THE SCHEME AND THE RIDICULOUS.—What is more ridiculous than a man or woman with a pimpled nose, a fiery red face, a bald head, red hair, a yellow skin, or bad, dry rusty hair, or pimpled, freckled or disfigured skin?

But what can be more sublime than to see them giving themselves a healthy, spotless skin, clear and beautiful, by the aid of a cake of Jones' Italian Chemical Soap, and a fine soft, clean, dark head of hair, by using a 75 shilling bottle of Jones' Coral Hair Restorative. Both these articles can be had genuine only in this city at the sign of the American Eagle, 82 Chatham-street, or 521 Broadway, and 139 Fulton-street, Brooklyn. au15 2teod

DR. CRISTIES' GALVANIC RINGS AND MAGNETIC FLUID.—The advertisement in relation to this new and remarkable discovery will be found on the First Page. Be not deceived by pretending *spurious articles*. The only place in New-York to obtain the genuine Rings and Fluid is at 131 Fulton-st (Sun Building.) Only Agent in Brooklyn, James W. Smith, Druggist, corner Fulton and Cranberry-sts. All imitations sold elsewhere are base and worthless counterfeits. au18 6t

☞ In again calling the attention of the public to Schenck's Pulmonic Syrup, we do it with the greatest confidence in the medicine. Perhaps there is no medicine ever offered to the community sustained by so numerous and respectable a number of certificates as this. Mr. Schenck has given his whole time for years past to the investigation of diseases of the lungs, and at much labor and expense prepared a treatise describing the insidious encroachments of Consumption in all its various attacks, which he very generously offers to the public gratis. To be had at his office, No. 4 Courtland-st, a few doors below Broadway. au8 6teod*

COMMERCIAL AND MONEY MATTERS.

For Commercial and Money Matters, see Last Page.

SATURDAY P. M.

The Stock market was heavy to-day and prices are still lower. The decline has not alone touched the fancies but Government securities show a falling off of 1 @2 per cent, within the week. The amount on the market is considerable.

There is but little doing in foreign bills, and the market is without change. We quote on London 110@110¼, Paris 5f. 25@5f. 23¾; Amsterdam 39¼@39¾; Hamburg 35¼@35¾; Bremen 78@78¼.

The French packet took $55,000 in specie.

The Cambria, at Boston, for Liverpool, had 84 passengers and 10 for Halifax.

There appears to be a growing impression in Wall street that the War fever ran too high on Friday considering the foundation there was for it. By some the document purporting to be issued by the Secretary of War is looked upon as a forgery, and it is indeed rather suspicious that although we have several days later advices from the City of Mexico nothing is said of this important bulletin. Another suspicious circumstance is that this Document did not appear in the New-Orleans papers until two days after the schooner Relampago arrived and that only one paper, and that one among the prominent journals of the City, received the number of El Siglo containing it. It was copied the next day by the leading journals without the expression of a doubt of its correctness, and this circumstance perhaps gave a great appearance of authenticity to it. It may be a genuine document, but it certainly has some doubtful features about it; and the failure of the Mexican Congress to follow up such a belligerent manifesto with action, adds to the doubt cast upon it.

The public is still waiting, not without manifesting some importance for the favorable action of the Board of Directors, who have the great work of building the Erie Railroad in their keeping. The anxiety increases to know who is to be the President of the Company, for on the energy, the zeal, and high standing of the man to be at the head of its affairs every thing in this crisis will depend. James Harper is the President *pro tem.* only, being unwilling to take the burden of an office in addition to his business, but we have been expecting he would waive his objections and yield to the wishes of his friends and the public, and consent to hold on to the end. It was at first announced that he had been elected the President to serve permanently, and the choice was almost universally approved. We regretted to learn, as we did soon afterwards, it was only a temporary appointment.

We are aware that the ordinary considerations, such as the salary or the want of employment would be to him no inducement. He is already engaged in an extensive and lucrative business. But this is a public matter, and public considerations appeal to him to make considerable sacrifice. We hope he may yet be induced to yield to the wishes of his friends and to the wishes of the public so strongly expressed as they have been. He would give it the energy and zeal wanted to carry it through successfully; and he would be supported by men who would not stop till their efforts had sent a train of cars from the river to the lake.

The time has now come when the public expect some favorable movements will be made, and we hope there will be no disappointment.

We understand that there is to be a meeting of the Board on the 25th inst.

In relation to some charges made by an opponent of the Reading Road against the management, The Commercial of this Evening, says:

"We are also authorized to say that the working of the road so far this year indicates that the cost of transportation, including repairs of engines and cars for the year 1845, will not exceed the estimate of the engineer, set forth in the last annual report; and that, so far from there being a daily, weekly or monthly issue of bonds, the bonded debt of the Company is less now than it was on the first of December, 1844."

The dividend of *three and a half* per cent. made by the Bank of Louisiana, will be paid to the New York Stockholders, less the exchange, on and after the first instant.

The Exports from this port for the week ending 14th, were $630,981, of which $374,448 was in American vessels.

The clearances were 38, 18 American and 20 Foreign, and the arrivals 47, 28 American and 19 Foreign. Passengers arrived, 2128.

The Imports at Boston for July were rather larger than for July of last year:—

	July, 1845.	July, 1844.
Dutiable	$2,483,898	$2,064,007
Free	300,572	428,739
Specie	17,478	32,216
Total	$2,801,948	$2,525,022

The amount of duties received were:—

	July, 1845.	July, 1844.
American	$600,320 65	$524,907 89
Foreign	171,121 53	187,869 37
Total	$771,412 18	$712,077 26

The Suffolk and Tremont manufacturing corporations have each declared a semi-annual dividend of ten per cent.

The Baltimore Fire Insurance Company have declared a half yearly dividend of five per cent.

The extensive Montour iron rolling mill at Danville, Pennsylvania, has gone into operation. It is intended for the manufacture of Railroad iron.

At Baltimore Maryland 6's have declined 1a1¼ within the last few days. Money during the past week has been more in request, and the banks generally, have increased their discount lines to some considerable extent. Negotiations of fair paper out of bank are also more extensive, but are made, however, without much difficulty. Coupons 80 cents, in sums to suit tax payers, and 79 cts. at wholesale—demand quite fair.

At Pittsburg the market is in about the same state as last week. Uncurrent Notes are about the same. Eastern Exchange rates at the same, ½ per cent. premium for specie or specie funds.

The Baltimore American says—in every county of the State the revenue laws are now in progress of successful operation, and, with the means already accruing there appears to be no doubt of the State's ability to resume payments on her debt at an early day after the next session of the Legislature. The American thinks, under any circumstances, it is next to impossible that another year should pass without a final adjustment of our financial affairs upon the basis of restored credit.

The postscript to a letter received at Norfolk, dated Frederick, Md., August 14th, says—"that Messrs. Corcoran & Riggs, of Washington, are to *finish the Chesapeake and Ohio Canal to Cumberland.*"

At Baltimore, Exchange on London was 9½@10. At New Orleans business in exchange very small. Sterling 9½@10. France 5 30@5 27½. Sight, on New York ¼@¼ premium.

The sales include 400 hhds New-Orleans at 6¼@7¼ cents; 200 St. Croix, 7½@8½; 200 Porto Rico, 7¼@7½, 4 months; and 60 do for export, $4 81½, cash, ℔ 100 lb, short price. An invoice of 8371 bags Manilla, has arrived. Sales Molasses have been made of 150 tierces New-Orleans, to go out of the market, at 29 cents; 50 hhds prime, 30; 250 Porto Rico, 26@28; and 50 St. Croix, 29½@30, 4 months. RICE.—There is a better feeling in the market, and sales at an advance on our last week's quotations have been effected. The light stock, and advices from the South, have tended to render holders firm. The sales reach about 600 tierces at $3 75@$4, including two parcels of about 300 tierces each, on terms not transpired. We quote $3 50@4 25, as the extremes of the market.

SALT.—We notice sales of 7500 bushels Crooked Island at 25¾ cents, cash; and 1974 sacks ordinary brands Liverpool Fine, 1 35@1 37½, 4 months; the receipts have recently been light, and rather higher rates could probably now be obtained.

DYEWOODS.—The sales embrace about 120 tons Jamaica Logwood at $16; 120 tons Campeache, $26@$27; an entire cargo of Laguna, $22; some St. Domingo, $17 50@$17 75; 50 tons superior Maracaibo Fustic, $15; and 40 tons Tobasco, $20, cash.

HAY.—The market for Eastern is steady at $1 37½@$1 40, cash, and $1 43¾, 90 days, at which a few cargoes have been sold.

LEATHER.—The sale of Hemlock Sole, on Thursday, is perhaps as low as any that has been made in many years, and, although the quantity sold was large, (9360 sides) a reduction of about one-half a cent ℔ lb was subtritted to on the sale of last week, and 1@1 cent compared with that two weeks before. Messrs. T. & R. Stout will offer 5000 sides on Thursday next, 21st inst. at their store, 51 Ferry-street.

LIME.—The receipts of Thomaston being very light and the stock in second hands nearly exhausted, prices have advanced 5 cents; the sales during the week reaching some 5@6 cargoes at 76@80 cents, closing at the latter rate. ☞ **Fact.**—That the people are irremediable sufferers by the dangerous counterfeit of *Dalley's Magical Pain Extractor.* Mr. Dalley will be cheated out of some sales; but the people will endure pain, blindness, death and infirmity by it. A husband who loses a child or wife by using the base for the true article, &c. see them suffer inescribable agony and be disfigured and impotent for life, (which the true could prevent) will confess himself the heavier loser of the two, and in season inflict just punishment on the one who imposes it. To compare loss of money with loss of life is odious; money may be replaced, but perfection and loss of life never can. Then cursed among men be the fiend who seeks money and destroys life.

H. Dalley is written on every box of the true. Sold wholesale and retail at 128 Fulton-street, Sun building, New-York. au15 3tis*

☞ **To Officers of the Army and Navy,** Sea Captains, and others.—One of the most necessary articles to those whose pleasure or business calls them from home, and who are compelled to be their own barbers, is a good emollient Shaving Cream. Such a preparation is now presented superior to any ever before offered to the public. It is Henry's Chinese Shaving Cream.

It certainly removes all that irritating smart after shaving, and takes away all roughness or pimples from the skin. The articles from which it is composed are of the most emollient and healing nature, and the Chinese Cream can truly be said to be a perfect luxury to those who shave themselves. Price 50 cents.

Prepared and sold by A. B. SANDS & CO., Chemists, Druggists and Perfumers, 273 Broadway, cor. Chambers-st, in the Granite Buildings. Sold also at 79 Fulton-st, and 77 East Broadway. au13 1meodis

☞ **For Removing Stains from the Hands.**—This is a newly-invented compound for the use of Bookkeepers, Clerks, Hatters, Dyers, Tanners, Coppersmiths, Tinners, Goldsmiths, Foundry-men, Shoemakers, Saddlers and Housekeepers generally, and all other persons liable to have their hands stained *from any cause.* PERRY'S ERASIVE will *instantly* remove any Stain, Ink-spot, Dye, Tan or unnatural color of any kind from the hands, feet, arms, or from the face, in the most complete manner, and without injury to the most delicate skin. It is a preparation softening and unctuous as cold cream—contains no corrosive acid or alkali—and leaves the Skin where it has been applied as soft and smooth as Nature intended it should be.

Sold wholesale and retail only by A. B. SANDS & CO. Chemists, 273 Broadway, cor. Chambers-st, 79 Fulton-st, and 77 East Broadway. Price 37½ cents. au6 6eodis

☞ **Red or Grey Hair**—It is, perhaps, a commendable deception to give a beautiful color to the hair, if Nature has not done so—or hide premature grey curls and locks.—Some prefer a jet black, others a glossy auburn. In either case the "Italian Hair Dye" will accomplish this without even soiling the skin. It is used by hundreds of our fashionables with approbation. Prepared and sold by A. B. SANDS & CO. Chemists, 273 Broadway, corner Chamber-street.—Sold also at 79 Fulton-street, and 77 East Broadway. Price 50 cents. au13 1meodis

☞ **Beekman's Original Genuine Pulmonic** Syrup.—This celebrated remedy for the cure of consumption, colds, coughs, diseases of the lungs, liver complaint and dyspepsia, can be had, as usual, at the old established office of the proprietor, No. 424 Courtland-street, one door below the corner of Greenwich-street.

Please bear in mind that No. 424 Courtland-street, is the only place in the city of New York, where the genuine medicine can be obtained. [ly24 1etf] P. S. BEEKMAN.
