THURSDAY, P. M.

The Cotton Market is without much animation and prices except the same as yesterday. The year closes with the Funds considerably lower than it opened. Reading is an exception, however, to this remark, that stock having improved 3 or 4 per cent since last Monday. It is, we believe, the only exception. The greatest proportionate decline has been in Morris from 19 to 14. The greatest improvement has been in Delaware & Hudson from 135 to 153. Long Island has fallen away from 19 to 14. Norwich 18 per cent. Harlem 4 per cent. The following table shows the difference in price on Jan 1, 1846, and 31st December, of the leading stocks:

The Foreign Bill Market has been stiffer to-day in consequence of the absorption of the floating bills for the purpose of importing specie. The leading drawers have sold sterling to fair extent at 5¼@5¾ per cent. The aggregate amount sent out by this steamer is large, France alone 3,434@3,542. Some good Southern Francs sold at 5.45. The market closes quite bare of drawn bills.

Freights are firm but not quite so active. Flour to G. B. 5s. 3d.; Grain 19c; Cotton ¾d.

The Phenix Bank has declared a semi-annual dividend of 3½ per cent.

The Morris & Essex Railroad Co. a semi-annual dividend of 3½ per cent.

The New-Jersey Insurance Co. a semi-annual dividend of 5 per cent, payable on the 4th prox.

The Bank of Hamburg, S. C. a dividend of $1 50 per share, being 3 per cent, for the last six months.

The Mohawk and Hudson Railroad Co. has given notice of intention to apply to the Legislature for authority to increase its capital stock $250,000, and to change its corporate name to "Albany and Schenectady Railroad Company."

At Cincinnati the scarcity of funds still continues to be the subject of general complaint among all classes of business men. Domestic paper is very freely offered, only A No. 1, however, is taken. The banks have not the means, from the pressure of the market, to accommodate scarcely a fourth of the persons desiring discounts.

The Message of the Governor of Maryland says that during the year ending 1st December, 1844, the Treasurer paid on account of interest $795,059, *being less* than one year's interest by the sum of $260,361. For the year ending 1st December, 1845, the Treasurer paid for interest on the public debt the sum of $710,784, *being more* than one year's interest by the sum of $85,363. For the year ending 1st December, 1846, the Treasurer paid on account of interest $732,289, being $76,868 more than the accruing interest for the year.

The Governor proceeds to show that the Legislature will be justified, without the imposition of additional taxes in funding the arrears of interest, and in proclaiming a day on which the State shall assume the payment of all current demands upon her treasury. Supposing that the Legislature will decide to fund the arrears of interest to the 1st October next, exclusive of the interest of that quarter, the sum thus to be funded will be $1,877,053.

In our last circular, issued on the 15th inst. we expressed a decided opinion in reference to the probable extent of the present crop of Cotton. The accounts we have since received from the South confirm our views, and we repeat our fears that the growth of this season will scarcely reach 1,900,000 bales. The receipts at the ports up to this time, as will be noticed by our tables, fall but little short of those of last year; and we think it probable that for some time to come, the comparative variation will be trifling, arising from the fact that the picking season, throughout a large extent of the Cotton region, closed much earlier than usual, which gave planters the opportunity of devoting their entire force to the preparation of their crop, while the unusually favorable state of the roads in every section of the country, has afforded the means of getting it easily and early to market.

The market at the date of our last circular, was quiet, and continued so for a day or two thereafter, with moderate sales at our quotations of 15th inst. On Friday, the 18th inst. we were placed in possession of Liverpool accounts to 4th Dec. per steamer Cambria, via Boston, showing that a large business had been transacted in that market during the few days prior to her sailing, and an advance of a farthing per lb obtained, on the quotations by the previous steamer. The nature of these advices created some surprise, as a general impression prevailed that the accounts of continued favorable weather for picking, carried hence by the steamer of 15th Nov. might have had a depressing influence there. The immediate effect of these accounts was an advance of half a cent per lb, at which 7,000 bales were sold on the 19th inst. the total sales of the week amounting to 14,000 bales, a fair proportion of which was taken for export to Liverpool, some little for France and the Continent, and the residue by speculators.

The business of the week ending 26th inst. was less extensive, amounting to 5,000 bales, taken chiefly by manufacturers, without change in price.

During the present week, also, the demand has been limited; and although to force a sale some concession would have to be submitted to, holders generally are very firm in demanding full prices, and no large purchases could be made at even our outside quotations.

FLOUR AND MEAL—There is no change to note—The market remains at 5 50@5 56, with some buyers at the lower figure. Occasionally parcels Michigan and Ohio are sold 6d off 5 50. The transactions are 2500 or 3000 bbls, in lots, mostly at 5 50. The Eastern demand is not very large. Sales 500 bbls fancy Ohio at 5 75.—Of round Ohio, via New-Orleans, sales 800 or 900 bbls were made at 5 31½@5 37½. In Southern there is not much movement. Moderate sales Alexandria and Georgetown at 5 37½@5 50. Meal is without marked change. Sales 1000 to 1200 bbls Pennsylvania and Jersey at 3 94, for shipment. Rye Flour is 3 87½@$4.—Buckwheat scarce and bringing $5 in bbls and 1⅞c in bags. Shorts 82@ cents. Ship Stuffs 12@12½. Fine Feed 16@18 cents.

GRAIN—The purchase of Wheat for shipment referred to a day or two since is reported to be 20,000 bushels, at about 115 cents. To-day there have been sales 2000 bushels Ohio at 108; 3500 do 105, and 1500 do red Illinois at 100 cents—all we believe for milling. Corn is not very plenty, and without particular change. Sales 5000 bushels new Southern at 73, a 1500 do new Jersey at 71, and 600 bushels Texas at 75 cents. A sale of 1600 bushels Barley was made at 63 cents. Rye is entirely nominal—would probably bring 86 cents, delivered. Oats are firm at 39@42 cents, with sales 4900 bushels for export at the highest rate.

WHISKY—The market is heavy, and sales 50 bbls have been made at 24 cents. Drudge is nominal at 24.

HAY—Out of store small sales are making at 56@62½ cents per cwt.

LEAD—An offer of 4 50, time, with interest, was declined for a parcel.

TALLOW—The market is nominally 8¼ cents for prime.

LIME—The last sales of Thomaston were at 80@85 cents, cash.

LATH—The last cargo received sold at $3, cash.

GROCERIES—The leading articles are dull and heavy. Sales 200 bags Brazil, and 200 do Java Coffee were made at previous rates.

PROVISIONS—Pork, with sales 500 or 600 bbls, is 10 25 and 8 37½. The market is scarcely as firm as it was at these rates. Beef has an upward tendency, and sales of City have been made at $7 and $9. The range is 6 37½@$7, and 8 37½@$9, with sales 200 or 300 bbls. The stock is light, which gives firmness to holders.—Sales 100 bbls Beef Hams extra at 11 50@12. In Land there is not much doing. We quote 7@7½ for prime.—Pickled Meats are held higher—3½ and 7½ for Shoulders and Hams. In Butter and Cheese the business is to fair extent at previous rates.

☞ **Thirteenth Ward**—MEETING FOR THE RELIEF OF IRELAND.—At a meeting of the citizens of the Thirteenth Ward held at Green's, No. 5 Sheriff-st. on Wednesday evening, Dec. 30, for the purpose of affording Relief to Ireland, Dr. HENRY G. DUNNELL, was nominated as Chairman, and WILLIAM A. WALTERS, appointed Secretary. The call of the meeting having been read and approved, BENJAMIN F. BUTLER, Esq. in an eloquent and impressive manner addressed the meeting in behalf of the object for which it was called. BARTHOLOMEW O'CONNOR, Esq. then addressed the meeting, and also read some extracts from the Dublin Freeman's Journal, detailing the misery now existing in the south parts of Ireland, in consequence of the want of food. HORACE GREELEY, Esq. next addressed the meeting, forcibly and eloquently, showing conclusively the extent of the distress among the people of Ireland, and the absolute necessity of contributing to their relief, if we desire to have thousands from starvation. Dr. WM. G. BOGGS offered the following resolutions, which were unanimously adopted:

Resolved, That as American citizens, enjoying the blessings of this land of plenty, and protected by the benign influences of our social and political institutions, we feel it to be our duty to look abroad, not only to behold the tyranny and oppression that exists in other countries, but also to take notice of the afflictions and suffering their inhabitants are frequently caused to endure.

Resolved, That we deeply sympathise with the afflicted sons of Ireland, in this, the hour of their calamity. While we know that the causes of their present sufferings arise from circumstances beyond their control, we feel the more deeply bound to render them all the aid in our power.

Resolved, That while we humbly bow to the dispensation of Divine Providence, by which thousands of our fellow beings are brought to great destitution and even starvation, we feel constrained to exert ourselves to rescue them from that imminent danger to which they are exposed, and to afford such relief as will cause the depending heart to beat for joy.

Resolved, That we will cheerfully contribute of our means, though they be small, to prevent, if possible, other men, women and children from suffering the frightful agonies of starvation.

Resolved, That contributions be immediately made for this purpose, and that the name of each donor, together with the amount contributed, be published in the daily newspapers.

After which the following contributions were made:

A Friend, $3; John McCabe, 1; Philip Bennett, 2; Wm. Duff, 5; Thomas Cullen, 2; C. B. Timpson, 5; B. O'Connor, 5; John Godfrey, 1; Michael Flood, 1; John Brady, 3; Jas. CLOVE ANODYNE TOOTHACHE DROPS.

"So quick the cure it almost seemed
That the toothache I had dreamed it."—*A Patient.*

☞ **The Sudden Action** of this astonishing remedy is not its least remarkable characteristic—it is not only quick but permanent in its effect, and may be used with perfect safety. Profuse are the expressions of grateful admiration that have been lavished by groaning sufferers upon this preparation. So well and faithfully has the CLOVE ANODYNE perform all that has been claimed for it, that many attempts have been made to imitate it, and many worthless compounds are offered under the name of Clove Anodyne. Purchasers must be sure and ask for Johnson's Toothache Drops, and observe that the name of Henry Johnson is on the wrapper of every genuine vial. Prepared only by HENRY JOHNSON, (successor to A. B. Sands & Co.) Chemist and Druggist, 273 Broadway, cor. Chambers-st., and 106 Fulton-st. Sold also at 169 Fulton-st. 77 East Broadway, and 303 Hudson-st. Price 25 cents.

GENUINE BEAR'S OIL FOR THE HAIR.

☞ **The hair is very materially affected** by climate and occasional circumstances. To ladies especially, this is a subject of the highest importance. Curls from the heat of a warm room to the cold atmosphere of winter affects the bulbs and roots of the hair most unfavorably.—By far the best remedy for this is the Genuine Bear's Oil.—Females are in duty bound to use it, for they are even more apt than the gentlemen to lose their flowing locks, which have justly been termed "the glory of a woman's head." The Genuine Bear's Oil is perfumed and prepared for the toilet only by HENRY JOHNSON, Chemist and Druggist, 273 Broadway, in the Granite Building, corner Chambers-st.—Sold also at 169 Fulton-st.; 77 East Broadway, and 303 Hudson-st. Price 50 cents for large, 25 cents for small bottles.

Miscellaneous.

CHARLES PERABEAU, Professor of Music, and whose residence is at No. 88 Prince-st. having a few leisure hours at his disposal, respectfully acquaints those desirous of perfecting themselves in the highest branches connected with the art of Piano Forte playing, that he will give a series of lessons commencing Monday, January 4, 1847, and concluding in the month of April next. Having one of Erard's splendid grand action Piano Fortes, together with a thorough practical knowledge of the science of Music, he feels satisfied that he is prepared to impart the most valuable instruction to the young noviciate, as well as to those somewhat skilled in composition and Piano Forte playing. If inconvenient to call at his residence, a note addressed to the Post will be punctually attended to.

NEW-YEAR ADDRESS.

ONCE more, good Friends, as time with speeding wings,
The advent of another NEW YEAR brings,
We come before you, earnest to confess
How deep our feelings of indebtedness—
We are your debtors—for many favors shown,
And sustaining, willingly we own
Nor ask a worthier task than thus to frame
In humble rhyme—a tribute of esteem.

This is the season of abundant cheer,
The City hails with joy the New-born Year:
Economy his stringent hand restrains,
And joyous mirth around supremely reigns:
Happy the guest, and happier yet the host
Or Hostess—now the Ladies guard the post,
Who thus with ardor hospitable strive
Good cheer dispense, and happiness derive.

Now grateful gifts rejoice the youthful mind,
Domestic joys in concord Hide to bind,
Fancy with trinkets—infant sports to aid—
Of every shape, of every size and shade;
From the mere toy—a top—a doll or ball—
To the rich volume—*noblest gift of all.*
