 5s to 10s per ton has been made on forged pigs in Staffordshire, and several of the largest works there have been standing for the last 5 weeks, in consequence of some dispute between the workmen and the employers. The impression among the Welch makers is, that the trade has got to the turning point and that prices will improve. Present quotations in Liverpool are, Common bars £8 10s; best Refined £12; Hoops £10 10s; Sheets £12. per ton.

Ashes—Continue in very moderate demand, but holders have lowered their rates 6d to 9d per cwt. Some operations in Pots have taken place at 22s 9d; in Pearls there has been nothing of consequence done.

Linseed Cake Having fallen in price to £5 10s to £6 per ton, some purchases were made by parties in the trade, to holders till next season, and the market has been cleared of stock chiefly at the latter figure.

Oils—There has continued a good demand for Olive Oil, at the prices paid last week; the sales amount to about 150 tuns. A few tuns of Cod Oil have been sold at £30, and £31 is now required for the small quantity remaining on hand; pale Seal is steady at £31 10s @ £32 per ton. In Seed Oils there is no alteration to notice.—Oil of Turpentine is tolerably steady at the late quotation, but the distillers evince a little more desire to effect sales. Palm Oil has again been in brisk demand, and at rather better prices; including about 300 tuns to arrive, (and daily expected,) the sales of the week exceed 1200 tuns, at £26 @ £ 6 10s per tun, and higher rates are now demanded.

Salt—The demand for Salt at present is very good, and equal to the supply at present prices. There is more doing in common than in other descriptions, and the market remains without change in quotations, which are as follows:—Best fine stoved, in bags, 12s to 13s, shute lumps 14s @ 15s 6d; marine and fine butter 8s 6d @ 9s; River freight 3s; dock and town dues 9d.

Seeds—The speculative demand having subsided, there have been no transactions during the last fortnight; prices consequently remain as last quoted.

From the Circular of Messrs. J. & C. Kirkpatrick.

LIVERPOOL PROVISION MARKET.—Since our advice of the 3d inst., the arrivals of American produce generally have been unusually light, and the sales have also been more limited than customary.

The market for *Beef* and *Pork* has been wholly without animation, and hardly a transaction has taken place in either article. Our last quotations are, however, still maintained, and should the imports during the remainder of the month not be unduly large, the dealers will be obliged to come into the market at present rates.

Cheese continues to meet a free sale, and notwithstanding that the import has been larger than we were led to expect, all parcels were taken off the market on arrival at 50s to 53s ₰ cwt; which prices are fully equal to, or even better than, our former quotations, taking the inferior quality and condition of the late arrivals into account. Those rates must not be reckoned on, however, for future shipments, as the market for new English is opening at rates much below those of last year, with every prospect of a low range of prices during the coming season.

Fine leaf Lard, in barrels and kegs, has still a ready sale, especially the latter, at 40s to 43s ₰ cwt, but the inferior and secondary sorts are dull and 1s lower; 33s to 37s 6d being the present currency for such.

Grease Butter is wanted, and would sell fully at 42s to 44s ₰ cwt.

Tallow is again higher, with a good demand, the inquiry for all descriptions having been more general for some time past, and 40s has been obtained for some prime parcels of North American.

LONDON MONEY MARKET.—There has been no material change since our last in the price of British Funds: Exchequer Bills are heavy, and prices have fallen to 59s to 61s, which is the price of to-day. The very favorable state of the weather gives promise of a good harvest, and consequently a continued abundance of Money. The settling of the accounts has occupied so much of the attention of the dealers this week, that business has been dull, and scarcely any bargains are reported.

The following are the latest prices:—Consols for the opening left off 90¾ to ⅞; Bank Stock, 211 to 212; Exchequer Bills, 59s to 61s premium; Three per Cents Reduced, 99¼ to ½; Three-and-a-Quarter per Cents, 102¼ to ½; Long Annuities, 11⅛; and India Bonds, 74 to 76 premium.

HAVRE, June 15.—*Cottons*—Our market, which had during the last week, relapsed into a dull state, has, throughout the present one, been characterised by a good degree of activity, the unfavorable state of the weather having, for a long lapse of time, acted as a considerable drawback on the consumption of light clothing; the operations for the interior had, therefore, been on a most restricted scale; but the fine weather having suddenly set in, with an appearance of its continuation, has induced dealers from the trade to come boldly forward, and also been productive of a slight speculative feeling. The demand, since our last report, has therefore greatly revived, and been uninterruptedly good; the buying has been spirited, the sales averaging daily 2000 bales, with a decided improvement in prices, which have advanced fully 1 on ordinary descriptions, and ½ on middling and superior grades. Upon the whole, business has assumed a much more healthy aspect within these few days, although the accounts from Liverpool have not been of a nature to impart any very marked character to the transactions. We have been put in possession of advices from the United States of 21st, via England, which contained nothing of a new complexion. The following sales were effected from the 7th to the 13th June:

6,675 bales New-Orleans	duty paid	f. 51.—	75.—
4529 " Mobile	"	" 54.—	75.—
4218 " Upland	"	" 54.—	68.—
47 " Cayenne	"	" —.—	82.50

13,669 bales.

Ashes—We have no change to notice in American Pot Ash, and 100 bbls 1st brands 184⅓. In loco, were taken at 34f 25; a lot of 150 bbls deliverable in August was sold at 34f 50, per 50 kil. duty (8f. 25) paid. Pearl Ash, however, has declined, and 125 bbls partly to arrive, were disposed of at 37f. for home use. No supplies have come in this week.

Rice—There has been a fair inquiry in Carolina Rice, and 574 tierces were run off at 24f. to 29 ₰ 50 kil. duty (1f. 21½) paid.

Whalebone—The only sale to report is a lot of 2 tons American Southern fishery, at 2f. 90 ₰ ½ kil. duty paid. We quote North Western at 2f. 75 to 2 80. Stock on hand 75 tons, against 23 tons last year.

Lead—We have to record sales of 2,600 pigs Missouri Lead, exported by the Rubicon, at 24f. 50 ₰ 50 kil. duty paid. The imports were 589 pigs ex Francis Depau from New-Orleans, and 535 pigs from London.

Tallow.—Prices of Russia Tallow are well supported, but buyers seem to direct their attention more particularly to lots for delivery at the fall of the year. The sales effected were 60 casks, in loco, at 56f for old, and 52f to 52f 50 for new Tallow, and 175 casks to arrive in the first three months of the year, at 55f. 75 to 56 25 per 50 kil. duty paid. The Francis Depau, from New-Orleans, had on board 50 casks.

☞ **Dr. Banning's Patent Lace or Body Brace.**—This instrument is designed to relieve dyspepsia, weakness and pain in sides, sense of "fullness" in the stomach, constipation, bad piles, weak lungs, cough and spitting of blood; palpitation of the heart, weakness of the hips and limbs; stooping of the body, with curvature of the spine and enlargement of one shoulder, particularly in children and young ladies; also female debility and weakness of voice. Students, Clerks, Students and others who keep the bent attitude, has much immediate comfort from its use. It operates by exercising the whole pile of organs, (which have descended from muscular weakness) and maintaining them thus by its lifting flexibility. BARTINE'S LOTION—The most Extraordinary Discovery of the age.—The Proprietor, in placing this wonderful preparation before the public, is aware of the many difficulties in his path, yet he does most confidently say to all afflicted with Bruises, Rheumatism, Gout, Swellings, Burns, &c.—try Bartine's Lotion. A cure is warranted, or no relief, no pay. As an internal relief for all hypochondriacal affections, it is unrivaled; and all diseases of the skin yield science to its efficacious properties. Call and read the countless bona fide certificates of its merits.

This is to certify that several of my friends have used Bartine's Embrocation for rheumatic affections, sprains, &c. and they have experienced great benefits therefrom, and some of them a final cure. I can earnestly recommend it, having witnessed its effects, and have no doubt, if the directions are followed as expressed upon each vial, but that it will give general satisfaction to all who use it. It is a medicine that no family should be without, as a remedy for the many evils that flesh is heir to. J. SHERMAN BROWNELL,
