NEW-YORK TRIBUNE.

General Notices.

CAUTION TO THE PUBLIC.

☞ **Johnson's Toothache Drops.**—The Clove Anodyne for the immediate and permanent cure of pain from decayed teeth, having, from its intrinsic value as a remedy, become immensely popular with those who have used it, many imitations have lately been thrust upon the market by unprincipled persons and sold as the original and genuine article. The object of this paragraph is to caution the public against all such spurious compounds, as no Clove Anodyne can possibly be the genuine article, so long and favorably known by that name, but that prepared during four or five years by A. B. & D. Sands, and for the last year by Henry Johnson (successor to A. B. Sands & Co.) who is now the sole proprietor. The only safety for purchasers is to be sure and ask for Johnson's Toothache Drops, and to examine the wrapper of the vial, as every one of the genuine has the signature of Henry Johnson.

Remember that the True Clove Anodyne is an immediate cure for the most violent toothache or pain in the gums, and that it is manufactured solely by HENRY JOHNSON, Chemist and Druggist, No. 273 Broadway, west side, in the Granite Building. Sold also at 106 Fulton-st. 77 East Broadway and 363 Hudson-st. Price 25 cents. d18 tf

TOOTHACHE CAN BE CURED.

☞ **Who would not give** for the relief of Toothache two shillings for an article so long known to the customers of the late Dr. J. H. Hart, as the Clove Anodyne, it destroyes the nerve of the tooth, which every one sure, must know is the cause of Toothache. It has given relief to thousands that have lost many nights of rest by this excruciating pain and who would give grateful testimony to its efficacy if it were necessary; but we leave it to a generous public to give it but a trial and if it does not afford satisfaction in less time one minute the money will be refunded. Prepared and sold wholesale and retail by G. B. HAMMOND & CO. Druggists and Druggists, successors to the Dr. J. H. Hart, corner of Broadway and Chamber-st. adjoining Stewart's new marble buildings.

N. B. The proprietors would call the attention of the ladies and gentlemen to the many articles kept for their convenience, such as Bear's Oil, (genuine) Tooth, Hair and Nail Brushes, Soaps, Cosmetics, Perfumery and all articles appertaining to the toilet. d12 3mos

☞ **Ring's Compound Syrup** of Hydriodate of Potassa, Sarsaparilla, and Yellow Dock. This medicinal remedy is published for the sole benefit of those suffering from rheumatism, pains and stiffness of the joints, swelling of the mercurial nature, abscesses near them, eruptions of the skin, and diseases arising from an impure state of the blood, &c. *From bona fide* experiments, under the direction and supervision of the most eminent of the Faculty, it has received their unanimous recommendation, and many have pronounced it the best possible combination of remedies for the above named diseases. It is prepared from the purest articles and is warranted to give satisfaction. It thins, purifies and quickens the circulation; allays irritation, and leaves every part of the animal economy in a perfect state of health.

The great and increasing demand for an article of this kind has induced the proprietor to bring it before the public, that all may have the benefit of it and know that there is a remedy for these most distressing complaints. It is recommended in full confidence, and needs but a trial to convince the most incredulous of its surprising properties. Prepared and sold by CHARLES H. RING, Druggist, 192 Broadway, cor. John-st.

N. B. Be sure to observe the written signature of C. H. Ring over the cork of each bottle. d18 1m*

☞ **Dr. Banning's Body Brace.**—For the relief of weakness of the voice, lungs, heart, spinal, nervous, female and digestive system—including dyspepsia, constipation, piles, drooping and distortion so common to children and young ladies, a most extraordinary invention. It is perfect substitute for the corset and constraining shoulder brace, with none of their pernicious tendencies. Unlike all others, it acts by supporting the small of the back, making it the fulcrum, and by *lifting* forcibly the whole internal pile of organs. Pamphlets and book "Common Sense," giving information, can be had at the office, 428 Broadway. A lady in attendance on ladies. n27tf D n28 3mW

☞ **Water-Cure.**—Dr. SHEW, having returned from Europe, practises this new system at his Institution (47 and 49 Bond-st.) and in the city generally. The Water-Cure Journal (semi-monthly) by Drs. Shew and Peirson, is published at the very low price of $1 a year in advance. 26 Jan

☞ **Eighth Ward Pioneer Henry Clay Club**—The members of this Club (being the first that was organized in the Union) will give a grand Ball in commemoration of the ratification of the Treaty of Ghent, at the Apollo on the 17th February, 1847. They have made arrangements with distinguished artists, who are already engaged preparing the decorations suitable for the occasion. d3

☞ **D. Griffin's** Patent Heat Generator, for the saving of Fuel. A new and valuable improvement, for the Promotion and Detention of Heat under Steam Boilers and Furnaces for Chemical and Mechanical purposes—Applicable to *Steam Boilers and Furnaces* of every variety of construction, both on land and water. Office 192 Broadway, corner of John-st. New-York.

Those interested need not be told that from 25 to 50 per cent. of heat is lost by the most economical mode of setting Steam Boilers.

This new and valuable improvement was discovered and patented 5th of December, 1842.

The present Proprietors of this improvement are now prepared to offer to the Public a plan for setting *Steam Boilers* and the construction of furnaces for other purposes, that will actually save all the heat that they now lose by the old mode of setting them. They are also prepared to show by actual experiment, and use of the same for two years past, by certificates in their possession, (from business men of irreproachable character,) that from 25 to 50 per cent. of *fuel is saved* to the consumer by the use and application of this principle—that is, the same amount of steam that was formerly required to do all the work by the old mode of setting Boilers is now done (with the application of this improvement) with from half to three-quarters of the fuel.

The same principle may be applied on the Sugar plantations at the South, with the same results as to economy of fuel.

This improvement consists in the peculiar construction of the fire chamber, and the conducting of the flue or flues into the stack or chimney in such a manner that no heat passes off through the chimney: but is retained in and about the boiler where it is wanted.

The Proprietors have Illustrations of the Principle and Drawings at their Office in the City of New-York, where they respectfully invite Steamboat Proprietors, Manufacturers, and consumers of fuel for manufacturing purposes, to call and examine for their themselves. Also, to those who wish to have this invention applied, we would say that the original Inventor is employed to superintend the work.

The cost is but a trifle more than the old mode of setting, while the saving is immense to those who are large consumers of fuel. Any Boilers or Furnaces now in use can be altered with but little expense or delay. All communications by Letter addressed to the proprietors, will be punctually attended to, and every information on the subject cheerfully given.

This improvement will be disposed of to individuals or companies on terms perfectly satisfactory to those who wish to purchase; and we think that the saving to them in one year will cover their cost, so that in reality it costs them nothing.

We respectfully request those to whom this Circular is sent, to read carefully the following certificates from those who now have it in use.

192 *Broadway, New-York, October*, 1845.

This is to certify, That, in the summer of 1845, I was desired by my employers, Messrs. Bach, Son & Co. Rectifiers, Everit-st. Brooklyn, N. Y. to weigh and keep an account of the quantity of coal which was consumed to drive their engine of 5 horse-power, and also to run their still by steam. I weighed and kept the account with all the accuracy I could, and found that it required, upon the average, from 1000 to 1200 pounds of Lackawana lump coal. The boiler was set in as good a manner as most boilers are, in fact it was the same as at present. Sometime after Messrs. Clute & Seabury, Patentees of "The Heat Generator," applied their invention to this same boiler, and I was again directed by my employers to weigh and keep an account of the quantity of coal which was consumed in performing the same work as before, and I found that it required, upon the average, from 700 to 800 pounds of Railroad size Lackawana coal; thereby making a saving of one-third of the quantity used, and also a further saving of one-fourth of the price of the lump coal; because the nut coal is at least one dollar per ton cheaper or less in price than the lump. In order to show that all the heat that is generated by Clute & Seabury's patent apparatus, is confined under the boiler, and does not pass up the chimney, as is too much the case when furnaces are constructed in the usual manner, I will merely mention, that when the engine is at rest, I can put my piece of hot iron through the opening in the chimney where it is required to be made, and completely in the flue of the chimney without burning or any inconvenient feeling; while it would be impossible to place his hand on the top of the chimney when set in the usual manner. I would also mention, that by Clute & Seabury's invention the heat is so confined that it will keep the steam up many hours after the fire is out; and, as proof of the assertion, I have several times, when business has required it, set the engine to work, and pumped water into the reservoir, which is at least 22 feet above the ground, and whisky into the top room of our distillery, without any fire being lighted, the next morning at 8 o'clock, and the fire was extinguished at half past 8 o'clock the preceding evening; and at the time that the engine was pumping, as I have stated, I have taken out the cinders and clinkers from the furnace with my hands, the cinders being perfectly cold. The fact of driving an engine *without fire under the boiler* was such an extraordinary circumstance, that I have called several of my neighbors to witness it, and they all declared that they could not have believed it if they had not seen it.

WILLIAM H. BAZING, Foreman to Messrs. Bach, Son & Co. Rectifiers, Everit-st Brooklyn

August 26th, 1845.

I forgot to state we continue the use of therein invention in the same results.

[*Certificate.*]

Maryland Penitentiary, BALTIM. st, August 14, 1846.

M. D. Griffin—*Gentleman*: In answer to yours of the 11th inst. with respect to the operation of the Patent Heat Generator put up at this institution by your Mr. Seabury, we take pleasure in saying that it has fulfilled our most sanguine expectations. We had, previous to its erection, one of the old-fashioned Furnaces, the consumption of which, during the six working days of each week, was 9,000 lbs. of anthracite lump coal, at a cost of $5 per ton; our consumption, with Seabury's Patent Heat Generator, during the same number of days, is 7,464 lbs. of pea coal, the cost of which is $ 3.25 per ton—an actual saving in the quantity of coal used of 1,536 lbs. per week, or nearly 18 per cent; while the saving in the cost of coal is equal to $3½ per cent—making, within a fraction, an aggregate saving of 20 per cent. With great respect,

W. M. JOHNSON, Warden M. Pen.
EDWARD P. ROBERTS, Clerk M. P.
J. W. KLINE, Superintendent Woollen Department, Maryland Pen.

☞ See similar certificates from E. C. Salisbury, West Troy, N. Y.; John D. Dale, Lansingburgh, N. Y.; Cook & Engle, Brooklyn, N. Y.; G. Lane and C. S. Tippett, Agents Methodist Book Concern, 200 Mulberry-st. N. Y.; Charles Ross & Co. Jefferson Steam Mills, 8th-street, N. Y.; Gen. T. W. Harvey, Sixd-street, corner 3d-avenue, N. Y.; John Adriance, Poughkeepsie, N. Y.; Messrs. Duncan Farrington, Pleasant Valley, Dutchess Co. N. Y.; Messrs. Chapin & Root, Tivoli Factory, Albany, N. Y.; Messrs. Follett & Bradley, Burlington, Vt.; John Horton, 161 South-4th-st. Philadelphia, Pa.; David Trainer, Marcus Hook, Pa.; Messrs. Hollingsworth & Tens, Wilmington, Del.; Messrs. Scott & Co. Del.; Messrs. Johnson, Kline and others of the Maryland Penitentiary, Baltimore; Perry Manufacturing Company, Newport, R. I.; John H. Cheever, No. 2 Liberty-square, Boston, Mass.; Kelley & Spring, Brighton, Mass.

The subscriber has secured in the Patent Office, a new and valuable improvement for the saving of fuel under low pressure and locomotive boilers. The result of saving will be the same as on the high pressure boilers. Can be seen by calling at his Office, 192 Broadway, N. Y.

Situations, &c. Wanted.

WANTED—A person with $300, half cash, half in security, and who would like to travel. This is almost the certainty of making a fortune in a very short time by selling out patent rights for an instrument for bolting meal, &c. The peculiar feature of this office is, its being accompanied with the knowledge of how to prepare two articles of universal and very extensive application. By selling this know ledge to others, the individual can always be certain of realizing his expenses, and much more as he goes along. The most clear and positive proof will be given of the truth of these assertions. It is necessary to apply very soon, and hope no one will give themselves any trouble but those who are prepared. Nothing but a real bona fide offer will be noticed. Inquire for Mr. Johnson, at No. 11 Cliff-st. near to John-st. between 2 and 5 P. M. only. j6 2w*

WANTED—A few men to establish agencies and circulate celebrated medicines in all parts of the country—Said medicines are prepared by an eminent practical physician and chemist who has had 13 years practice in this city and is a member of the Medical Society for the city and state of New-York. For each disease there is a single and state of New-York. For each disease there is a single dose, properly labelled with directions for use and diet, and so that any person can administer them. All preparations procured at this establishment will be warranted to effect a cure. Apply at the German Laboratory, 127 Chatham-st. Address box 1832 post office. All letters must be post paid. n19 tf

WANTED.—A few active young Men to go South or West, to act as Agents for the sale of new and popular publications. $200 over and above their expenses will be insured to them in writing, with an opportunity of clearing $1000 per year. Some men now in our employ will no doubt, make over $1000 per year clear of all expenses—Each man will have his district. Apply at the Agency for these publications, 121 Fulton-st. j3 3t

WANTED—Employment for a number of steady young men and girls to go into the country, where their services for the winter will be equivalent for their board. Apply (if by letter, post paid) to

d11 W. & J. T. TAPSCOTT, 86 South-st. New-York.

WANTED—In a ladies' school up town, a young lady to instruct a junior class in English; one who understands the elements of French would be preferred. Compensation given in some branches of education. Apply to Mr. George Miller, Bookseller, 645 Broadway, near Bleecker-st. j6 3t*

WANTED—An enterprising young business man to go South. One having from $400 to $500 cash capital to invest can have an interest in a lucrative business already established. For particulars address a line to W. M. this office, with real name, stating when and where an interview may be had. j6 3t

WANTED—By a respectable young woman, a situation in a small private family, to do general housework, and is capable of doing plain cooking, washing and ironing, or would act as chambermaid, and is a first rate baker. Best of city references given. Apply at 191 Mott-st. 4th floor, front rooms. j7 2t*

WANTED—By a respectable young woman, a situation to take care of children and do plain sewing or as chambermaid; also a respectable Scotch girl wants a situation to do chamberwork and as waiter. The best of city reference can be given if required. Please to call at No. 49 Christie-st. j7 2t*

WANTED—A situation by a Protestant young woman as children's maid and seamstress, or as chambermaid and waiter; and is willing to make herself generally useful. Apply at 242 Sixth avenue, between Fifteenth and Sixteenth sts. City reference given. j7 2t*

WANTED—By a respectable young woman, a situation to do the general housework of a small private family. The best of city reference given. No objection to go in the country. Apply at 265 William-st. j7 2t*

WITHOUT PAY—The best of servants highly recommended can be had gratuitously at C. MASON'S old established office, 139 Bowery. d25 2tt*

A YOUNG WOMAN—A Protestant with a fresh breast of milk wishes to obtain a situation as wet nurse in a respectable family—her own child is alive and very healthy looking. Can be seen at 36 Thirteenth-st. between Fifth and Sixth av. Highest reference can be given. j6 3t*

A RARE CHANCE.—Agents are wanted to undertake the sale of a new and useful patented article, that can be sold to every family in the Union. To men of respectability and business habits a guarantee of $500 per annum will be given. Apply to C. ALDEN, No. 117 Fulton-st. New-York.

All letters must be post paid. j5 1m*

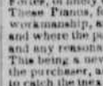
BOARD—One or two single gentlemen can be accommodated with good board and very pleasant rooms at No. 8 White st. where you will find a pleasant and agreeable home. j5 1w*

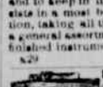
PIANO FORTES.—G. & H. BARMORE offer for sale at their manufactory and warerooms, 359 Bleecker st. an assortment of rosewood and mahogany Piano Fortes, of finely carved Gothic and modern Parisian styles. These Pianos, for mechanical construction, excellency of workmanship, and richness of tone, cannot be surpassed, and where the purchaser has any doubts, they will be set up, and any reasonable length of time allowed to satisfy him. This being a new feature in the business, it is important to the purchaser, as the market is full of traps, well calculated to catch the inexperienced. A responsible warranty, with each instrument. Reference to some of the first families in the city. N. B.—Pianos to let. d15 1m*



IMPORTANT to purchasers of Piano Fortes—The subscribers having purchased of Mr. John Stewart the sole exclusive right in the United States to his Patent Harp Frame Improvement in Piano Forte, are now manufacturing some very splendid Rosewood and Mahogany Piano Fortes, which are warranted superior in tone to any now in use, and to keep in tune much longer. The improvement consists in a most beautiful Harp Frame, peculiar in construction, and in the mode of the strings from the case; also a general assortment of the most approved modern styles of finished instruments. BENNETT, ROGERS & CO. a29 152 Fulton-st. Eastside of Broadway.

FOR SALE at the old stand No. 7 Burling-slip, opposite the Astor House, a variety of 6½, 6¾, and 7 octave Piano Fortes, of every variety of style, with all the modern improvements, in rosewood and mahogany cases, warranted in every respect to give satisfaction or no sale. JAMES THOMPSON, d16 3m Late Gallman & Rahdell.

PIANO FORTES at very low prices.—Persons about purchasing Pianos will find it to their advantage to call at R. Glenn & Co's Manufactory, 194 Fulton-st. (west of Broadway.) A large assortment of Mahogany and Rosewood Pianos constantly on hand, which will be sold low for cash or approved paper. Dealers supplied on liberal terms. R. GLENN & CO. 194 Fulton-st. my27



NUNNS & FISCHER would call the attention of their friends and public to their Manufactory and Ware Room, 179 Greenwich-st. to examine their assortment of Pianofortes. They are the most fashionable and newest patterns. N. B. Pianos with Coleman's Patent Dollar Attachment. d29 1m*

THOMPSON'S PREMIUM TRUSS, improved by I. R. Benjamin, 13 Beekman-st. is universally approved of by the Medical Faculty and all who use them, as the pressure can be graduated from one to fifty pounds on the rupture without a back pad, which does so much injury to the spine causing weakness and pain in the back and sides, and other permanent spinal disease. Six days trial given and if not perfectly satisfactory, money returned. ja19 1eod 1stp

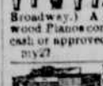
They are constantly receiving the latest styles of Fashionable Jewelry of every description, including Gold Fob and Guard chains, Breast-pins, Ear-rings, Finger-rings Bracelets, Head Ornaments, &c.

Silver Spoons, Forks, Butter Knives and Silverware generally, at the manufacturer's prices.

Britannia ware, Box Cutlery, Fancy Goods, &c. Watches and clocks repaired by experienced workmen.

LOCKWOOD & SCRIBNER, 265 Pearl, d26 tf cor. of Fulton-st. opposite United States Hotel.



WATCHES, JEWELRY and Silver Ware—The subscribers continue to have for sale a full assortment of fine Gold and Silver Watches, of the most approved makers, which will be warranted correct time-keepers, and offered at the very lowest cash prices. They are constantly receiving the latest styles of fashionable Jewelry of every description, including Gold Fob and Guard Chains, Breast Pins, Ear Rings, Finger Rings, Bracelets, Head Ornaments, &c. Silver Spoons, Forks, Butter Knives, and Silverware equal to coin. Gold and Silver Spectacles, Perifocal, Concave, Convex, &c. French Clocks and Watches repaired equal to the original. AKERLY & BRIGGS, 158 Bowery, d16 1m* 6 doors above Broome-st.

FALL FASHIONS.—Hats, Hats—Paris mole skin hats at $5, equal to those sold by others at $6; also elegant dress hats at $2 50 and $2 25, superior in style and finish to those in many places at $3; neat hats at $2. G. G. March will be pleased to see his friends at this establishment. GEORGE P. H. BROWN, d10 1m* 146 Canal-st.

D. KELLINGER'S LINIMENT.—In this wonderful preparation the afflicted have got what they have long and seriously called for. Not a solitary case, in the sale of twenty thousand bottles, has been known failing to do all that was expected of it. It acts like magic in all rheumatic affections; and pains of all and every nature yield to it immediately. It is as certain to cure as disease, of any description, either on man or horse, as the application is made, and in shorter time than any other remedy ever offered to the people. It is very fragrant, safe and agreeable—to be used upon all ages, externally and internally, and no fear of taking cold after its use Mr. James Murphy of the Brewery Line of Stages, say that it saved the life of one of his men; and in using two dozen cows a bottle has failed.

High Bridge.—At this place grace after grace has been used without a failure. Mr. Arnold Mason and Mr. Samuel Roberts, builders of the bridge; Mr. Mason says, that by the use of three or four bottles his rheumatic pains have been entirely eradicated. Mr. Roberts gives it his opinion that it was one of the great causes of saving his life from an injury sustained from a fall. To be had at 30 John-st. and at the great Central Depôt, Harlem Railroad Office City Hall, in large bottles, at 50 cents per bottle. n30 3m

ASHES INSPECTION.

THE UNDERSIGNED have associated themselves under the same and firm of FREEMAN, JEWETT & CO. for the purpose of carrying the business of inspection of Pot and Pearl Ashes, and have opened an office No. 63 and 65 Washington-st until the 1st of May next, after which time they will be found at the old established Inspection Warehouse, 46 and 48 West-st. in the city of New-York.

The matter of inspection in future, being unrestricted and free, as regards legal requirements, still it is presumed, it will not supersede the necessity of the classification of these articles according to the proper standard by persons competent to perform the same. This seems to be called for from the skill and experience necessary to arrive at the different properties of the articles, the preservation of the character of their respective marks, and also as affording the convenience and facilities of dealers in these articles.

The undersigned feel assured that they are entitled to the confidence of the public on the score of a thorough knowledge of the articles they propose to inspect and classify, all the members of the firm having been practically and a most constant, and for a long period, engaged in the inspection of ashes, and in future will give their personal attention to the business. It will be our aim to preserve the standard of inspection and do justice to the manufacturer and the consumer.

The fees of inspection will be reduced from former rates, twenty per cent, and fixed at eight cents per hundred pounds, which will be invariable.

Ashes will be received at the Warehouse on storage, at the usual rates, subject to order for inspection or otherwise.

Submitting the above matters to your consideration, we shall be pleased at all times to receive any ashes you may see fit to entrust to our care.

Very respectfully, your obedient servants,
FREEBORN, JEWETT & CO.
J. F. FREEBORN, N. H. JEWETT,
R. M. CASSIDY, J. H. LESTER,
January 1, 1847. J. W. DEGRAUW. d31 1m

Patent Medicines.

GREAT AMERICAN REMEDY.
DR. G. C. VAUGHN'S ADVERTISEMENT FOR 1846.
The Great American Remedy—Vaughn's Vegetable Lithontriptic Mixture.

THIS UNIVERSAL PANACEA is now being introduced into Europe, the East and West Indies, South America, and all other parts of the globe, where disease exists in any form. The United States and the Canadas have for the past three years severely tested the virtues which the proprietor, upon the introduction of this medicine, boldly and to say it possessed. In introducing the GREAT VEGETABLE REMEDY, the most startling promises were made on the part of the medicine—so novel was the theory—the principle—upon which the cures were to be effected, that people threw up their hands and cried, what next? Even credulity startled with surprise, and the so called "Faculty" made themselves merry over the "new humbug." But mark the result—the three years have passed away—public opinion, the voice of millions and more of observing individuals, have stamped this REMEDY the most singular, wonderful, incomprehensible and miraculous curative power ever produced. The ONE GREAT DISEASE which the proprietor of this medicine had the presumption to say existed, and that all various diseases were but the offspring of, has proved to be a fact. They must believe, for they have witnessed the effect of this restorative. It has conquered all cases, by simply conquering the one. The "Old School" now open their eyes. Their old dogmas, like the morning mist, fly before the light of truth, and common sense now seeks a road to health, in a new way, instead of going the old beaten track. The truth of the principle claiming the virtues of this article cures is established, and the assertion is again boldly, most emphatically, most decidedly reiterated: *This medicine will drive from the body every disease which has a name—every blue constitution of the system which can exist. If some and simple remedy, that can be used by the weakest of the weak, can restore to a perfect state.* The old chronic sufferer, bleeding, blistering system is about to be exploded. The proof daily presenting itself of the truth of our THEORY, is a prop out of the old structure, which will soon tumble to the ground, a shapeless mass of ignorance and deception.

INVALIDS, resort at once to this medicine. It is a strictly VEGETABLE REMEDY, the product of our own soil—a compound of twenty-two different ingredients. Each ingredient has its peculiar part of the work to perform, and this action is always produced. Its effect upon the whole system is immediately apparent. Testimony of the highest character is daily coming to the proprietor, full of truth, and you will always see names, places and dates. Not a particle of false evidence is offered on the part of this GREAT CURATIVE—The most careful perusal of the pamphlet is desired. It gives the character of all the secondary complaints which always follow in the train of the primary cause, of saving health—the most dreadful cases of lingering complaints which it has been the fortune of any medicine to cope with, is found—cases which have been left to die. Hundreds in every large city of our Union and the Canadas have to think this article for their lives, and are daily urging others to use it, as the only remedy. The proprietor will show, by testimony, the wonderful cures which have been effected in his own extensive practice in England, in which the Liniment has not once failed of its efficacy, Dr. Bow has approbatory letters from distinguished individuals in Great Britain and America, avouching the complete success of this valuable medicine. To be had, with directions for using it, at 135 Chatham-st., 153 Eighth-st., 191 Grand-st. Williamsburgh, and at 306 Bowery, corner of Bond-st. N. York, at $1 per phial. d25 1m*
