In relation to the assets of the Farmers' Bank of Orleans.

To restore to the General Fund, certain moneys paid for Bounties on Salt, &c. Ayes 14, Noes 11.

For the election by the People of certain Officers in Onondaga.

The Senate also concurred in the amendments of the Assembly to the Erie Railroad bill. So this and the Hudson River Road only await the signature of the Governor to become laws.

Mr. STEWART, of your city, whose vote formerly killed the Erie Railroad bill, changed his vote today, the objection which he had being obviated.—He desires that in justice to himself you would publish the annexed explanation of his course:

Mr. STEWART, when his name was called, arose to say that heretofore he had voted against this bill from an imperious sense of duty, believing as he did that it would be wrong to permit this Road goout of the State of New-York into Pennsylvania, and thereby benefit a rival city to the injury of the city of New-York. But inasmuch as the amendments proposed and accepted by the friends of the bill had become incorporated into it, which amendments left the location under the control of the next Legislature, in case the Company or the Commissioners should disregard the interests of the State, he should therefore vote for the bill. But he felt called upon to make this explanation from a sense of justice to himself, and he hoped those newspapers in the city of New-York and elsewhere who had misrepresented his motives, would have the magnanimity to do him justice. Mr. S. voted for the bill.

FROM HAVANA.—The fast sailing packet brig *T. Street*, Captain McConnell, arrived yesterday morning, bringing us Havana files up to the 24th ult. There is no news of importance. The Ravels would leave for New-York during the first week of May. The English brig Zenobia, Capt Sutherland, arrived on the 20th from Liverpool; she had on board three men belonging to the crew of the American bark Ceylon, wrecked on her passage from Newport, Wales, to New-York about 300 miles West of the Azores. These men were taken from the American bark Apolo, which saved the whole crew of the Ceylon, while on her passage from Antwerp to Havana.

Statement relative to Steamer Cambria.

BOSTON, May 6, 1846.

☞ **By virtue of a Warrant** from Wm. Elliott, Her Britannic Majesty's Acting Vice-Consul, We, the undersigned, repaired on the British Steamer Cambria, Captain Judkins, lately arrived at this port from Liverpool, to ascertain and survey what damage she may have received by having been on shore on Cape Cod, report that after a strict and careful examination of all parts of the vessel, as far as could be got at, both outboard and inboard, including her machinery, &c. could find no signs of her having strained, gunged or otherwise injured herself. And also find that she has made no extra water in consequence of the accident, but remains tight as before. Wherefore the undersigned surveyors are of unanimous opinion that it is not necessary to put her into dock for farther examination, and they believe her to be tight, staunch and strong, and capable of proceeding on her intended voyage without detention.

☞ **Thomson's Compound Syrup Tar and Wood Naptha** will cure Consumption! Yet another cure. PHILADELPHIA, April 8, 1846.

Last August a year I caught a violent cold, in consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern, supposing I should soon get rid of it. On the contrary, however, I daily grew worse; a violent cough set in, then pain in my breast and between my shoulders. I now suffered great oppression from the great secretion of purulent matter in my lungs. I became greatly alarmed, and my friends considered my situation extremely critical, the more so as loss of appetite, hectic fever and night sweats rendered me as weak as a child. At night the sweat literally poured off me. This was my condition when I commenced using "Thomson's Compound Syrup Tar and Wood Naptha." I procured one bottle, and experienced so much benefit that I resolved to continue it. I took in all nine bottles, and am now perfectly restored. It is now six months since I ceased using the medicine, and the cure remains perfect. I firmly believe this medicine is far superior to every other remedy for Consumption of the Lungs.

☞ **Bear's Oil**—Highly scented and pure for the Hair.—Of all preparations for the hair or whiskers, nothing equals the oil prepared from Bear's grease. In most instances it restores the hair to the bald, and will effectually preserve it from falling off in any event. It was long noted by such eminent physicians and chemists as Sir Humphrey Davy and Sir Henry Halford, that pure bear's grease, properly prepared, was the best thing ever discovered for the preservation of the hair, or restoring it when bald. The subscriber has saved no expense in getting the genuine Bear's grease from Canada and elsewhere, and prepared it in such a manner that the oil, combined with its high perfume, renders it indispensible for the toilet and dressing-room of all.
