COMMERCIAL AND MONEY MATTERS.

☞ *For Sales of Stocks, see Last Page.*

MONDAY, P. M.

The panic occasioned by the failure has subsided and to-day the tendency of the market was upward. At the close the feeling was very good.

The Exchange Market is steady but not very active to-day. Sterling is 9¼ @ 10; Francs 5 25 @ 5 22½.

The Money market is easy and the rates of interest are as before noted. The Banks have a fair amount of offerings and keep their lines up at 6 per cent. Stock loans of the best character are 5 per cent,

There will probably be no change in the Direction of the Stonington Railroad.

We learn that the Commissioners for obtaining subscriptions to the Oswego and Syracuse Railroad will visit this City during the week in the hope they will be successful in obtaining the $150,000 required and that they will not be obliged to go to Boston for funds to build this important link in the Western chain of roads. Eastern influence governs the entrance of our State at Stockbridge and exit by the Attica and Buffalo Road. It will be suicidal to permit the Railway that is to assist in competing with the Boston and Ogdensburg Railroad to be under the influence of those who would turn trade and travel from New-York by a high rate of tolls.

A man named James Clark was arrested at Maysville, Ky. on Wednesday last. He had in his possession about $700 in spurious three dollar bills on the Bank of Kentucky.

The Chesapeake and Ohio Canal Company have entered into a contract with Walter Gywnn, Wm. Beverhout Thompson, James Hunter and Walter Cunningham, for the completion of the Canal to Cumberland within two years from this time, and the agents of the State of Maryland have approved the contract. The work is to commence in thirty days from the 25th inst. It is said the sum stipulated to be paid is $1,700,000, being the par value of the bonds authorized to be issued by the Company, by the last act of the Legislature.

The Pennsylvania Reporter states that the Directors of the Harrisburg, Portsmouth and Lancaster Railroad Company have concluded an arrangement with the Montour Iron Company of Danville, Pa. to furnish several hundred tons of T Railroad Iron at $70 per ton, for the new track which they contemplate laying as soon as the rails can be furnished.

The Baltimore Sun speaking of the condition of the Money Market in that City last week, says, "We have no change to note in money matters, the rate being uniform at 6 per cent. The offering at Bank are not excessive, and discounts are made freely and without apprehension. Settlements for balances in coin occur rarely, and there is no movement of specie northwardly. Inland Exchanges are easily negotiated, and at slight variation from par and the currency.

At Louisville Eastern Exchange was in demand at 1 per cent. Money was plenty and the Banks doing all the good business paper offering.

The Auditor of Hamilton County, Ohio has made a corrected abstract of the taxable property of the county, for 1845, by which the whole number of acres of land appears to be 247,5944, valued at $3,120,620—value of city lots and improvements in Cincinnati, $6,159,890, and the total amount of taxable property in the county, $12,441,092, being $1,389,104 more than was returned for 1844.

Counterfeit one dollar bills on the old Mohawk Bank at Schenectady, are floating plentifully about in the Western part of this State.

One of the Directors of the Toronto and Lake Huron Railroad has been spending some weeks in Rochester, after traveling weeks in the States bordering upon the Westgrn Lakes, for the purpose of ascertaining the patronage the road might be expected to derive from that source, and also for ascertaining the best point for a Western terminus, and the one best calculated to secure the largest amount of the trade and travel of the great West." We learn from the Democrat that after a careful inspection of all the proposed points, with a view to establish the most popular and lucrative route, he became satisfied, that by making Port Sarnia a terminus, they would combine more of the objects they had in view, than by fixing it at any other point.

New-York Cattle Market, Sept. 9.

The receipts of Flour and Wheat at tide water for the third week in September are as follows:

	Flour.	Wheat.
....bbls	71,514	bush. 55,773
"	77,070	" 70,871
Increase	5,556	Increase 25,098

The aggregate receipts of Flour and Wheat, from the opening of canal navigation in 1844 and 1845, to the 22d of September, inclusive, are as follows:

	Flour.	Wheat.
1844	bbls 1,347,559	bush 733,090
1845	bbls 1,261,696	bush 415,762
Decrease	85,863	307,328

By reducing the Wheat to Flour it shows a diminution in the receipts at tide water during the present year, compared with 1844, equal to 147,329 barrels Flour.
[Evening Journal.

BURGESS, STRINGER & CO.

222 Broadway, corner of Anne-st and all Book-sellers and Periodical Agents in the city.

"Mrs. Mowatt is well known as the author of the Comedy of 'Fashion,' and as a prominent contributor to the various periodicals of the day. The present novel is in every way worthy of her reputation. The style is flowing and sparkling, well adapted for narration, and full of spirit and grace. The plot is deeply interesting and is developed with great skill and boldness. The passions are represented with much power. The characters are well drawn, some of them displaying an insight into the heart at once keen and comprehensive.

"Evelyn, the heroine, is delineated with most graphic skill. The whole novel evinces more mental resources than usually characterize works of the kind. Some scenes are wrought up with tragic force, and there are passages of exquisite pathos. It is a work which will outlive the ephemeral romances of the day, for it is grounded deep in human passion and affection.—[Graham's Mag s29 2t

OF KAUFMANNS Mackeldey, Compendium of modern Civil Law—From the 12th German Edition. In two vols. Vol. 1 New-York and London, 1845, (entered in New-York at the Clerk's office of the D. C. of the U. S. and in London at Saitoner's Hall.) To be had at the Editor and Publisher's office, 76 Wall-st. N. Y. and at the principal law bookstores of America and Great Britain. Price per vol.—in sheep binding $6 50; half calf $8 75; calf $7; do interleaved $9; do on fine paper $9; do do interleaved $11.

For the value and importance of the work we refer to the following letter addressed to the editor by the late Mr. Justice Story:—

WASHINGTON, Jan. 25, 1845.

Dear Sir—I have the pleasure to acknowledge your letter of the 22d instant. Most sincerely do I rejoice in the prospect that your noble undertaking may be soon brought to a successful conclusion. The publication of Dr. Mackeldey's admirable work will constitute an era in our study of the Civil Law; and I entertain no doubt that it will, though slowly, make its way among our students at law; and especially among those who are rising into the practice of forensic more than mere county court lawyers. I know no work so well adapted to answer the purpose of an elementary study—none so full, so satisfactory, and yet so concise. And then again the apparatus in the notes is just such as learned men will desire in order to extend their researches and expand their knowledge. As far as I am able to judge, your own labors will in all respects add greatly to the advantage of the original work.

I write in great haste, having only time to say that I remain with the highest respect,

Truly Yours,
Dr. PHILIP I. KAUFMANN, JOSEPH STORY.

A TREATISE ON

DISEASES of the Sexual System, adapted to Popular and Professional Reading and the exposition of Quackery, professional and otherwise, by Edward H. Dixon, M D, author of a Treatise on Leucorrhea and Prolapsus Uteri and various other surgical papers, and Lecturer on the Operative Surgery of the Eye; 12mo. pages 262. Burgess, Stringer & Co. Price $1. Being a complete digest of every known Disease of the Sexual Systems, and the causes of precocity, with the symptoms and treatment of excess, in every class of life; syphilis, gonorrhea, hereditary descent of disease, hydrocele, varicocele, stricture, &c. &c. with the most modern methods of treatment, the whole being perfectly intelligible to every reader.

The Boston Medical and Surgical Journal, a publication of the highest authority, in a notice of this valuable work says: "Dr. Dixon has written upon the subjects of the various branches of Surgery. His book shows a thorough acquaintance with approved modern practice; his acknowledged ingenuity under trying surgical circumstances, his originality and devotion to the rational principles of Medicines make it imperious to look at this book with more than ordinary interest."

The Evening Post says: "Dr. Dixon is a pupil of Dr. Mott, the inventor of a great number of useful instruments; several of which are figured in his book, and a practitioner of fifteen years' standing. It is written in decided language, but with great delicacy and care. It is adapted to unprofessional as well as professional reading, and will doubtless do great good."

HORACE GREELEY.—"It contains no line or word calculated to excite licentious passions, but the contrary every where, and will prevent thousands from rushing into a course of dissipation if seasonably placed in their hands. We hope it will be so published as to give it the widest possible circulation."

By enclosing $1 and paying the postage the book will be sent to any required address in city or country. s26T Th S 1s
