THE LOST CARAVAN.—The steamer Gen. Brooke brought down the Missouri river two persons belonging to one of the companies of Oregon emigrants. The company to which they were attached was very small, and after leaving Iowa lost its way in the prairies. It has concluded to encamp at the mouth of the Vermillion river until next Spring, when it will resume its journey, if able to do so. The Indians, it is feared, will in the mean time steal all the valuables belonging to the company.

COMMERCIAL AND MONEY MATTERS.

SATURDAY, P. M.

The Market was rather quiet to-day. The fluctuations were not material.

In the Bill Market there is no change. Sterling 9½@10, Francs 27⅞.

The specie in our City Banks exceeds by $800,000 the amount in vault at the time of the last quarterly report, showing a constant tendency of the precious metals to this point, more than sufficient to counterbalance the direct shipments from this port. We believe the reports of the Banks will show a slightly increased movement as compared with last quarter.

The Exports from this port last week were $439,896, of which 349,515 was in American vessels. The total export of specie for the month were, $188,095. There were

Mr. President Leavitt was at Buffalo on his way home a day or two since.

The Albany Exchange Bank has declared a dividend of 3½ per cent. on the capital stock, to be paid on or after the 12th inst.

The Commercial Bank of Albany has published a statement of its condition on the 1st of August. The following are the leading items:

Loans and discounts	$610,885 98
Specie	16,671 82
Bank notes	118,530
Deposits	236,763 27

The amount of Treasury Notes outstanding on the 1st inst. was $776,264.

The whole amount of Government funds subject to draft, in the Government Depositories on the 28th July was $7,007,810. The amount at the time of the May report was $8,211,000. The amount on deposit in this city, is $2,456,736 against $2,236,342 on 23d June.

A magnificent engine has just been put on the Long Island Road. It was built by Hinckley & Drury Boston, and it is the largest one ever built in this country for passenger trains. Its weight, in running trim, is seventeen tons. It has four driving wheels of a little more than six feet diameter. The boiler cylinder is 40 inches diameter—number of tubes, 121—diameter 1¾ inches, and 10 feet and 8 inches in length. Cylinder 14½ inches, with 21 inch stroke. Cost of the engine $7,500. Mr. Drury calculates that, with an ordinary train, it will easily run 40 miles an hour; and if put upon its metal, 60 miles. It is named 'The Boston.'

By the new avenue of connection between New-York and the West, the Toledo Canal, which we alluded to a day or two since, 200 packages of merchandize were received at Cincinnati on 29th July in 17 days from New-York, at a cost of $1 20 per 100 lbs. The insurance by this route is only ¼ per cent. This line will undoubtedly attract the attention of Western merchants, and tend to secure to New-York still more of the Western trade than she now enjoys.

The imports of Coffee at Philadelphia during July were 13,553 bags; Sugar, 735 hhds. 202 bbls. and 2,500 bags, and Molasses 1,417 hhds. and 670 bbls.

The amount of net revenue received into the Treasury of Boston during the year, including the balance remaining from the preceding year, was $1,078,057; the payments amounted to $869,575; and the balance in the Treasury, May 1, 1845, $130,872.

The principal sources of revenue were direct taxes which produced $720,001; lands, bonds and mortgages $112,644; and rents, $52,595. The amount of taxes assessed in 1844, was $744,210; of which $710,701 were assessed on real and personal estate, at the rate of 6 mills on a dollar of the valuation. The valuation of real estate was $72,048,000, and of Personal, $46,402,300; total, $118,450,300. There was besides assessed on 22,339 polls at $1 50 each, $33,508.

The payments on account of public debt and interest were $345,935.

At Baltimore money continued abundant. State Loans dull. Six per cents. 76¾@77. Coupons 78@79½.

Of the stock of the Oswego and Syracuse Railroad about $150,000 has been subscribed on the line.

At Pittsburg the money market was very easy.—The Banks which have been receiving the notes of the Brownsville, Washington and Wheeling Banks at par now throw them out, and they are at ½ per cent. discount.

The Whitewater Valley Canal is now finished to Connersville. There are six water powers on the line. Of the Capital Stock $432,000, there has been paid in $294,945 03. Tolls have increased 40 per cent. over the previous half year. Of the Real Estate originally conveyed to the Company, $46,752 79 remains on hand; of which amount $42,696 29 is for sale, the balance being retained for water power. The whole cost of the work so far amounts to $359,682 33. The Company appears to be in a good condition.

FLOUR AND MEAL.—From yesterday we have no change to notice in Flour. The inquiry for fresh brands Genesee is good, and this description will bring 4 31½@4 37½. The lot of new "Hiram Smith," noticed yesterday, came through on the Merchant's and Miller's Line Boat, Orleans, (Thos. Pearce & Co. Rochester, proprietors,) in the remarkably short time of six days. We hear of nothing doing in Southern, but there was some inquiry. The parcel of new Brandywine received, 300 barrels, is all sold at 4 75@4 87½.

GRAIN.—Several small parcels of new Wheat were on the market, and about 2500 bushels North Carolina sold at 85 cents for milling. A parcel of 500 bushels Genesee also changed hands, on terms not made public. For Corn there is a fair inquiry, with moderate supplies. Sales 2900 bushels Southern Corn at 50 cts, weight, and 400 do New-Orleans, heated at 48 cents, weight. Northern is held at 55. Sales 500 bushels Rye in the slip at 68 cents. Oats are 43@44 cents for Northern; 38@40 for Southern.

WHISKY.—For Prison barrels 22½ has been refused. Sales 100 bbls common at 22½ cents.

PROVISIONS.—There is a better demand for Pork today, and prices of all descriptions are buoyant. Of old Prime 600 barrels sold, supposed, at 9 @11 or over, and 200 or 300 barrels new Sour at 9 50. New Mess is held at 13 18¾, and 13 12½ was refused for a parcel. Sales 400 barrels, supposed at 13 12½. A prime lot of Dutchess County "Leland's," 500 barrels changed hands at 13 75. The Prime of the mass lot sold a day or two since at $11 00. Lard is in demand and very firm. Sales at Boston for this market of 1000 kegs at 8 cents, 10 per cent. tare. We notice a sale of 20 hhds Smoked Shoulders at 6¾ cents.

GROCERIES.—*For three Days.*—The market for Sugar is very firm, and with an active demand from the trade, and continued favorable advices from abroad, prices of New-Orleans are fully ¼ of a cent higher, and generally they have an upward tendency; several parcels have recently been withdrawn from the market. The sales are 250 hhds Porto Rico, for export, on terms we did not learn; 280 do, to arrive coastwise, 7¼@7¾ cents; 350 do on the spot, 6¾@7¼; 150 St. Croix, 7¼@8¼; 550 New-Orleans, 6@7; 100 boxes White Havana, 11; 180 Brown do 9; and 150 bags White Brazil, 9¼, 4 months. Molasses continues inactive, with farther sales of 300 hhds Porto Rico at 26@28 cents, 4 months; and 250@300 do Cuba, for distilling, on terms not transpired.

METALS.—Some sales of No. 1 Scotch Pig Iron have been made at $31, 6 months, from ship—say 150@200 tons; and an invoice of Swedes brought $80, 8 months, from the vessel. The stock of Missouri Lead is reduced, and with an increased demand, prices have an upward tendency; 1700 pigs, part to arrive, sold at $3 62½; 2000 do $3 75, cash; and 1800 do for export, on terms not made public. By auction, 25,236 lbs Spelter, saved from the fire, sold at 4¼@4¼ cents, cash.

DYEWOODS.—The transactions of the week have been moderate, and confined to 50 tons St. Domingo Logwood, at $17 75; 50 do Jamaica, $16; 30 do Campeache, $26 50; and about 30 do prime Cuba Fustic, $30, cash. Nicaragua Woods and Red Woods generally are in but trifling demand.

FISH.—The market is quiet, and we have but to notice sales of 400 quintals Dry Cod at $2 56½, leaving none afloat unsold; 100 bbls No. 2 Mackerel, $10 50@10 75; and 250 do South No. 3, $6 62½; No. 1 and 2 are scarce and wanted. Box Herring are in less request, and Shad are dull.

WHO IS THE COUNTERFEITER?—To screen himself from observation, the detected rogue is always the first to cry "stop thief," evidently on the same principle. A certain "Scotchman" has assailed me in an article wherein he strove to make it appear that I have infringed upon his special privileges as a vender of wash for the Hair, and has the impertinent audacity to call my "celebrated Tricopherous" "a vile counterfeit." This is truly laughable, inasmuch as my best joke of the season, "Sawney" is a most factious "gallant."

The first person who ushered "into this breathing world" a preparation called "Tricopherous" was a Dr. Phyfe, and this same charlatan has the consummate impudence to appropriate verbatim et literatim the Doctor's treatise on the subject, with this difference, substituting his (the counterfeiter's) name instead of the Doctor's; but although he has the audacity to purloin the Doctor's Treatise, it is by no means so certain that he had intelligence enough to concoct the compound to which it refers. Justly and truly may his deleterious compound be called a vile imposture upon that of Dr. Phife's.

The reputation of my "Tricopherous," which this fleck headed but facetious plagiarist styles a counterfeit, is based upon unimpeachable testimonials of its efficacy as a sure cure for Baldness, Scurf, Dandruff, and all diseases of the Hair. Sawney's counterfeit, on the other hand, requires bolstering with scurrilous and defamatory advertisements to make it sell—a sure proof that his is the genuine "vile counterfeit." There is another difference between his "vile counterfeit" Tricopherous and mine, viz: he sells his at *one dollar* per bottle, whereas I sell mine original and genuine at 50 cents, and my sales exceed his more than 500 per cent. but I will let him share in the good mean time with this parting advice to "Sawney" never have the effrontery nor barefaced daring to talk of "vile counterfeits" until you restore to Dr. Phife the credit of his invention. The original and genuine Tricopherous to be had only at

A. C. BARRY'S, 146 Broadway.

☞ **Clirchugh's Tricopherous.** Caution to the public. Absolution from the sin has prevented V. CLIRCHUGH from never cautioning the public from a vile COUNTERFEIT of his celebrated "Patent Tricopherous," for the human hair; and he is now only called upon to notice it in consequence of several ladies and gentlemen having had their hair entirely destroyed by its use, under the impression that it was the genuine. The counterfeit has been foisted on the public under the same name, and the impositor has further added to the deception by copying Clirchugh's advertisements, bottle labels, directions for use, &c. &c., thus giving all the outward appearance of the genuine Tricopherous.

Clirchugh's Tricopherous is secured to the public by Letters Patent of the U. S., and no one dares use the same ingredients of which it is composed. Those who wish to preserve their hair will observe that Clirchugh's principal office is 205 Broadway, up-stairs, corner of Fulton-street, where all diseases incident to the skin or the head are treated successfully.

The wrapper of each bottle bears the name of the patentee, "VAIN CLIRCHUGH," written on it, without which it is counterfeit. au2 3tis.

Members feeling interested in the nomination of good and efficient men are requested to attend punctually at 8 o'clock.
