COMMERCIAL AND MONEY MATTERS.

☞ *For sales of Stocks, &c. see fourth page.*

WEDNESDAY, P. M.

There was a rather better feeling in Wall st. today, probably the result of the digestion of the foreign news, and prices were generally better. The sales, however were not very large.

The business in Exchanges for the Steamer of Monday has not yet commenced to any extent, and the rates are easy, with good supply of bills. We quote Sterling 8@8¼; Francs 5 32½; Guilders 39@39½; Rix Dollars 78@78½; Marks Banco 35@35½.

The demand for money is less, and the amount of paper offering at the Banks is falling off. This is natural at this season of the year, and this result will be increased this season by the disinclination among the people to enter into liabilities of any kind in the present disturbed state of our foreign relations. After the middle of June it is believed that the money wants will be so reduced that the market will become quite easy.

The receipts on the Mohawk and Hudson Railroad continue to increase. The receipts for the week ending 31st May were:

Passengers	$2,793 15
Freight	191 31
Total	$2,984 46
Same week last year	2,560 68
Excess in 1-46	$123 78

The arrivals at this Port during May were 241, of which 63 were ships, 45 barks and 89 brigs—of these 169 were American, 44 British, and 10 from Bremen. The clearances were 156, of which 98 were American.

The Imports at this Port in May were $5,488,397, against $5,464,733 in May, 1845, showing but a trifling difference. The Exports were $3,114,549, against $2,971,270 in May, 1845. The Exports of Domestic Products were $2,529,096, against $2,466,300. Of Specie there were $291,041 exported, against $200,581. The amount of duties received was $1,277,227, against $1,306,382 last May, and for the five months of this year the amount has been $8,023,305, against $7,478,129 last year.

Nearly twenty thousand passengers have arrived at this Port during the last thirty-two days.

The exports of Domestic Goods during May were 4374 pkgs.

The Dwight Manufacturing Co. at Cabotville, has declared a semi-annual dividend of 8 per cent.

The business of the Canal at Buffalo for the month of May past has been large beyond precedent. The tolls collected are over $122,000, against $84,000 during the same time last year.

The amount of Treasury Notes outstanding on the 1st inst. was $489,364.

The annual meeting of the stockholders of the Boston and Worcester Railroad was held at Boston on Monday. The report of the Directors, describing somewhat in detail their operations during the past year, was read by the President, accepted, and ordered to be printed, together with the report of the Examining Committee of Stockholders. The act of the last session of the Legislature, authorizing an increase of capital stock, was accepted, and it was voted to create new shares to the amount of $500,000, to be offered to those who shall be holders of the stock previously issued on the 8th inst. in proportion of one new share to six shares of the old—The meeting then proceeded to the choice of Directors for the ensuing year, and the members of the old Board were all reelected. The President, Hon Nathan Hale, declines a reelection, but will probably be induced to change his decision.

At Savannah, Sterling was dull at 8a8¼. Fair demand for Domestic bills at par to ¼ prem. Foreign Freights have still farther improved. The ship Stirling obtained a full cargo for Liverpool at 9-16d. ⅌ ℔ for square, and ¾d. ⅌ ℔ for round bales, and ¾d. ⅌ ℔ has been paid in one-or two instances, for small lots, per Br. ship Marchioness of Bute. The bark Rhodes, arrived during the week, refused a full cargo, half square bales, at ¾d. ⅌ ℔ and has proceeded to the Gulf. Nothing doing for Havre. The last engagements for Boston were ¾c. ⅌ ℔ for Cotton, and $1 25 per cask for Rice. To New-York the rate has advanced, and the packets now obtain ¾c. ⅌ ℔ for square and ⅝c ⅌ ℔ for round bales, and $1 per cask for Rice.

The Louisville Journal says:

In this city, from instinctive sympathy, more than from any other assignable cause, there has also been felt some degree of pressure. There has been a greater difficulty than usual to realize bills and other business paper, and accommodation discounts are nearly or quite suspended. The transient alarm is, however, wearing away, and things will doubtless regain their healthy tone in a few days. Banks should be very cautious not to check the course of credits without the strongest reasons—especially for no better reason than a vague apprehension. In times of pressure it is as much their vocation to relieve the pressure as to look to their safety—Sight checks here on the East are at 1 prem—60 days not in demand. Owing to the Mexican war and the very general excitement consequent on it, the ordinary business transactions in our city have been much interrupted. The business of the last three weeks has been very light.

The astonishing success attending them, evinced by the extraordinarily large amount of sales, and the popular approbation bestowed upon them by the many who have given them their patronage, has induced him to call upon the subscriber, who, to show that he is ever anxious to excel in his art, now presents for public patronage the Gossamer Hat much lighter and more pleasant than any other ever before offered. They are not shellac, like the Leghorn and Panama to lose either shape or color from exposure to the rain. They cannot be soiled by either perspiration or oil from the hair, so commonly the case with other Hats, for the much admired style of trimming, originating with the proprietor, effectually prevents all this. This is a decided advantage over all other Hats.
